Flash I REPORT 2077 (2020-021)

Government of Nepal
Ministry of Education, Science and Technology
Center for Education and Human Resource Development
Sanothimi, Bhaktapur
2021

Foreword

The Integrated Educational Management Information System (IEMIS) in Nepal has been gradually evolving and demonstrably improving from the perspective of information collection, interpretation, presentation and application. EMIS has been specifically used to derive the Flash Reports I and II.

This report (Flash I 2020-21) provides a snapshot of schools, enrolments, internal efficiency including promotion, repetition, drop out and survival rates of students at all levels of the school education system i.e. province, Local Level and districts in disaggregated forms. Furthermore, this report analyses the indicators set in the SSDP and assesses their targets based on the achievements to see how well schools are supplied with basic support from EDCUs. Such measures give an indication of the effectiveness of the education system. IEMIS helps to identify whether the education system is functioning well and indicates special areas where greater attention is needed. This kind of information with regards to school performance has been instrumental for evidence-based educational planning and monitoring at district, regional and national levels.

In the process of preparation of this report even in the unfavorable situation of the COVID-19 pandemic many people and organizations have contributed in various ways. In general, this report is the result of collective and collaborative effort of IEMIS core team of CEHRD, Province and Local Level officials. The constructive suggestions and feedback of the Development Partners have played the significant roles in this process. I am grateful to all organizations and individuals who have contributed significantly to the overall process of this report and, thus, would like to extend gratitude for their contribution. Any suggestion and feedback for its improvement is highly appreciated.

Choodamani Paudel
Director General
Center for Education and Human Resource Development
Sanothimi, Bhaktapur, Nepal

Table of Contents

|---|-------|
| Table of contents | i |
| List of tables and figures | i-iii |
| Abbreviations | iv |
| SECTION I | |
| 1.1 Introduction | 1 |
| 1.2 Flash reports | 2 |
| 1.3 Purpose of Flash reports | 2 |
| 1.4 Report Preparation | 3 |
| 1.5 The Effects of the COVID-19 pandemic in school education | 3 |
| 1.6 Transition to a Web-based IEMIS | 5 |
| 1.7 Federal Transition and Challenges | 8 |
| 1.8 Challenges | 8 |
| 1.9 Lessons Learned | 9 |
| 1.10 The Key Findings, 2020-21 | 10 |
| 1.11 Progress on SSDP Key Performance Indicators | 13 |
| 1.12 Disaggregation of Data | 17 |
| SECTION II | |
| 2.1 Early Childhood Development and Pre-Lower basic Classes (ECED/PPE) | 20 |
| 2.1.1 Major Provisions | 20 |
| 2.1.2 Number of ECED centres and PPE classes | 20 |
| 2.1.3 Number of children in ECED centers and PPE classes | 21 |
| 2.1.4 Caste and ethnicity of children in ECED and PPE | 23 |
| 2.1.5 Children with disabilities in ECED and PPE | 24 |
| 2.1.6 GER and NER in ECED and PPE | 25 |
| 2.1.7 Gender, caste, ethnicity and qualifications of ECED/PPE teachers | 26 |
| 2.1.8 Grade 1 progression | 27 |
| SECTION III | |
| 3.1 School education | 32 |
| 3.2 Number of Schools in Units, Levels and School Student Ratios | 32 |
| 3.3 Enrolment | 38 |
| 3.3.1) Total Enrolment at Basic level by types of schools | 38 |
| 3.3.2 Dalit, Janajati, and Other enrolments at lower basic, upper basic and basic levels | 43 |
| 3.3.3) Gross and Net Enrolment Rates, and Gender Parity Index (GER, NER and GPI) at lower basic, upper basic and basic levels | 48 |
| 3.3.4) Internal efficiency at lower basic level | 56 |
| 3.3.5) Internal efficiency at upper basic level | 57 |
| 3.3.6) Quality of Basic Education based on the National Assessment of Student Achievement (NASA) in Different Grades and Rounds | 58 |
| 3.4 Teachers information at lower basic, upper basic and basic levels | 62 |
| 3.4.1) Total reported number of teachers by sex at lower basic, upper basic and basic levels in all types of schools | 63 |
| 3.4.2) Proportion of teachers by Dalit and Janajati at basic level | 65 |
| 3.4.3) Student Teacher Ratios at basic level | 66 |
| 3.5 Secondary Education | 68 |
| 3.5.1 Enrolment | 68 |
| 3.5.2) Total Enrolment at Secondary level by types of schools | 69 |
| 3.5.3 Dalit, Janajati, and Other enrolments at secondary education by level | 72 |
| 3.5.4) Gross and Net Enrolment Rates, and Gender Parity Index (GER, NER and GPI) in secondary education by levels | 77 |
| 3.5.5 Secondary level Internal Efficiency | 79 |
| 3.6 Teachers' information at secondary (grade 9-10), secondary (grade 11-12) and secondary levels | 80 |
| 3.6.1) Total reported number of teachers by sex in secondary education by levels in all types of schools | 80 |
| 3.6.2) Proportion of teachers by Dalit and Janajati at basic level | 83 |
| 3.6.3) Student Teacher Ratios (STR) at secondary level | 83 |
| 3.6.4) Teacher training | 85 |
| SECTION IV | |
| 4.1 Availability of textbooks at lower basic, upper basic and secondary levels in community schools | 86 |

SECTION I

1.1 Introduction

This is the 31th edition in the series of Flash Reports produced by the Center for Education and Human Resource Development (CEHRD) since Flash reporting began in 2004. It is also the Fourth Flash I report to present EMIS data by the country's new administrative setup under the 2015 federal constitution with data presentation of each of 7 provinces and 753 local governments.

The Flash Report I 2020-21, prepared by the Center for Education and Human Resource Development (CEHRD), presents the school level statistics at the beginning of the school year 2020-21 based on data received up to the date of 7th November 2020 (as due to the effects of the COVID-19 pandemic the original prescribed date of Flash I School Census:- May 20th 2019 was significantly delayed) with a view to presenting various dimensions of education statistics to facilitate the planning, programming, resource management, plan implementation and monitoring activities of the School Sector Development Plan (SSDP) 2016-017 to 2020-021.

The Government of Nepal has been implementing the School Sector Development Programme (SSDP 2016-017 to 2020-021) with the aims to shape and achieve the Sustainable Development Goal (SDG4) on Education to “Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.” Towards this, it entrusts MOEST/CEHRD with the leadership, co-ordination and monitoring of the Education 2030 agenda, especially with regard to agreed performance indicators of school education. It calls upon the EMIS/CEHRD to provide independent monitoring and reporting of the SDG Goals on Education (SDG 4) and on education with regard to other SDGs for the next fifteen years. The Flash Report 2020-021 provides valuable insight to governments and policy makers to implement, monitor and accelerate progress towards SDG 4, building on the indicators and targets of SSDP, with equity and inclusion as measures of overall success. As this current fiscal year is the last year for the ongoing education sector plan of SSDP, the Flash Report I 2020-21 has the extra importance to feed in the base line data/information for the upcoming periodic education sector plan (i.e. it is the most probable 2021/22-2030/31).

The ability of the Government to ensure continuity of learning as per its commitment and the right of all children in Nepal was severely disrupted during the period that the current Flash I report captures due to the emerge of the COVID-19 pandemic in Nepal. Following the declaration of the pandemic by the WHO and cases started to be reported in Nepal, the Ministry of Education, Science and Technology (MoEST) postponed education activities and closed all schools and educational institutions in March 2020 for a period of nine months. During this period, the Government with support from the Nepal Education Cluster members and Development Partners initiated several initiatives to support students to continue their education through alternative learning modalities, which included online resources, media-based lessons and printed learning books for those students that did not have access to the earlier mentioned types of media. A contingency feature was added in EMIS to monitor the different types of alternative learning modalities that Local Governments introduced and the extent to which students accessed these, which has been presented in table 1.1 below

| Province | Total Number of Schools | Print materials provided by LG/ School | | Broadcast by Radio | | Broadcast by NTV | | Computer without Internet Connection | | Learning Portal | | Teacher in Small Group in Community/ School | |
|--------------------|-------------------------|--|--------------|--------------------|--------------|------------------|--------------|--------------------------------------|--------------|-----------------|--------------|---|--------------|
| | | | | | | | | | | | | | |
| Bagmati | 6,953 | 5,245 | 75.4% | 2,760 | 39.7% | 2,479 | 35.7% | 1,483 | 21.3% | 2,104 | 30.3% | 6,312 | 90.8% |
| Gandaki | 4,137 | 2,684 | 64.9% | 1,108 | 26.8% | 1,077 | 26.0% | 778 | 18.8% | 943 | 22.8% | 2,823 | 68.2% |
| Karnali | 7,031 | 2,146 | 30.5% | 1,121 | 15.9% | 371 | 5.3% | 302 | 4.3% | 371 | 5.3% | 2,084 | 29.6% |
| Province 1 | 4,317 | 3,684 | 85.3% | 2,503 | 58.0% | 1,781 | 41.3% | 1,136 | 26.3% | 1,304 | 30.2% | 3,320 | 76.9% |
| Province 2 | 5,707 | 760 | 13.3% | 504 | 8.8% | 265 | 4.6% | 209 | 3.7% | 266 | 4.7% | 1,713 | 30.0% |
| Limbini province | 3,167 | 2,597 | 82.0% | 1,702 | 53.7% | 1,076 | 34.0% | 582 | 18.4% | 779 | 24.6% | 2,361 | 74.6% |
| Sudurpaschim | 4,208 | 3,378 | 80.3% | 3,020 | 71.8% | 1,553 | 36.9% | 1,040 | 24.7% | 1,078 | 25.6% | 3,228 | 76.7% |
| Grand Total | 35,520 | 20,494 | 57.7% | 12,718 | 35.8% | 8,602 | 24.2% | 5,530 | 15.6% | 6,845 | 19.3% | 21,841 | 61.5% |

From this, the relevance of low-tech modalities is clearly visible, with teachers continuing to teach students in adjusted small groups and students continuing to learn through printed materials being the preferred modalities over media-based and online resources by the majority of Local Governments.

Despite these efforts, a majority of the students in basic and secondary education will have suffered a significant loss of learning due to the school closures and the stress that the pandemic and the measures imposed to curb further transmission will have caused within their households. This will have further increased existing disparities in learning outcomes across students from different gender, social groups and geographical locations, based on the means they had during the school closure period to minimize the disruption to their learning. As schools were reopening in November 2020 upon the finalization of the School reopening Framework, local governments were able to complete the reporting into the EMIS to allow the data collection for the Flash I report to be completed. The Government also extended the 2020-21 academic year with an additional two months to allow schools more time to support students in making up for lost time. However, schools had to reclose in April 2021 following a new spike in transmission.

