Client: Department of National ID and Civil Registration, Singh durbar, Kathmandu
Date: 29 Jan 2026

RFP No.: DoNIDCR/NCB/2082-83/03
Contract No: DoNIDCR/NCB/2082-83/03

Clarification from Bidder				Response from DoNIDCR
No.	Section No	Page No	Clause Description	Comments
			Full-resolution output (no "webcam compression"). Tethering transfers original photos (and often RAW files) at the camera's full quality. UV/C is typically optimized for video streaming and may apply compression or limit resolution.	Please refer to Section V. Schedule of Requirements: Technical Specification A Digital Camera, 4 Effective Pixels and 7. Image file format.
			Complete remote camera control: Allows controlling exposure settings (ISO, shutter, aperture), focus, shooting mode, and other parameters directly from a PC useful for documentation, lab work, studio setups, or fixed-angle capture	Please refer to Section V. Schedule of Requirements: Technical Specification A. Digital Camera 14 Focus and 15 AF Points.
			Live View on PC with better workflow: Operators can preview framing/focus on a larger screen, reducing errors and re-shoots—especially helpful in inspection, evidence recording, product documentation, and training.	Please refer to Section V. Schedule of Requirements: List of Goods and Related Services and Technical Specification for the intended purpose and minimal specification of the Camera.
			Faster review and reporting: Immediate review, selection, and labeling of images supports quicker report preparation and faster submission to stakeholders.	Please refer to Section V. Schedule of Requirements: List of Goods and Related Services and Technical Specification for the intended purpose and specification of the Camera.
