Press release on the third meeting of China-Nepal Coordination Mechanism on Border Trade and Cooperation

The third meeting of the China-Nepal Coordination Mechanism on border trade and cooperation was successfully held in Lhasa, Xizang Autonomous Region (XAR), from January 20 to 21, 2026. It was co-chaired by Dr. Ram Prasad Ghimire, Secretary of the Ministry of Industry, Commerce and Supplies of the Government of Nepal and H.E. Mr. Zhao Peng, Vice Chairman of the Xizang People's Government. The meeting reached broad agreements on enhancing bilateral trade, improving connectivity, and strengthening cross-border cooperation.

Both sides agreed to move forward with discussions on key frameworks, such as the 1981 Trade and Payment Agreement, simplifying border passes, speeding up the construction of the Tokha Chhahare Tunnel, setting quotas for fertilizer imports, extending China's zero-tariff policy after Nepal's graduation for the LDC status, and improving vehicle rerouting during disasters.

To improve border operations, the two sides agreed to effectively carry out the Nepal-China Border Transport Agreement to enhancing bilateral trade by reducing time and cost of trade. Both sides agreed to promote trade using a green channel for Nepali silage exports with risk-based inspections, along with better lab testing, data sharing, vehicle movement, and improvements in jute exports. Both sides reaffirmed their commitment to border law enforcement for security.

Both sides have reached a mutual understanding regarding the proposal for the Kimanthangka road-bridge-Inland Clearance Depot (ICD), which will be pursued through diplomatic channels. Discussions also covered moving forward with the Jilong (Rasuwa) ICD, building a new Lizi (Mustang) ICD, speeding up the Hilsa-Simikot Road, easing customs procedures at the Lizi port, and appreciating China's support for the Rasuwagadhi-Syaphrubes Road.

For investment and tourism, Nepal welcomed the idea of a sister-city link between Jilong and a rural municipality of Rasuwa district, and requested for a formal proposal. Both sides agreed to task the Nepal-China's Xizang Joint Tourism Coordination Committee (JTCC) to develop an action plan for a Jilong-Rasuwa Trans-border Tourism Zone and Nepali side proposed a joint high-level visit for the next phase of the Nepal-China Agricultural High-Tech Park.

In broader cooperation, both sides agreed to implement the concept of Authorized Economic Operator (AEO) certification, resuming bus service between Kathmandu and Lhasa, improving quality and safety of goods through training, recognizing each other's medical qualifications, and strengthening ties in traditional medicine.

The meeting was held in a friendly and cooperative atmosphere, and it established a solid basis for the future collaboration. Both sides agreed to hold the fourth meeting in Kathmandu on a mutually agreed date.