1.2 Flash reports

Since the very beginning of the Flash Reporting System (school year 2004) in Nepal, the CEHRD has been produce three reports to report the status of the school education for each academic year:

- Flash report I presents the input data at the beginning of the academic year covering the input and process indicators: numbers of students enrolled, the number of teachers, student-teacher ratios, whether or not textbooks are received on time and other indicators and information.
- Flash report II presents output data at the end of each academic year covering the output/ outcome and programme indicators: including data on student retention, attendance, school performance (SIP, Financial and Social Audits), student achievement and other indicators.
- Consolidated report is prepared each year to present the five-year trend of intake and output data of the school education system.
- These reports present the data submitted by schools via Web-based portal of Integrated Educational Management Information System (IEMIS) to the local, province and federal governments. The data presents the data/information from early childhood education and development (ECED) and pre-lower basic education (PPE) through to the secondary level (Grades 11-12) by types of schools (community (public), institutional (private) and religious and others schools).

1.3 Purpose of Flash reports

The overall purpose of Flash reports is to show trends and provide evidence to inform the policy, planning, programming, resource management, implementation and monitoring of the school

education sector, particularly by identifying gaps in provision and disparities in achievement:

- Flash report data is a key means for three tiers of government:- federal, provincial and local governments and policy makers to monitor the progress towards achieving the SSDP targets against its Results Framework and Key Performance Indicators (KPIs), and also against the SDG 4 indicator framework and develop further plan accordingly to achieve the gaps against the set targets, which is part of Nepal's National Plan of Action (NNPA) for the education sector to 2030.
- This 2020-21 Flash 1 report specifically informs the Annual Strategic Implementation Plan (ASIP) and Annual Work Plan and Budget (AWPB) for fiscal year 2021-20.

1.4 Report Preparation

Process – Since the very beginning of the EFA 2004 the Flash reports have been prepared by the EMIS Core Team, which is headed by the Deputy Director General of CEHRD's Planning and Monitoring Division. The draft version of the report will share with MoEST and the Nepal Local Education Development Partner Group (LEDPG) for suggestions and feedbacks. This report will subsequently finalize by the EMIS Core Team based on the feedbacks provided.

1.5 The Effects of the COVID-19 pandemic in school education

In spite of the constraints due to the COVID-19 pandemic effects (all the schools closed throughout the country and the original prescribed date for Flash I School Census:- May 20th.2019 was disturbed) in the school education the CEHRD able to produce this report as per the 34,240 schools those able to upload/provide their information onto the EMIS web-portal by 13th. March 2021. The effects and impacts for the foreseeable future on the Nepal education sector are yet to become clear. In the short term, the schools have been closed nationwide and examinations have been postponed since the 23th of March 2020, prior to the beginning of the 2020-21 academic year. Even in this un-conducive situation, the CEHRD has been continuously facilitated to the education offices/sections of the Local government and also schools to bring them in orientation training on IEMIS with the co-ordination of respective province government. Furthermore, in response to this situation, the Government supported by the Nepal Education Cluster and the education sector development partners, undertook the following to reduce the loss of learning among its 8.12 million students of basic- and secondary education level age:

In terms of the coordination and management of the COVID-19 response, the following frameworks, procedures and guidelines were adopted:

- A **COVID-19 contingency plan** was developed in April 2020, with costed activities and case load to ensure adequate capacity for management and coordination during the response period, strengthen prevention and resilience within the school system and among students, teachers, parents and caregivers, and support continuity of learning for all children in all areas including children with disabilities and from marginalized backgrounds.
- Following this, **Guidelines on facilitating students' learning through alternative education** were adopted in May 2020 to support to effectively and systematically facilitate learning through an alternative education system, including distance and open education, in order to resume the learning system disrupted by the COVID-19 infections and to create an environment conducive for children of schoolgoing age to learning in their context until regular teaching and learning activity resumes in school.
- The **school reopening procedure** was approved in June 2020 in line with the school reopening framework that was being developed to guide different levels of governments and school authorities on how to operate schools in a safe environment by providing a clear outline of the pre-school reopening preparation, operation of school during and after reopening and learning

management required by both local level and school

- The **teachers 'professional development training through distance education standard operating procedure** was produced in June 2020 as well, specifying the roles and responsibilities among government entities from federal to school level in terms of teacher professional development.
- The **school disinfection guidelines** were approved in September 2020 to support the local governments and schools on operationalizing school disinfection process for reopening and resumption of learning in a safe environment, especially in the cases where schools had been utilized as quarantine centres.
- In September 2020, the **school level education curriculum was formally reduced** from the minimum required 1,024 hours spread across 190 days to 690 hours for class 1-3 and 848 hours for class 4-10, which constituted an overall reduction of around 30%.
- In October 2020, the COVID-19 contingency plan was transformed into a costed **COVID-19 emergency action plan** for the education sector, recognizing that the current context will be a type of crisis that goes beyond a 'normal' contingency period and incorporating the additional support communicated from joint financing partners, including the accelerated COVID-19 response budget.
- Finally, the **school reopening framework** was formally approved in November 2020, providing formal procedures and processes for local governments to reopen their schools and detailing what should be assured and undertaken before, during and after the schools reopened.

In addition to these measures, the government and development partners also produced **resources to facilitate learning through alternative modalities** based on the context and needs of the different groups of students in the country. This included the development of self-learning packs, for which the Nepal Education Cluster developed grade-wise learning books from ECED to grade 8 aligned with the formal curriculum, of which up to date radio and television-based education programs and a digital learning portal (<https://learning.cehrd.edu.np/>) in which interactive modules have been uploaded. As a result of this, the Nepal Education Cluster reported that, as of September 2020:

- 1 million children have been reached by radio learning and 1,764 video & audio lessons were produced
- 165,000 self-learning materials were produced and distributed to children with no access to internet, or media and an additional 49,650 children were reached by home-based learning support
- 202 schools that had been used as quarantine centers have been cleaned and disinfected, 1,240 teachers were trained on covid-19 related school safety, alternative education, and other skills and 834 teachers received trained on providing psychosocial support

In terms of EMIS, the school closure posed a significant challenge on the ability to produce the Flash reports in a timely manner and more importantly, to continue monitoring children's access to education and their learning. In response to this, an alternative learning assessment system was developed and linked to EMIS, through which local governments and schools were able to report the alternative learning modalities adapted and the reach of these modalities among the students in their respective municipalities and catchment areas, and what the readiness and plans in terms of reopening schools is. Up to date 7th. November 2020, in total 14,372 Schools across the 753 local governments have been reported into this alternative monitoring system, providing a robust data set that will be continued to be monitored as the current context is prolonged.

Despite all these efforts, the impact on the education sector in terms of students' loss of learning and reversal of progress against the SSDP key performance indicators is unavoidable given the unprecedented magnitude and limited means at hand to effectively counter this, not just for the Nepal education sector but for education sectors across the world. As such, the trends and

progress reported in this report for the year fifth of the SSDP implementation (2020-21) should be viewed with the understanding that the trend shown for the last years and the acceleration that was observed in this year to ‘catch up’ against the targets committed under the SSDP is to be continued, as it will have slowed down, stagnated, or even reversed in some areas due to the effects of the global crises.

The production of this report was coordinated by the core team of the Education Management Information System (EMIS),¹ headed by the Deputy Director General (DDG) of CEHRD’s Planning and Monitoring Division through the following steps:

- In 2018, the Flash software, was upgraded into a web-based system in line with the requirements agreed in the joint EMIS action plan with support from the Data Must Speak initiative. The web-based system enables schools to upload their education data either directly or supported by local governments and EDCUs into the EMIS. The web-based EMIS generates school-level, local government-level, district-level and provincial-level profiles and report cards, to allow comparison of progress against SSDP’s key performance indicators.
- In 2018 the school-level electronic EMISs were updated in consultation with central, provincial, local government and ward level education personnel and implemented in all types and levels of schools. In 2020/21, head teachers, principals and teachers were consulted to fulfil their school’s needs at province, local government and sub-local government levels.
- Feedback and suggestions received from stakeholders, including development partners were incorporated to improve the school level electronic EMISs.
- The updated Flash software and resource Videos, guidelines were disseminated to all provinces, local governments and education development coordination units (EDCUs) in the last week of February 2019 to support their education units to generate the EMIS from the Flash software to distribute to all schools.
- Guidelines for the reporting and use of the School Level Electronic EMIS were subsequently provided to all schools and instructions were sent to local governments to monitor and verify the data provided by schools, local governments and EDCUs.
- The EMIS core team worked to identify and accommodate requirements at the school, district, local government, and province level in order to address existing and emerging needs related to the ongoing decentralization of planning and implementation. Accordingly, provisions were made within the EMIS to enable local governments and EDCUs to (i) manage data, (ii) verify data and (iii) update schools’ codes.

CEHRD² has continuously worked to enhance the reporting of school statistics. With the expansion of the ICT infrastructure in schools, paper records of schools have been captured and uploaded into EMIS since school year BS 2071 (2014/15) and was expanded to all 753 local governments in BS 2074 (2017/18).

1.6 Transition to a Web-based IEMIS

The data in this report is derived from the database stored in the web-based portal of CEHRD: iemis.doe.gov.np, where the all schools directly uploaded their School Level Excel Based IEMIS file onto the web-based IEMIS portal by using their unique accounts and passwords. This is the third Flash I report to be developed using this web-based modality, which ensured to cover the data/information of all types and levels of schools running in the respective local levels.

1 Note: In this context the EMIS refers to the Integrated EMIS (IEMIS), which links with other data sets and management information systems in the education sector.

2 Note that when CEHRD is referenced in this way it also includes the work undertaken by the Department of Education up to 2017, unless stated otherwise.

