Press Statement on the Evolving Developments between
Iran and Israel

Nepal is deeply concerned about the evolving developments between Iran and Israel in recent times.

We have been closely observing the situation.

Nepal urges both sides to avoid escalation and adopt conciliatory approach for peace and stability in the region and beyond. Use of diplomatic channels for dialogue would be instrumental towards de-escalation of the situation.

Our Missions in Doha and Tel Aviv are in contact with the Nepali communities in Iran and Israel respectively. All Nepali citizens in both the countries are advised to remain vigilant of the situation, exercise adequate caution and adhere to local advisories.
