Contract No: DoNIDCR/NCB/2082-83/02

Clarification from Bidder				Response from DoNIDCR	
No.	Section No	Page No	Clause Description	Comments	Response
1	Section V: Schedule of Requirement, B. Laptop Computer	82	Processor Core Ultra 5 Processor Series, 12 cores	We request you to either remove the base frequency and Cache memory requirements altogether, or determine which specific processor you require and amend the base frequency and cache memory requirements based on that processor.	The specification is minimal.
			Efficient-core Base Frequency 2.7 GHz or above		The specification is minimal.
			Cache Memory 20 MB or above		The specification is minimal.
2				Please also specify whether you require in-built Wi-Fi and an in-built webcam for laptops, as the presence or absence of these components can drastically change the base prices	For the laptops, in-built Wi-Fi and an in-built webcam are not required.