This report presents information from the Flash I school census 2020-21 received into the EMIS by 13 March 2021 (due to the effects of COVID-19 the schools were closed and the scheduled time for the Flash I school census was disturbed) to capture the situation in schools at the beginning of school year 2020-20 from ECED/PPE to higher secondary (Grade 12). 1,280 (3.6%) of the 35,520 schools that existed at the beginning of school year 2019/20 did not upload their EMIS files to the EMIS by 13th. March 2021. This is due to the COVID-19 the schools were closed and not having the full admission of the students. This report is therefore based on:

- the data of the 34,240 schools whose data was uploaded on time are used
- most of the data/information presented in this report are based on the actual reporting from the 34,240 schools,
- for the calculation of the indicators the enrolment and teachers data of the under reported schools (1,280) were migrated from the last school year (2019/20) and made full data sets.

a) Previous situation – Flash reporting is going through transitions related to the reporting modality and the new administrative setup. Since the beginning of the Flash Reporting system, there have been initiated different mechanisms for the improvement of the school level EMIS. Those initiations were: standardized school census forms, standardized EMIS software to establish the electronic database, time-bound tasks, provisions to approve the data/information by different personnel from the schools to district education offices, building an individual school's time series database, systemic verification by the Resource Persons, School Supervisors, District Education Officers and other stakeholders, linked in the school education planning, resource management, supports, monitoring and evaluation system and the Systemic Independent Verification of EMIS by third parties. As per the requirements of the SSDP and the SDG4, more focus were given in the expansion of the ICT facilities in the schools, with this the previous system of paper based forms to collect the EMIS data upgraded into electronic based system, where the original records of the schools have been captured and converted into the electronic-based School Level IEMIS since the school year 2071 and expanded to all 753 Local level Governments in the school year 2074 to strengthen the Flash Reporting System.

b) Electronic based IEMIS – In the school year 2014, the electronic based IEMIS modality was introduced, to establish the standardize data/information management at all types and levels of schools and report accordingly directly from the school level. In 2017/18, a web-based IEMIS platform was established for schools and local governments to upload their data directly onto the web-based portal using School Level Electronic Excel based IEMIS. Figure 1 shows the transition of EMIS from its functional establishment in 1962.

Figure 1: The development of Nepal's Educational Management Information System, 1962–2018

Thus, since the school year 2014, schools began to manage and report their Flash data on a standard School Level Electronic Excel based IEMIS that captured the all original records of the schools. The departure from manual flash reporting system to the electronic based management and reporting of the data system demonstrated dynamic improvements in the school level EMIS, which now includes the detailed information of each student of all grades tracked across multiple years, including scholarships, attendance and annual performance. Information on teachers, non-teaching staff, physical infrastructure and other information are available based on the original records of the schools. The modality of data/information management and reporting is that all schools complete their IEMIS files in desktop base process and report into online mechanism by using unique user accounts and passwords as per the given protocol of the web-based EMIS.

c) Implementation of Web-based IEMIS – From the beginning of school year 2018/19, all schools and local governments uploaded their Flash data directly to the IEMIS web portal at iemis.doe.gov.np. As per the responsibility of respective levels of governments and organizations, level-wise login credentials are provided. All local government education personnel, provincial government and EDCUs received their login credentials from the CEHRD, then the local level education personnel provided login credentials to their schools. Schools without computers and electricity use facilities at nearby schools or Local government education office to upload their data. Guidance is available for schools on how to upload their data in an IEMIS video tutorial on the Internet

d) Access to data – Access to Flash report information is a priority for school education system decision makers. In the web-based IEMIS:

- schools can upload, manage, view and use data on education data and indicators
- local governments can manage IEMIS, view reports and use data and also monitor and follow-up on the status of schools in their territory;
- EDCUs can view and use the status of schools in their districts;
- provincial ministries of social development (PMSD) and education development directorate (EDDs) can view and use information on the schools in their provinces; and
- The MoEST and CEHRD staff can access the EMIS information on all schools nationwide.

e) Development priorities for IEMIS– Based on the Joint action plan (See Annex_I) under the SSDP the CEHRD has prioritised the actions and been worked in the various sub-components of the main components of: 1) Adaptation of the EMIS for full alignment to the federal context 2) Strengthening quality and use of EMIS data 3) Capacity for EMIS to facilitate monitoring of the post SSDP plan 4) Priorities identified from other TWGs and 5) Sustainability of EMIS. In this process, the CEHRD has been utilizing the TA support under the SSDP.

f) Database updated –following the 2016/17 restructuring of administrative boundaries, the details of each school were verified and updated in the IEMIS database. In the new government system all the functions of previous district education offices to establish new school, closed, merged and downsizing schools and also update the records are now under the jurisdiction of respective local governments. In this regards, the responsibility of each local government is vital and critical to make continue all these functions in time and smoothly.

g) Capacity development for Province, Local Level, EDCU personnel and HT/Teachers

As a part of the capacity development that has been continued the training and orientations in different modalities. Since the restructuring of the country in 2015 in the government system and have been functioning as per the provisions of the constitution, the province and the local governments have been incorporated budget and programme for capacity development, where the CEHRD has been provided the technical supports to carry out their IEMIS responsibilities.

Despite the continuous efforts from the various aspects, there still remains a large need to build the capacity of schools, local and provincial governments and federal level staff to manage, collect, upload, report and use of IEMIS.

1.7 Federal Transition and Challenges

The transition of government system in Nepal from a unitary to a federal structure has shifted responsibilities and mandates across the tiers of government. The most significant changes were the abolition of the District Education Offices (DEOs), Regional Education Directorates (REDs) and Resource Centres (RCs), which were previously responsible for collecting and consolidating IEMIS data in their districts. Although district-level education development coordination units (EDCUs) have been established to carry out some support functions, the abolition of DEOs has led to fewer staff, including school supervisors and resource persons, available to engage and support school level IEMIS reporting. However, the new direct reporting by schools to the IEMIS portal prevented severe disruption of IEMIS reporting during the transition to the new administrative setup. The transition to the new IEMIS has presented challenges in terms of some schools' limited capacity to report in the new way in the prescribed time line of the Flash Reporting system.

1.8 Challenges

a) Lack of adequate staff in local governments – One of the major challenge has been the lack of adequate staff, capacity and facilities in many local governments for co-ordination, processing and overall management of the IEMIS data. Under the new administrative setup, the country's 753 local governments are responsible for school education. To mitigate disruptions due to staff shortages, the erstwhile DEO EMIS officers who had been transferred to the EDCUs in the same districts were mobilized to support local governments to follow up with schools on IEMIS management and reporting. Where these personnel were not available CEHRD provided technical back-up support to local governments with previous resource persons and school supervisors playing a critical role.

b) Delay and incomplete reporting – The above challenges have resulted some in delay in reporting and incompleteness in some of the schools' database. As compared to the previous school year, though there is an impressive use of web-based IEMIS to complete school level IEMIS and upload in time their IEMIS files by the schools, still there is a need to make obligation to all types and levels of schools to comply with the timeline (20th. May for Flash I and 5th. April for Flash II data) of IEMIS and maintain the quality of data (i.e. completeness, consistency and accuracy of the schools). In the current school year 2020-21, the data on schools that had not reported (around 1.5% of school) by the prescribed timeline of the Flash Reporting.

c) Data Reliability

In the Flash reporting system, responsibilities for each agency/level are well defined in order to ensure the uniformity, consistency and quality of data. At the school level, Head Teachers (HTs) are responsible to complete the Electronic-based School Level IEMIS and approved as per the terms and conditions stated in the School Level Electronic based IEMIS. It is obligatory to every HT to informing the respective Local Level Education Office that he/she fully completed the IEMIS file based on the original records at school and upload into web-portal in written form. Likewise, at the local levels the education officers will validated the data/information of each school by checking the consistence in data and completeness of the IEMIS file. Also, several measures are taken to verify the data by cross checking the accuracy and consistency of the data.

In order to minimize the errors and prevent inconsistency in data entry, necessary validation

rules have been incorporated into the Electronic based IEMIS file. Furthermore, the local level education officers have been providing continuous technical supports to the schools through visits as well as through telephones and emails, which, to a large extent, has helped in improving the data quality. In addition, trainings and on-the-job orientations to the local level personnel involved in data processing activities have been provided to enhance their capacity with a view to enabling them to ensure the quality, reliability and validity of data. Overall, the electronic based IEMIS system has contributed to improve the current Flash Reporting System. However, the issue of assuring data-quality is also related to how schools use their data for SIPs, other school level activities and decision making.

d) Independent Verification of IEMIS– As per requirement of the SSDP, there is a provision of 3 rounds of Independent Verification of IEMIS, where the first and second round of Independent Verification were completed in the fiscal years 2016 - 17 and 2018-19 and the third round of Independent Verification will conduct at the end of the SSDP programme (i.e.2020-21). As mention above due to the compliance to all types and level of schools to use the electronic based school level IEMIS, the first and second rounds of IVA reports suggested that there is no significant inconsistency (more than 95% of confidence level of data) between the reported data in IEMIS and schools' records, but there are needs of capacity development to use of IEMIS at school level in different activities of the schools. Based on the suggestions highlighted in the both rounds of Independent Verification Reports, the CEHRD has upgraded the IEMIS to the web-based IEMIS and provide more opportunities to use of IEMIS data and information at school, local level, province and central level by linking other database and other initiations for further improvement in IEMIS as well.

1.9 Lessons Learned

The lessons learned from the 16 years of Flash Reporting System:

- The long term engagement with EMIS at a school level has caused that currently over 96% of the schools to report their IEMIS timely even in the change context of the country under federal system and with the EMIS being moved to a web-based system.
- The decentralization of the system of IEMIS at local level the full fledged adaptation has been established and the ownership of the local government towards the IEMIS increased.
- The IEMIS system has been captured the individual levels of information for students, teachers and other original records of the schools, that helps to manage the electronic based information in a standardized system at school level, where, all school have their own IEMIS.
- The use of IEMIS information in planning and different purpose at school level has been increased, that create ownership and improvement of the quality of data/information.
- CEHRD has been played the vital roles to manage the IEMIS database and provide technical support as per the needs of the province and Local governments in groups and individual as well.
- The IEMIS system has been completely decentralized at the school and local government level, where the schools are the responsible to manage and report their data/information within the prescribed timeline and the local governments are the responsible in all tasks related to the IEMIS.
- All schools use the electronic Excel-based IEMIS to enter their data/information, then they upload by using their unique accounts and passwords into the web-based platform that can be accessed at all levels of users at the same time. However, the timing of the flash reporting system and Grade 11 and 12 enrolment do not coincide. There is a need to link the IEMIS database to the National Examination Board (NEB) database so that higher secondary level data can be accurately provided.

- Modules have been incorporated in IEMIS to enable reporting on out of school children, Grade 8 exam results, PMT based scholarship, Model School programmes, Technical and Vocational school programmes. However, a number of other database remains to be linked:-i.e. Central Level Project Implementation Unit (CLPIU) and the Teacher Service Commission (TSC) and others.
- Many local governments have changed their names (for example, Lekhnath Metropolitan City has become Pokhara Metropolitan City), which presents challenges to automate the maintenance of records and systemic updates by IEMIS.
- In some local governments due to the changes of name, place (transfer from one place to another) and the owner of the institutional schools, the collection of data from institutional schools is an issue.
- The links need strengthening between EMIS data and school level planning and other supports (i.e. technical and administrative) to increase timely reporting of EMIS data by all schools.
- A constraint for timely reporting into IEMIS at the local level observed during the CEHRD providing technical support to technical staff in local governments is the frequent transfer of local level educational staff at local level and the absence of dedicated educational personnel in a number of local governments.

