

SN	Program Indicator Name
1	Clients currently on ART at the end of last month (Female, >14 years)
2	Patient transferred in (Female, >14 Yrs)
3	Patient transferred in (Male, >14 Yrs)
4	Patients missing (Male, >14 yrs) during the reporting period
5	Patients missing (other sex) during the reporting period
6	Patients lost to follow-up (female, >14 yrs) during reporting period
7	Clients currently on ART at the end of last month (Female, >14 years)
8	Clients currently on ART at the end of last month (Male, >14 years)
9	Clients currently on ART at the end of last month (Other sex)
10	Number of PLHIV newly initiated on ART during reporting period (Female, 15+ yrs)
11	Number of PLHIV newly initiated on ART during reporting period (Male, 15+ yrs)
12	Number of PLHIV newly initiated on ART during reporting period (Other Sex)
13	Patient transferred in (Female, >14 Yrs)
14	Patient transferred in (Male, >14 Yrs)
15	Patient transferred in (other sex)
16	Patients restarting ART treatment (female, >14 years)
17	Clients currently on ART at the end of last month (Female, >14 years)
18	Clients currently on ART at the end of last month (Male, >14 years)
19	Clients currently on ART at the end of last month (Other sex)
20	Number of PLHIV newly initiated on ART during reporting period (Female, 15+ yrs)
21	Number of PLHIV newly initiated on ART during reporting period (Male, 15+ yrs)
22	Number of PLHIV newly initiated on ART during reporting period (Other Sex)
23	Patient transferred in (Female, >14 Yrs)
24	Patient transferred in (Male, >14 Yrs)
25	Patient transferred in (other sex)
26	Patients restarting ART treatment (female, >14 years)
27	Patients restarting ART treatment (male, > 14 years)
28	Patients restarting ART treatment (other sex)
29	Patients deceased during reporting period (female, >14 yrs)
30	Patients deceased during reporting period (male, >14 yrs)
31	Patients deceased during reporting period (other sex)
32	Patients missing (female, >14 yrs) during the reporting period

33	Patients missing (Male, >14 yrs) during the reporting period
34	Patients missing (other sex) during the reporting period
35	Patients lost to follow-up (female, >14 yrs) during reporting period
36	Patients lost to follow-up (male, >14 yrs) during reporting period
37	Patients lost to follow-up (other sex) during reporting period
38	Patients stopped ART treatment during reporting period (female, >14 yrs)
39	Patients stopped ART treatment during reporting period (male, >14 yrs)
40	Patients stopped ART treatment during reporting period (other sex)
41	Viral load test performed among PLHIV on ART (last 12 months) (Female, >14 years)
42	Viral load test performed among PLHIV on ART (last 12 months) (Male, >14 years)
43	Viral load test performed among PLHIV on ART (last 12 months) (Other sex)
