Foreword

It gives us great pleasure to present the publication "*Statistical Information on Nepalese Agriculture 2023/24*", a comprehensive compilation of agricultural data that reflects the current status, progress, and challenges of Nepal's agriculture and livestock sectors. This annual report serves as an essential reference for policymakers, researchers, development partners, investors, and all stakeholders engaged in agricultural development, food and nutrition security.

Agriculture remains the backbone of Nepal's economy, providing livelihoods to a majority of our population and playing critical roles in food security, employment, and rural development. In recent years, the sector has witnessed dynamic changes, influenced by climate variability, technological advancement, changing consumption patterns, and policy reforms. Comprehensive, timely and accurate agricultural data is vital to understanding these changes, monitoring progress, and formulating evidence-based policies.

The 2023/24 edition incorporates updated statistics on crop and livestock production, land use, input utilization, agriculture trade, and other relevant indicators.

We commend the diligent works carried out by all provincial ministry of agriculture and other public offices who kindly shared primary data and their cooperation in data validations. We complement Dr. Hari Bahadur K.C., Joint Secretary and Division Chief of Planning and Development Cooperation Coordination for his overall guidance to bring this publication on time. Likewise, staffs under Statistics and Analysis Section are acknowledged for their dedicated efforts in compiling, processing and finalizing data.

As we strive towards a more resilient, inclusive, and sustainable agricultural system, we are confident that this publication will serve as a valuable tool for all who are committed to the development of Nepal's agriculture and livestock sector.

Preface

It is with great satisfaction that the Ministry of Agriculture and Livestock Development presents the latest edition of the *Statistical Information on Nepalese Agriculture 2080/81(2023/24)*, an annual publication that serves as a key source of comprehensive data on the agricultural sector of Nepal. This publication continues our commitment to share official statistics to our wider audiences that supports for informed policymaking for the development of agricultural sector and related other sectors.

Agriculture remains a cornerstone of Nepal's economy, contributing significantly to national GDP, employment, and food security. In this context, the availability of timely, reliable, and accurate agricultural statistics is crucial for planning, monitoring, and evaluating policies and programs. Policy makers, agri-traders, farmers, academia and researchers are expected to benefit from this publication.

The data presented here have been collected through coordinated efforts at various levels of government, including central, provincial, and local levels. The publication also reflects ongoing efforts to improve data quality, adopt modern data systems, and align with national and international statistical standards.

I would like to extend my sincere appreciation to Mr. Ram Krishna Regmi, Senior Statistics Officer and Mr. Kamal Raj Gautam Statistics Officer, from Statistics and Analysis Section for their efforts in bringing this publication in this shape.

Comments feedbacks in this yearbook are heartily welcome.

Dr Hari Bahadur K.C.
Joint Secretary