1.10 The Key Findings, 2020-21

The Key findings of the Flash Report I, 2020-21 are prepared based on the analysis of the full report of the Flash I 2020/21 based on the full set of the school level IEMIS database including the migrated database of the under reported schools (i.e. 1,280) (see Tables A, B and C):

ECED and PPE

- There are 36,712 ECED centres and PPE classes recorded in 2020-21, which is a slight increase from the 36,450 that were operational in 2019/20. Of these, 30,202 (82.3%) are school- and community-based classes and centres and the remaining 6,510 Pre Primary Education (PPE) classes are based in institutional schools and have increased with 99 from the 6,411 PPEs in the school year 2019/20.
- Overall, the number of children enrolled in ECED and PPE has increased around 1.0% from 1105,561 in 2019-20 to 1,113,596 in 2020-21.
- The gross enrolment ratio (GER) in Grade ECED/PPEs is 87.6% (86.4% in previous year) while as compared to the 4 years population the percentage of children enrolled with 4 years age group in ECED is 68.3% (67.2% in previous year).

Equity

- Gender parity has been maintained in school education. The gender parity index (GPI) for the net enrolment rate (NER) remains at 0.99 at lower basic level, 0.98 at upper basic level, 0.99 at basic level, 1.01 at secondary level with grade 9-10, 1.01 at secondary with grade 11-12 and 1.01 at secondary level (Grades 9–12), which does not deviate from the previous school year 2019-20.
- In 2020-21, girls continue to make up 49.7% of enrolments at lower basic level, 49.9% (slightly decreased from the 50.2% in the last school year) at upper basic level and as same in the last school year 49.7% at basic level. At secondary level girls make up 50.0% of secondary level enrolments as in the previous year, but have an increased share of 53.4% of higher secondary enrolments (53.1% in previous year) and 51.3% of the overall secondary (grade 9–12) enrolment

(same as in the previous school year). The data shows that girls continue to have a stronger retention rate in secondary level.

- The share of students from Dalit communities in total students at lower basic level has slightly increased from 19.5% in previous school year to 20.0% in the current school year 2020/21, but has remained the same (15.6%) at the upper basic level and again slightly increased from 12.3% in 2019/20 to 12.5% in 2020-21 in grades 9-10. A significant increase of the share of Dalit students can be seen in grade 11-12 from 8.7% in 2019/20 to 9.1% in 2020-21.
- Children from Janajati communities (ethnic groups) have seen a slight increase in their enrolment as they make up 34.3% of all students in lower basic level in 2020-21 (33.7% in 2019/20), 38.0% in upper basic (37.6% in 2019/20), 38.3% of grades 9-10 (37.6% in previous school year) and 38.5% in grades 11-12 (38.1% in 2019/20).
- In 2020-21, 51,324 children from the 22 extremely disadvantaged Janajati groups have enrolled in lower basic level (50,992 in previous year), 19,177 in upper basic level (18,983 in previous year), 9,356 in secondary level with grade 9-10 (9,181 in previous year) and 3,314 (3,122 in previous year) in secondary level with grade 11-12.
- Across all types of schools, female teachers make up 47.4% of lower basic level teachers (47.2% in previous school year), 32.2% at upper basic level (30.8% in previous year), 21.7% at secondary level with grade 9-10 (21.5% in previous year) and 18.7% at secondary level with grade 11-12 teachers (18.5% in previous year).
- In all types of community schools, female teachers made up 44.3% of teachers at lower basic level (44.2% in previous year), 24.9% at upper basic level (23.4% in previous year), 18.9% at secondary level (18.7% in previous year) and 19.3% of all higher secondary teachers (same as 19.3% in previous year).
- Dalit teachers make up 6.4% of lower basic level teachers (5.9% in previous year), 5.5% of upper basic level teachers (5.1% in previous year) and 6.0% at secondary level with grade 9-10 (5.7% in previous year) and secondary with grade 11-12 is 4.4% (4.2% in previous year).
- Janajati teachers make up 33.1% of lower basic level teachers (32.7% in previous year), 27.7% of upper basic level teachers (27.5% in previous year) and 20.9% of secondary level with grade 9-10 teachers (20.5% in previous year) and secondary level with grade 11-12 is 19.1% (18.9% in previous year).

Access

- The gross intake ratio (GIR) in Grade 1 is 120.7% (121.9% in previous year) while the net intake ratio (NIR) is 97.3% (96.8% in previous year).
- The gross enrolment ratio (GER) is 118.2% at lower basic level (119.3% in previous year), 108.2% at upper basic level (101.7% in previous year), 113.2% at basic level (110.4% in previous year), 96.9% at secondary level with grade 9-10 (94.6% in previous year) and 54.6% at secondary levels with grade 11-12 (48.1% in previous year) and 75.7% at secondary level with grade 9-12 (71.4% in previous year).
- The NER is 97.4% at lower basic level (97.1% in previous year), 89.7% at upper basic level (91.9% in previous year), 94.7% at basic level (93.4% in previous year) and 70.8% at secondary level with grade 9-10 (69.0% in previous year) and secondary with grade 11-12 is 31.5% (26.2% in the last school year) while it is 51.2% at secondary level with grade 11-12 as compared to the 47.6% in the last school year.

Quality

- In Grade 1, the promotion rate is 84.7% (83.6% in previous year) and the repetition rate 11.2% (12.3% in previous year).

- In Grade 5, The promotion rate is 94.0% and the repetition rate 3.2% compared to 93.0% and 4.1% in the previous year.
- In Grade 8, the promotion rate is 91.4% and the repetition rate 3.8% (90.8% and 4.2% in previous year).
- The overall survival rate to Grade8 is 82.2% with 82.9% of girls (compared to total 79.3% and 79.6% for girls in previous year).
- The overall completion rate at basic level is 75.3% with 76.1% of girls (compared to total 72.7% and 73.1% for girls in previous year).
- The overall survival rate to Grade10 was 64.6% with 65.3% for girls (60.3%, with 61.6% for girls in the previous school year).
- According to the EGRP report on reading proficiency of the grade 3 students 12.8% in 2015, whereas it is 14.6% in 2018, indicates very low progress.
- According to the 2015 NASA report, the average student learning achievements in Grade 5 were 48.0% in Mathematics, 46.0% in Nepali and 47.0% in English. However, the 2018 NASA reported 500 ? in Mathematics and 500? in Nepali shows there is decrease in Mathematics and increased in Nepali as compared in the previous NASA in these subjects.
- According to the 2015 NASA report, the average student learning achievements in Grade 8 were 35.0% in Mathematics, 48.0% in Nepali and 41.0% in Science subjects. However, the 2017 NASA reported 500 ? in Mathematics, 500 in Nepali and 498? in Science subjects shows there is a decrease both in Mathematics and Science whereas improvement in Nepali as compared in the previous NASA in these subjects.
- In 2020-21, the student-teacher ratio (based on approved teacher positions) in community schools is 26:1 at lower basic level (24:1 in previous year), 53:1 at upper basic level (51:1 in previous year), 31:1 at basic level and (30:1 in previous year), 43:1 at secondary level with grade 9-10 (40:1 in previous year), 75:1 (73:1 in previous year) at secondary level with grade 11-12 and 50:1 (48:1 in previous year) at secondary level with grade 9-12. Although in aggregate level, the situation at the lower basic and secondary level (Grade 9-10) have improved, the ratios vary at province and local levels that indicates there remains a large need to increase the number of teacher positions in the local levels with high STRs and also there are shortfall of the subject wise teachers at upper basic and secondary levels.
- The average percentage of students receiving the full set of textbooks within the first month of the 2020-21 academic year is 61.6% at lower basic level (89.9% in previous year), 56.1% at basic level (90.4% in previous year) and 69.9% at secondary level (95.7% in previous year).

Efficiency

- School-student ratios for community schools remained at 1:91 (1:87 in the last school year) at lower basic level, 1:113 (1:108 in the last school year) at upper basic level, 1:184 (1:132 in the last school year) at basic level, 1:115 (1:111 in the last school year) at secondary level with grade 9-10, 1:135 (1:130 in the last school year) at secondary level with grade 11-12 and secondary with grade 9-12 is 1:241 (1:171 in the last school year).
- The share of all student enrolment in community schools remained at 50.1% (49.7% in the last school year), 74.5% (70.0% in the last school year) at lower basic level, 76.1% (74.1% in the last school year) at upper basic level, 78.3% (76.2% in the last school year) at secondary level (G 9-10) and 65.0% (64.3.0% in the last school year) at secondary level (G 11-12).

Table 1.1 Number of schools by type, unit and level (2020-21)

| School types | Total | Community | Institutional | Religious |
|----------------------------------|---------------|---------------|---------------|--------------|
| ECED and PPE | 36,712 | 29,741 | 6,510 | 461 |
| Schools: | | | | |

1.11 Progress on SSDP Key Performance Indicators

Table 1.5 includes the SSDP Key Performance Indicators (KPIs) against which the progress of the implementation of the SSDP is being measured. These indicators are part of the overall SSDP

Programme and Results Framework (PRF), based on the recommendation of the SSDP MTR in May 2019 the SSDP targets for year 5 have been reviewed and updated.

The following table presents the overall progress on the SSDP KPIs with the 2015/16 baseline and year-wise achievements against the SSDP KPIs targets for the period 2016/17 to 2020/21. By and large, the analysis of the indicator wise achievements against the targets shows that most of the indicators show significant improvement. Progress in the Gross Enrolment Rate (GER) for ECED/PPC continues to show reasonable growth, where it is behind by 1.9% points then the set target for 2020-21. However, the current 87.6% still puts the country on track to achieve the targeted 89.5% for 2020-21. Increase of the Net Enrolment Rate (NER) with regard to lower basic education (grades 1-5) shows continued moderate increase to 97.4% and is on track of meeting the target of 98.5% in the fifth year. Substantial progress in terms of access can also be observed at the enrolment in grades 9-12 (by 4.3% points) and increased progress at secondary education (grades 9-12) compared to the previous years, indicating strengthened internal efficiency at the secondary level. Moreover, the analysis suggests that the progress on the qualified teachers with required qualifications and certification is in line with the targets set out under the SSDP for learning achievements. However, in terms of inclusion, the share of female teachers particularly in secondary education requires an absolute improvement and hence a policy priority.

