**PREFACE**

Department of Customs has been continuously disseminating its activities through various publications. "Nepal Foreign Trade Statistics, 2014/15 (2071/72)" is one of the series. This year book has attempted to enlighten the overall trade scenario of Nepal. This year book has presented bilateral trade flows classified under Harmonized System of Commodity Classification and Coding System (version 2012) which has been disaggregated to each partner country level. Besides trade statistics, it visualizes the revenue realization by chapter and commodity level generated through importation.

This series has been compiled largely based on *International Merchandise Trade Statistics: Concepts and Definitions, Revision 2* (IMTS, Rev.2) and *International Merchandise Trade Statistics: Compilers Manual* (IMTS: Compilers Manual). Exclusion and inclusion criteria of bilateral commodity flows are carried out aligned with the above manual. Imports and exports values are based on C.I.F. and F.O.B. basis respectively. Department of Customs assumes that this publication would serve for a wider section of the society namely business communities, public policy leaders, and academia, and many more.

Finally, the many hours devoted to compiling, processing and tabulating of this piece of work by the staff of the Statistics Analysis Section, in particular, Binod Sharan Acharya, Ram Krishna Regmi and Sharada Sharma who retained the overall responsibility for this publication are acknowledged.