The survival and the completion rates for both at lower basic and basic level show lagging behind the set targets for the SSDP, such as the reduction in the repetition for grade 1. The repetition rate for grade 5 however has shown less reduction compared to the previous year. The overall progress observed among the progress indicators has however yet to translate into progress within the learning outcomes as most of them have not or little showed improvement against the previous year. As such, strengthened focus on learning outcomes should be ensured in the coming years in the education sector plan, focusing to the SDG goals.

Table 1.4 Progress status on SSDP Key Performance Indicator targets to 2020-21

| Indicators | Baseline (2015/16) | 3-year target (to 2018/19) | Achievements (in 2016/17 to 2019/20) | | | | | 5-year target (to 2020/21) | 7-year target (to 2022/23) | |

| 4.3 | Literacy for 15year olds and above | 57 ^f | 70 | 57 ^f | 75 | 80 |
| 5. Teacher management and professional development | | | | | | | | | | |
| 5.1 | % of female teachers in basic level | 38.8 | 42 | 40.7 | 41.2 | 43.1 | 43.7 | 46.5 | 45 | 50 |
| 6. Sector finance | | | | | | | | | | |
| 6.1 | Education sector budget as % of national budget | 12.04% | 15% | 11.09% | 9.91% | 10.23% | 10.68% | 11.64% | 17% | 20% |

*The figure is including the TEVET SEE and Diploma programe (of this 76,240 students are in CEHRD programme)

[1]Civil engineering: 19,440, Computer Science: 14,800, Agriculture: 27,232, Vatnary: 5,520, Electrical engineering: 4,400 and Music education 48

Note:- 1) a: DOE (2016); b: ERO (2016); c: ERO (2016); d: NPC (2016); e: NPC (2014); f: CBS (2012); g: RTI (2014), h: ERO (2014), 2) the methodology has changed from 2017, and the symbol ? indicates increased achievement and ? indicates decreased achievement in comparison to previous cycle.

Based on the following table 1.5, in summary the analysis of the KPIs suggest that:

- Overall satisfactory progress, especially when considering this has continued within the transitional context and in the understanding corrective measures will be applied to accelerate progress against the KPIs identified as off-track and currently not likely to meet their 5-year target.
- Overview shows that solid progress has been observed at the intake of basic education (i.e. reduction of out of school children, enrolment in ECED/PPE and basic intake rates), as well as in secondary education (net enrolment rate and survival rate), so main focus in the remaining SSDP implementation period is needed on quality interventions in lower basic education.

Table1.5 Overview of progress against SSDP KPIs

| KPI Dimension | KPIs on track/exceeding and expected to meet/exceed their 5-year target | KPIs not on track but expected to meet their 5-year target | KPIs requiring significant intervention to approach 5-year target (if the targets are lagging behind by more than 5% points) |
|-----------------|---|--|--|
| Access & equity | GER at lower basic (Grades 1-5) | Net enrolment rate in basic education (Grades 1-5) | GER in Grades 9-12 |
| | Gross enrollment rate of basic education (Grades 1-8) | Net enrolment rate of basic education (Grades 1-8) | NER in Grades 9-12 |
| | Net enrollment rate gender parity index in basic education (Grades 1-8) | % of out of school children in basic education (age 5-12) | Number of model schools |
| | GPI in NER in Grades 9-12 | | Number of students enrolled in technical subjects in Grades 9-12 |
| | | | % of ECED/PPE teachers with one-month training |

| KPI Dimension | KPIs on track/exceeding and expected to meet/exceed their 5-year target | KPIs not on track but expected to meet their 5-year target | KPIs requiring significant intervention to approach 5-year target (if the targets are lagging behind by more than 5% points) |
|-----------------------|---|--|--|
| Quality & relevance | % of female teachers in basic level (grade 1-8) | % of ECED/PPE teachers with required qualification | Student learning achievement scores (%) in Grade 5 |
| | | | Student learning achievement scores (%) in Grade 8 |
| | | | Literacy rate for 6-year-old and above |
| | | | Literacy rate for 15-24-year-old |
| | | | Literacy for 15-year-old and above |
| | | | % of Grade 1 new entrants with ECED/PPE experience |
| Efficiency & adequacy | Gross intake rate in Grade 1 | Gross enrollment rate in ECED/PPE | Survival rate for Grade 8 |

| | Grade 12 Survival rate | | Student reading proficiency (%) in Grade 3 |
| | | | Survival rate to Grade 10 |
| | | | Education sector budget as % of national budget |

1.12 Disaggregation of Data

Both the Flash report I&II and consolidated reports present data and information by disaggregated across the following categories.

a) Types of Early Childhood Education and Development and Pre-Primary Education (ECED/PPE)

The two types of early childhood development provision are ECED centres and PPE classes, which are both included in the basic level of education. ECED centres include separate community based and community school based, while all the institutional and schools (including some community schools) include PPE classes only. Community ECED centres that are physically separate from the school and the school based ECED centres are attached into the schools. Both the community based and school based ECED are funded by the government and the respective community, but the PPE classes are not eligible to get the fund from the government and managed by the institutional schools' funds collected from the parents.

The majority of community schools run 1-year of ECED, with an option of an additional one year if demanded by the local community. Note that some community schools also operate ECED centres and PPE classes through government-funded school-based and community-based modalities.

Most institutional schools run PPE programmes for 3 to 5 year olds starting from playgroup and running through Montessori, nursery, lower kindergarten (LKG), and upper KG. The same levels are also provided by privately run ECED centres. Note that prior to 2018/2019, ECED/PPE teachers were reported as ECED/PPE facilitators in Flash and consolidated reports, but, from 2018/2019 and this report they are being reported as ECED/PPE teachers. Note that ECED/PPE students are referred to as 'children' throughout this report and for further grades it is referred as students.

b) Types of schools

In Nepal broadly the types of schools are community schools (government or public schools), institutional schools (private or boarding schools) and religious schools (traditional schools) respectively.

Community schools – Under the category of the community school, there are four types of community schools:

- Community aided schools, with at least one approved position of teacher by level, full salary and other expenses paid by the government.
- Community managed schools, with teachers' salaries and other expenses fully paid by the government, but the school's management responsibilities lies with communities. This type of schools are the programme based and since 2014 the programme has been phased out then after no more of this category of the school in the country.
- Teacher aided community schools, with no approved teacher but at least one Rahat teacher position by level with salaries fully paid by the government.
- Unaided community schools, with none of the approved and Rahat teacher position, which receive PCF based financial support (i.e. text-book, management cost, scholarship and others) from the government.

Note that all community schools receive the management cost and PCF for free textbooks for all students within the second week of the first month of each academic year. Eligible students in community schools also get scholarship support from the government. These schools have non-teaching staff who are paid from government or schools' own sources.

Institutional schools – The three types of institutional schools are those formed through private trusts, through public trusts or running under the Companies Act. Their teachers and non-teaching staff are privately funded and almost all expenses of students (i.e. tuition fee, text books and others) are bear by the parents.

Religious schools – The main types of religious schools are Madrassas, Gumbas/Bihars, Ashrams/ Gurukuls. They teach religious practices but have been provided with financial and other support from the government once and when they mainstream into the formal education system by following the pedagogical rules and regulations set by the Government. As there are only a few religious schools and they are not run as for-profit businesses, the government classifies them as type of community school. Religious schools that follow national education standards are often provided with grants for teachers' salaries. Students' are provided with textbooks free of cost and some students receive scholarships and other incentives as well.

c) School: units, levels, schooling age and types of teachers

Units – the schools are counted and disaggregated in terms of units, which can have multiple levels. A school that provides Grades 1 to 12 includes lower basic, upper basic, secondary (grade 9-10) and secondary level (grade 11-12) within it and therefore has all four levels but it counts as one school. However, schools by unit means schools will be represented once.

School level – In the school education the levels school are ECED/PPE, lower basic (Grades 1–5), upper basic (Grades 6–8), secondary (Grades 9–10) and secondary (Grades 11–12). The basic level of education include one year of ECED/PPE and Grades 1–8 inclusive, while secondary level includes Grades 9–12. And note that until 2008/2009 schooling was divided into lower basic (Grades 1–5), upper basic (Grades 6-8), secondary (Grade 9-10) and higher secondary (grade 11-12 or 0+2).

Schooling age – The prescribed age groups for the schooling by level of school are:

- Age 5 is the officially entry age of children into formal schooling starting from grade 1.
- 5–9 years for lower basic level (Grade 1-5)
- 10-12 years for upper basic level (Grade 6–8)
- 5–12 years for lower basic level (Grade 1-8)
- 13-14 years for secondary level (Grades 9–10)
- 15-16 years for secondary level (Grades 11–12).
- 15-16 years for secondary level (Grades 9–12).

Types of teacher – There are four types of teachers in community schools:

- permanent teachers working in approved positions
- temporary teachers working in approved positions
- Rahat teachers positions (temporary in nature); and
- privately funded teachers paid through local governments, communities, INGOs, NGOs and/or schools' own sources of income.
- In the institutional school almost all teachers are temporary but it also depends upon the individual institutional school's conventions, norms, standards and perspective.

d) Other categories

Administrative divisions and eco-belts– Nepal has 7 provinces and 753 local governments. One hundred and thirty-seven local governments are 137 in Province 1, 136 in Province 2, 119 in Bagmati province, 85 in Gandaki province, 109 in Limbini province, 79 in Karnali Province, and 88 in Far Western Province. In addition, the government has categorised local governments into Municipality and Rural Municipality based on the population and other infrastructure facilities set by the central government. In-addition to this, from the equity perspective the educational planning and implementation and also resource management the geographical/eco-belts have been considered as Mountain, Hill, Terai and Valley (Kathmandu Valley) eco-belts.

Gender – Data is given separately for girl students and female teachers and other subjects as well as by total number of boys and girls or male and female as traditionally females have had less access to education and some teaching positions.

Caste and ethnicity – Nepal has a diverse array of castes, ethnicities and religious and minority groups. Until 2018/19 the EMIS has only collected disaggregated data on Dalit (traditionally low-caste groups), and Janajati (ethnic groups) students and teachers of the all types and levels of the schools. This data was collected by the Dalit and Janajati sub-groups including the 22 most disadvantaged Janajati groups. As the country has the three tyres of governments and each government has its own priorities and need of inform based planning, it is now recognised that more disaggregated data is need to be extracted from the School Level IEMIS (i.e. other traditionally disadvantaged groups and Madhesi, Muslim, and other caste/ethnic groups) for the development and implementation of the targeted interventions. However, it is need to empower the local government to identify the different sub-groups of the population in this regards.

Type of disability – The number of students reported as having a disability are given by eight types of disability (physical, mental, hearing impaired, visually impaired, low vision, hearing and visual impaired, vocal and speech related disability) and multiple disabilities.

SECTION II

2.1 Early Childhood Development and Pre-Lower basic Classes (ECED/PPE)

Early childhood education and development is the foundation for children’s overall development and their readiness to enter, learn and participate in formal education, as reflected in SDG target 4.2 – “By 2030 ensure that all girls and boys have access to quality early childhood development, care and pre-lower basic education so that they are ready for lower basic education.” The government is striving to respond to the need to increase access to quality ECED and PPE to improve the physical, intellectual, social and emotional development of all 3 to 4 year-olds. The SSDP calls for strengthening equitable access to one-year of ECED or PPE to improve school readiness by expanding appropriate school and community-based models.

2.1.1 Major Provisions

As per the existing rules, regulations and the SSDP the provision has been made to standardize, monitor and support the quality of newly established and existing ECED centres and PPE classes:

- All newly recruited ECED/PPEs teachers must have passed their Grade 10 examinations.
- ECED/PPE teachers who do not meet this criteria must take the professional development package. A one-month intensive training and refresher training is being provided with targets for all ECED/PPE teachers to have taken this training by the end of SSDP in 2020-21.
- ECED/PPE orientation programmes are being provided to encourage local governments to extend provision as per their mandate under the federal constitution.

In addition, collaboration between the government, non-government and private sector actors in establishing ECED centres and PPE classes have led to new partnerships to run community-based, school-based and privately managed provision.

2.1.2 Number of ECED centres and PPE classes

Table 2.1 Number of ECED centres and PPE classes by types, province, type and province (2020-21)

| Province | Total | Community | Institutional | 3-4 Years age group population | | | ECED/PPE classes to 3-4 Years age group children ratio |
|------------------|---------------|---------------|---------------|--------------------------------|----------------|------------------|--|
| | | | | Girls | Boys | Total | |
| Province 1 | 6,942 | 5,544 | 1,398 | 95,185 | 106,329 | 201,514 | 29 |
| Province 2 | 5,056 | 4,330 | 726 | 147,666 | 166,562 | 314,228 | 62 |
| Bagmati | 7,074 | 5,155 | 1,919 | 96,885 | 113,074 | 209,959 | 30 |
| Gandaki | 4,196 | 3,628 | 568 | 45,453 | 54,148 | 99,601 | 24 |
| Limbini province | 6,640 | 5,530 | 1,110 | 104,708 | 121,965 | 226,673 | 34 |
| Karnali | 2,935 | 2,758 | 177 | 45,387 | 49,580 | 94,967 | 32 |
| Far Western | 4,287 | 3,642 | 645 | 66,434 | 76,777 | 143,211 | 33 |
| Nepal | 37,130 | 30,587 | 6,543 | 601,718 | 688,435 | 1,290,153 | 35 |

The table:2.1 above presents the number of ECED/PPEs by types and province. In the academic year 2019-20, there were 36,450 ECED centres and PPE classes in the country, of which 30,039 (82.4%) were community or school-based ECED/PPEs. The remaining 6,411 (17.6%) were operated by institutional schools or were privately run. In the school year 2020-21, the EMIS reports 37,130 ECED centres and PPE classes (101.9% of the previous academic year) comprising 30,587 (including the 30,039 federal government funded) community and school-based classes and centres (101.6% of previous year) and 6,543 operated by institutional schools or privately run (101.7% of previous year). Overall, compared to the previous school year the number of ECED/

PPE has increased by 1.9% points. Of the total number of ECED/PPE the highest percentage of institutional schools' PPE is in the Bagmati province (29.3%) whereas it is lowest in Karnali province (2.7%) (See Annex: I). The main factor that account for the increased number of ECED centres and PPE classes than in the previous school year is the new establishment of the Local Level Funded community school based ECED (in total 548 ECED) and the institutional PPE classes (132 PPEs than in the previous school year). Since the very beginning of the federal system in the country the local governments are responsible for the overall management of school level education including the new opening, closure and merger of ECED centres and PPE classes.

Moreover, the table 2.1 presents the distribution of the existing ECD/PPCs facilities as compared with the targeted age group children of ECED/PPEs, where the Province 2 posses a high ratio (1:62) of 3-4 years age group children and ECED/PPEs, while the Gandaki province has lowest ratio (1:24) which is lower than the standard norms (i.e.1:25). It indicates that there is more requirement of the ECED/PPEs facilities to catered the all children in the system. For this the planning and initiations of the respective local government will be instrumental.

2.1.3 Number of children in ECED centers and PPE classes

The table 2.2 below presents that in school year 2020-21, in total 1,130,521 children with 508,145 (46.0%) girls children have enrolled in ECED centres or PPE classes, which is an increase by 2.2% from the 1,105,561 children enrolled in 2019-20. However, the 2020-21 figure comes from the 37,130 ECED centres and PPE classes that reported to the EMIS for 2020-21 (See Annex: 2). The higher number would indicate that the Welcome to School Campaign especially from the local government, which is conducted prior to the start of the academic year, has significantly increased enrolment in ECED centres and PPE classes.

The present ratio of total children enrolled in the ECED/PPE and the number of ECED/PPE is 1:30 which is similar to the last school year (1:30), shows, on average, one ECED/PPE is serving 30 children. It indicates a need for a considerable expansion and strengthening of the ECED/PPE to maintain the prescribed class size of ECED/PPE and children ratio (i.e. 1:25). The figure of children by types of ECED/PPE shows the percentage of children in community school and community based ECED and institutional schools' PPE are 52.5% and 47.5% which were 50.2% and 49.8% in the last school year 2019/20 show that the percentage of children in institutional PPEs has decreased from 49.8% to the 47.5% IN THE SCHOOLYEAR 2020/21, where of the total children enrolled in the community schools and community based ECED, 28,944 (almost 2.6%) children are catered by the community based ECED.

Note that institutional ECED/PPE (which accounts for 17.6% of ECED centres and PPE classes) have 47.5% of all the children enrolled in ECED/PPE while community and school-based ECED/PPE (which account for 82.4% of ECED centres and PPE classes) have 52.5% of enrolees.

In total Boys (54.0%) outnumber girls (46.0%) in ECED/PPE, with a greater imbalance of 57.6% boys to 42.4% girls in institutional ECED/PPE. However, the imbalance in total ECED/PPE is the same the composition of the 3-4 year-old population of 596,992 (46.7%) girls against 682,435 (53.3%) boys children in 2020-21. And girls are proportionally enrolled (50.0%) in community-based ECED centres, although these centres only make up 6.2% of all ECED centres and PPE classes. And of the 593,914 children enrolled in over all community- ECED/PPE funded by the federal and Local governments, 9,734 (1.6%) are enrolled in religious/traditional school-based ECED/PPE.

Table 2.2: Enrolment in ECED/PPE by province, school type and gender (2020-21)

| Province | Community | | | Institutional | | | Total | | |
|------------------|----------------|----------------|----------------|----------------|----------------|----------------|----------------|----------------|------------------|
| | Girls | Boys | Total | Girls | Boys | Total | Girls | Boys | Total |
| Province 1 | 47,001 | 48,677 | 95,678 | 49,092 | 61,234 | 110,326 | 96,093 | 109,911 | 206,004 |
| Province 2 | 55,153 | 54,527 | 109,680 | 24,374 | 39,723 | 64,097 | 79,527 | 94,250 | 173,777 |
| Bagmati | 44,275 | 47,626 | 91,901 | 58,601 | 76,346 | 134,947 | 102,876 | 123,972 | 226,848 |
| Gandaki | 25,145 | 28,242 | 53,387 | 18,926 | 24,617 | 43,543 | 44,071 | 52,859 | 96,930 |
| Limbini province | 56,499 | 59,115 | 115,614 | 47,820 | 66,849 | 114,669 | 104,319 | 125,964 | 230,283 |
| Karnali | 27,842 | 28,595 | 56,437 | 8,440 | 10,168 | 18,608 | 36,282 | 38,763 | 75,045 |
| Far Western | 36,029 | 35,188 | 71,217 | 20,463 | 29,954 | 50,417 | 56,492 | 65,142 | 121,634 |
| Total | 291,944 | 301,970 | 593,914 | 227,716 | 308,891 | 536,607 | 519,660 | 610,861 | 1,130,521 |

Figure 2.1 Ratio of ECED centres and PPE classes to enrolled children by provinces (2020-21)

In 2020-21, the ratio of ECED/PPE centres and classes to enrolled children remained at 1:30 for all 1:18 for community ECED/PPCs and 1:84 for institutional PPE classes and centres. Province 2 has the highest ratio in ECED classes and centres (1:24) while Gandaki has the lowest ratio in community ECED classes. Similarly, Limbini province has the highest ratio in institutional classes and centres(1:107) (Figure 2.1). The national ratio for school-based ECED/PPE at community schools remains at 1:18 while the national level ECED/PPE ratio for institutional schools remains at 1:84. In other words, there are an average of 18 children in government supported classes and 86 children in institutional school classes and centres.

The table 2.3 below presents the number of ECED/PPEs by the range of number of children enrolled in the school year 2077 in types of ECED/PPEs. Based on the analysis of the children by school in ECED/PPEs running in community schools, there are 7,388 classes and centres have between 1 and 10 children enrolled, 9,874 community classes and centres have between 11 and 20 children enrolled, 6,111 classes and centres have between 21 and 30 children enrolled, 2,922 classes and centres have between 31 and 40 children enrolled, 1,634 classes and centres have between 41 and 50 children enrolled, and on the other side of the spectrum, 2,658 classes and centres have more than 50 children enrolled. Hence, for the equity perspective, the local level governments need to revisit the distribution of the ECED centres that have less than 10 children (in total 7,388 ECED centres) and have more than 30 children (7,214 ECED centres) at the local level. Similarly, a total of 4,681 institutional ECED/PPEs have more than 50 children enrolled, the institutional schools often run different levels of ECED (nursery, LKG, KG, Montessori, playgroup) and therefore for the counting of PPEs it has been considered one PPE although these schools run more than one classes of PPEs (See Annex: 2)..

Table 2.3 Number of ECED centres and PPE classes by province, type and by number of children enrolled(2020-21)

| Province | Community ECED/PPE | | | | | | Institutional ECED/PPE | | | | | |
|------------------|--------------------|-------------|-------------|-------------|-------------|-------------|------------------------|------------|------------|------------|------------|-------------|
| | 1-10 | 11-20 | 21-30 | 31-40 | 41-50 | >50 | 1-10 | 11-20 | 21-30 | 31-40 | 41-50 | >50 |
| Province 1 | 1839 | 1939 | 790 | 392 | 206 | 377 | 25 | 60 | 87 | 123 | 135 | 968 |
| Province 2 | 227 | 701 | 1119 | 750 | 560 | 973 | 18 | 34 | 52 | 64 | 59 | 498 |
| Bagmati | 1694 | 1912 | 770 | 307 | 175 | 298 | 61 | 93 | 135 | 160 | 182 | 1288 |
| Gandaki | 1753 | 1100 | 375 | 175 | 62 | 163 | 15 | 27 | 46 | 52 | 42 | 386 |
| Limbini province | 948 | 1853 | 1247 | 614 | 319 | 550 | 10 | 23 | 41 | 56 | 73 | 907 |
| Karnali | 348 | 1126 | 826 | 268 | 89 | 100 | 2 | 6 | 5 | 12 | 17 | 135 |
| Far Western | 579 | 1243 | 984 | 416 | 223 | 197 | 10 | 13 | 31 | 38 | 53 | 499 |
| Nepal | 7388 | 9874 | 6111 | 2922 | 1634 | 2658 | 141 | 256 | 397 | 505 | 561 | 4681 |

2.1.4 Caste and ethnicity of children in ECED and PPE

The table 2.4 below present children enrolled in ECED/PPEs by social categories that are grouped into Dalit and Janajati. The category has been done from the number of individual cast/ethnicities (⁴Dalit from the 22 casts/ethnicities and ⁵Janajati from the 59 casts/ethnicities) captured in the EMIS. In terms of children enrolled in ECED or PPEs of these categories are:

- Of the total 18.9% (compared to 18.9% in the last school year) Dalit in total children of ECED/PPE with 77.5% of them enrolled in government ECED centres and the remaining in institutional schools' PPE classes (22.5%). The highest share of Dalit children is in Gandaki province (25.1%) followed by 23.5% in Karnali province, where it is the lowest share in Bagmati province (8.9%).
- Of the total 34.9% Janajati in total children of ECED/PPE with 49.7% of them enrolled in government ECED centres and the remaining in PPE classes (50.3%). The highest share of Janajati children is in Bagmati province (60.7%) followed by 49.0% in province 1, where it is the lowest share in Karnali province (9.5%).

In terms of gender parity:

- In total 47.1% are Dalit girls of this 48.9% of Dalit Girls children in community school ECED/PPE, while in institutional schools 40.8% girls (Table 4); and
- In total 45.8% are Janajati girls of this 48.6% of Janajati girls children in community school ECED/PPE, while in institutional schools 57.0% are boys and 43.0% are the girls children.

Overall, the table 2.4 below shows that out of the total enrolment of 1,130,521 in 2020-21 in ECD/PPCs 18.8% are Dalit and 34.9% are Janajati. Among the Dalit and Janajati children enrolled, 18.6% are girls Dalit and 35.0% are girls Janajati children. Children enrolled by types of schools shows that the share of Dalit in Institutional schools is 9.6%, whereas it is 34.7% for Janajati children. Likewise, this share in the community schools is 28.0% for Dalit and 35.0% for Janajati children, which indicates the access of Institutional schools' service is dependent on the socio-economic conditions of the parents. The GPIs for ECD/PPC in total, Dalit and Janajati enrolment are 0.85, 0.89 and 0.84 which shows a lower level of participation of Total and Janajati girls in comparison to the Dalit girls. Hence, the data suggests that the gender situation needs to be improved in ECD/PPCs enrolment for all social groups of population (See Annex: III).

4 Dalit: 1) Lohar: Backsmith from Tarai 2) Sunar: Goldsmith 3) Kami: Black Smith from Hills 4) Damai: Talior master 5) Sarki: Shoemaker 6) Badi: Intertainers:Dancer) 7) Gaina:Singers8) Kusule:Bandmaster 9) Kuche:Sweepert from tarai 10) Chyame: 11) Pode:Sweeprr 12) Chamar:Shoemaker form Tarai 13) Dhobi:Loundryman 14) Paswan 15) Tatma: Blaksmith 16)Dom:17) Watar 18) Khatwe 19) Musahar: 20)Santhal 21) Satar: 22)Halkhor:Plouger

Note: G = girls, total = girls and boys

2.1.5 Children with disabilities in ECED and PPE

As shown in table 2.5 below, a total of 4,175 (0.37%) of the 1,130,521 children enrolled in ECED/PPE are reported as having a disability, of which 2,600 (62.3%) are in community school and 1,575 (37.7%) in institutional schools' ECED/PPE. In terms of gender, 2,437 (58.4%) of these children are boys and 1,738 (41.6%) girls. Though the proportion of these children are identical with the population census 2011, these proportion are very low given that an estimated 10-15% (including other categories of the disabilities, which are not included in the current 8 categories of the disabilities in EMIS) of population globally have a disability (See Annex:IV).

Of the 4,175 children reported as having a disability, 2,587 (62.0%) have some sort of physical disability. Note that mental disabilities and learning difficulties can be difficult to identify, and schools need to be oriented on identifying the different types of disabilities. Only 465 children in government and 167 children in institutional schools are identified as having a mental disability, which is well below than other categories of the children.

Table 2.5: Number of children with disabilities enrolled in ECED and PPE by province and type of disability and facility (2020-21)

| Types of disability: | | Community ECED/PPE | | | | | | | | | Institutional schools ECED/PPE | | | | | | | | |

2.1.6 GER and NER in ECED and PPE

Of the 1,130,521 children in ECED/PPE, 52.5% (593,914) are in community and school-based ECED centres or PPE classes and 47.5% (536,607) are in institutional ECED/PPE. Since most institutional schools offer multiple years of ECED/PPE ranging from 1 to 5 years of provision, it is very unlikely that the gross enrolment rate will come close to the required 100% (See Annex: 5).

Table 2.6 below shows the total number of 3-4-year age group population, total number of enrolment of children in ECED/PPEs with the percentage (GER) of children enrolled in the ECED/PPEs compared with the 3-4 years' age group population by province and sex. Based on the total enrolment data compared with the 3-4-year age population, the table (2.6) below presents that the overall Gross Enrolment Rate of total children enrolled in ECD/PPCs is 87.6%, with 86.4% girls and 88.7% boys (Compared to total 86.4%, with 85.1% girls and 87.5% boys in the last school year) in the current school year 2020-021, revealing an increase by 1.2% points than in the previous school year. Compared with the SSDP fifth year's (2020-021) set target of 89.5%, (table 1.5) this achievement is lower by 1.9% to meet the target of the year 2020-021.

Table 2.6: Gross enrolment ratio in ECED/PPE by age, gender and province (2020-21)

| Gender: | 3-4-year old population | | | Total children in ECED/PPE | | | GER | | |
|------------------|-------------------------|----------------|------------------|----------------------------|----------------|------------------|-------------|-------------|-------------|
| | G | B | Total | G | B | Total | G | B | Total |
| Province 1 | 95,185 | 106,329 | 201,514 | 96,093 | 109,911 | 206,004 | 101.0 | 103.4 | 102.2 |
| Province 2 | 147,666 | 166,562 | 314,228 | 79,527 | 94,250 | 173,777 | 53.9 | 56.6 | 55.3 |
| Bagmati | 96,885 | 113,074 | 209,959 | 102,876 | 123,972 | 226,848 | 106.2 | 109.6 | 108.0 |
| Gandaki | 45,453 | 54,148 | 99,601 | 44,071 | 52,859 | 96,930 | 97.0 | 97.6 | 97.3 |
| Limbini province | 104,708 | 121,965 | 226,673 | 104,319 | 125,964 | 230,283 | 99.6 | 103.3 | 101.6 |
| Karnali | 45,387 | 49,580 | 94,967 | 36,282 | 38,763 | 75,045 | 79.9 | 78.2 | 79.0 |
| Far Western | 66,434 | 76,777 | 143,211 | 56,492 | 65,142 | 121,634 | 85.0 | 84.8 | 84.9 |
| Total | 601,718 | 688,435 | 1,290,153 | 519,660 | 610,861 | 1,130,521 | 86.4 | 88.7 | 87.6 |

Figure 2.2 GER trends on ECED/PPEs by sex, 2015-020

In addition, the figure 2.2 above presents the five year trend of the GER in ECED/PPEs. The Gross Enrolment Rate in the ECED/PPCs increased from 81.0% in 2015 to 87.6% in 2020, which is on average increase by 1.6% points per annum. The gender gap at 6.8% in the GER of ECED/PPE in the school year 2018 has reduced into 2.3% in the school year 2020. In spite of the significant increment of the Girls GER, indicates there is need of acceleration in increase of girls enrolment. The analysis by province suggests that compared to other province the province 2 (55.3% against the national averages of 87.6%), followed by the Karnali province (79.0%) GER are far behind to meet the target by 2020-021 (table 1.5). Although the effort made by the government towards the expansion of ECED programme to cater the targeted children is more encouraging, it is important to pay more attention to increase ECED facility in disadvantage area and strengthening the programme for their retention and transition to grade 1 which is still low (70.2% table: 2.9).

Out of the total enrolment of the ECED/PPE (table 2.2), the table: 2.7 below present the Net Enrolment Rate in ECED/PPE that is percentage of children enrolled with 4 years old compared with the 4 year population in ECED/PPE by gender and province. Comparing the enrolment for 4-year children against the number of 4-year population of children in total, 68.2% (67.2% in the last school year) of them are enrolled in ECED/PPE, with 69.7% of girls and 66.8% of boys of this age (Table 2.7). Since there has been a practice of more than one year PPE form the age of 2/3 years children with different name of classes (i.e. Nursery, Lower K.G., Upper K.G.) in the institutional schools, the percentage of children with 4 years old compared with the 4 year population is low. As per the SSDP targeted group of children in ECED/PPE programme the children enrolled with age group 4 is very low and need to expedite in the future, for this the role of local government will be the most instrumental.

Table 2.7: Net Enrolment Rate in ECED/PPE by gender and province (2020-21)

| Gender: | 4-year old population | | | 4-year old children in ECED/PPE | | | NER | | |
|------------------|-----------------------|----------------|----------------|---------------------------------|----------------|----------------|-------------|-------------|-------------|
| | G | B | Total | G | B | Total | G | B | Total |

| Total | 305,065 | 349,501 | 654,566 | 212,512 | 233,675 | 446,187 | 69.7 | 66.8 | 68.2 |

Note: G = girls, B = boys

2.1.7 Gender, caste, ethnicity and qualifications of ECED/PPE teachers

Table 2.8 below shows the total number of ECD/PPCs teachers by sex, Dalit, Janajati, Others, qualifications and their percentage of training. Overall, the total number of ECD/PPCs teachers is 55,865 with 48,712 (87.2%) females in all types of ECD/PPCs (37,130 ECD/PPCs including 6,543 PPCs of institutional schools). Of the total numbers of ECD/PPCs teachers, the percentage shares of Dalit, Janajati and Others are 4.6%, 43.7% and 51.7% respectively. Compared to their share in the total population of the country, the percentage of Dalit teachers in ECD/PPCs is quite lower compared to the teachers from the Janajati and others. Likewise, the status of the ECD/PPCs teachers by their qualifications shows that 3.6% of teachers are with under SEE (previously called SLC), 20.0% are with SEE and 76.4% of the ECD/PPCs teachers are with more than the SEE qualification. Furthermore, the table 2.8 below shows the percentage of ECD/PPCs teachers with their training status, where regardless of duration altogether 92.0% ECD/PPCs teachers received

any types of trained and the rest are untrained in all types of ECD/PPCs (See Annex: V). Based on the training status of the teachers the province numbers 1, 2 and 6 need to focus to improve the status of the ECD/PPCs teachers.

Table 2.8: Qualifications and age of ECED/PPE teachers by gender, social group and province (2020-21)

| Gender: | | Gender | | Caste and ethnicity | | | Qualification | | | Age | | | Percentage of trained teacher |

| | T | 48,712 | 55,865 | 2,574 | 24,424 | 28,867 | 2,032 | 11,169 | 42,664 | 7,920 | 29,062 | 18,883 | 92.0 |

F = female, T =total, D=Dalit, J=Janajati, O= other; SEE=Grade 10 equivalent, I = institutional, C = community, T = total

In summary, of the 34,064 ECED and PPE teachers in community schools:

- 89.7% (30,545) are female, 5.3% (1,810) are Dalit and 45.9% (1,5633) are Janajati;
- Regarding the qualifications in total 3.6% are below SEE, 20.0% SEE passed and the remaining 76.4 are with more than SEE qualification, and
- Regarding age group-of the teachers in total 14.2% are below 25 years' age, 52.0% are between 25 and 35 years of age and 33.8% are over 35 years of age (Table 2.8).

Of the 21,801 teachers working in the institutional PPEs 83.3% of female, 2.8% are Dalit and 40.3% of are Janajati teachers in total number of teachers. Moreover, in total 3.5% are below SEE,11.9% SEE passed and the remaining 84.6% are with more than SEE qualification.

2.1.8 Grade 1 progression

a) Percentage of new entrants in Grade1 with ECED/PPE experience

This indicator is very important to assess the efficiency of early grades in lower basic level, which has direct impact with the individual student's performance and systemic efficiency of lower

basic education as well. Table 2.9 and Figure 2.3 below depict the percentage of new enrolment in Grade One with ECED/PPC experiences by province and gender in the school year 2020-21. In particular, the table reveals that out of the total new enrolment in Grade One the percentage of children with ECED/PPCs experiences (as a new intake in grade One) reached to 70.1% in 2020 compared to 62.4% in the school year 2015. This is higher than in the previous year (68.6%) (See Annex: V). Although the trend of achievement in new enrolment in Grade One with ECED/PPC experiences is impressive, the current achievement in 2020 is still lower (by more than 2.9%) than the set target of SSDP for 2020 (i.e. 73%), for this there is a need of improvement in the current ECED/PPEs programme and make ensure to increase the number of new children in grade 1 with the ECED/PPE experiences in the next education sector plan.

Among the 7 provinces, the Gandaki province shows the highest intake (84.2%) of new children in Grade One with ECD/PPC experiences followed by the Far-western province at 76.8%, the province 1 by 74.8%, the Limbini province by 73.9%, the Bagmati province by 70.6%, the Province at 62.0% and the Karnali province by 59.8% respectively. Also, the variation in terms of the percentage of new children in Grade One with ECD/PPC experiences observed in the urban and rural areas in the country (See Annex: V). More Grade 1 students would have ECED/PPE experience if all schools ran ECED centres or PPE classes allowing for their easy movement to Grade 1 in the same school, for this, there is a need to discuss the policy and programme implications of this challenge.

Table 2.9: Percentage of new entrants in Grade 1 with ECED or PPE experience by type of centre, gender and province (2020-21)

| Province | New enrolments in Grade 1 | | | New enrolments in Grade 1 with ECD/PPCs Experiences | | | % of Grade 1 students with ECED/PPE experience | | |
|------------------|---------------------------|----------------|----------------|---|----------------|----------------|--|-------------|-------------|
| | G | B | Total | G | B | Total | G | B | Total |
| Province 1 | 53,764 | 53,508 | 107,272 | 37,841 | 38,487 | 76,328 | 70.4 | 71.9 | 71.2 |
| Province 2 | 86,335 | 85,966 | 172,301 | 54,756 | 56,365 | 111,121 | 63.4 | 65.6 | 64.5 |
| Bagmati | 54,165 | 56,513 | 110,678 | 40,854 | 41,180 | 82,034 | 75.4 | 72.9 | 74.1 |
| Gandaki | 24,580 | 24,844 | 49,424 | 19,961 | 19,482 | 39,443 | 81.2 | 78.4 | 79.8 |
| Limbini province | 62,105 | 65,425 | 127,530 | 45,612 | 48,026 | 93,638 | 73.4 | 73.4 | 73.4 |
| Karnali | 31,922 | 31,730 | 63,652 | 20,293 | 20,078 | 40,371 | 63.6 | 63.3 | 63.4 |
| Far Western | 42,613 | 42,250 | 84,863 | 29,082 | 30,467 | 59,549 | 68.2 | 72.1 | 70.2 |
| Total | 355,484 | 360,236 | 715,720 | 248,399 | 254,085 | 502,484 | 69.6 | 70.6 | 70.1 |

Note: G = girls, B = boys

The Figure 2.3 below depicts the trends of the percentage of new enrolment in Grade One with ECED/PPE experiences by gender in the school years 2015 to 2020. The increasing trend of new children in grade 1 with ECED/PPE experiences has the positive impact which have strong connotation with other indicators in grade 1 and resulted in reducing the under-aged children and repetition rate and also improve in Net Intake Rate in grade one and increasing the internal efficiency of lower basic education (Figure 2.3).

Figure 2.3 the trend of Grade 1 progression and the impact of ECED/PPE in other indicators of Grade 1

B) ACCESS IN GRADE 1 TO SCHOOLING: TRENDS BY GENDER AND PROVINCES

Table: 2.10 Enrolment trend in Grade One by sex, 2016-20

| School Year | Students | Province | | | | | | | Total |
|------------------------|----------|------------|------------|---------|---------|------------------|---------|-------------|---------|

| | Boys | 63,849 | 91,356 | 70,719 | 28,397 | 78,426 | 37,924 | 50,446 | 421,117 |
| | Total | 125,802 | 184,699 | 134,181 | 53,709 | 151,677 | 76,960 | 102,642 | 829,670 |
| Growth rate in 2016-20 | Girls | -2.2 | -4.7 | -4.1 | -7.8 | -3.2 | -4.5 | -4.6 | -4.1 |
| | Boys | -2.3 | -3.0 | -3.9 | -7.1 | -3.6 | -5.1 | -3.7 | -3.7 |
| | Total | -2.2 | -3.9 | -4.0 | -7.4 | -3.4 | -4.8 | -4.1 | -3.9 |

Table 2.10 above reveals the trends of total enrolment in Grade One over the period 2016-20 along with the average annual growth rate of -3.9%. It shows that the average annual growth rate of girls is -4.1% while it is -3.7% for boys during the period of 2016-20. It reveals that the trend on participation of grade 1 children has decreased per annum by -3.9% points which is lower than in the last school year. Of the total, the enrolment of girls has decreased more than the boys' enrolment. The reasons behind the decreasing trend of enrolment in early grades of lower basic level could be the change in demographic characteristics, where, the decreasing trend of population growth rate is the one of the important factor. As the National Population Census Report, 2011 revealed that the population growth rate decreased from 2.25% in the decade of 1991-2001 to 1.35% in the decade of 2001-2011. In total, where it has observed very low rate (0.6%) of growth of age 5 children from 2011-18 and by 1.8% from the year 2016-20. The next factor is rapid expansion of ECED/PPEs (See table 2.1) for the under aged children who used to enroll in grade 1, the increasing trend of promotion rates (by 1.1% points in the period of 20016-20) in grade 1 and decreasing of over aged children by reducing repetition rates (by 1.2% points in the period of 20016-20).

C) GROSS INTAKE RATE (GIR) IN GRADE ONE

The GIR indicates the total number of new entrants in Grade One, regardless of age, expressed as a percentage of the population of five years of age group. The indicator GIR also indicates the general level of access to lower basic education. Moreover, it indicates the capacity of the education system to provide access the new intake into Grade One for the population of five-year age (the official school entrance age). This indicator can be used as a substitute to NIR (Net Intake Rate) in the absence of data on new entrants by single year of age. A high GIR indicates a high degree of access in the new entrance of lower basic education and the higher number of over aged children as well.

The table 2.11 below shows the Gross Intake Rate (GIR) in Grade One in the school year 2020-21 by province and gender. Based on the total number of new enrolment in Grade One and the total number of projected 5 years' age population⁶, the overall GIR for Grade One is 120.7 (Compared to 121.9% in the last school year) with 120.0% for girls and 121.3% for boys. Compared amongst the provinces, the Karnali province (with the GIR 132.9%) shows the highest GIR followed by the province number 2 and Bagmati province; whereas the Gandaki province has 112.4% with the lowest GIR. Among the 753 Local Levels there are 289 Local Level that have the GIR more than 120.7%, whereas, there are 464 Local Levels that have less than 120.7% of the GIR indicates the 289 local level have facing the more over age children in grade 1 which have direct effects on children's internal efficiency and learning. Therefore, 289 local levels need to give ample attention to ensure that all children have equal opportunity to access of school education.

The trends of Gross Intake Rate (GIR) in Grade One over the period 2015-20 shows that there was 136.7% GIR in 2015 with 144.3% for Girls and 129.8% for boys, which, considerably decreased and reached to 120.7% GIR in 2020 with 120.0% for girls and 121.3% for boys. Compared to the school year 2015, though the GIR has decreased in the school year 2020, the GIR for girls has considerably decreased since the observed gap in the school year 2020 (2.2% versus 1.3% in the previous school year) completely decreased and it is in favor of girls as well as matched with the population composition. Overall, as compared to the set target (127%) in SSDP for the school year 2020 the target has already met in the school year 2018 (See Annex V).

Table 2.11: Gross Intake Rate in grade 1 by gender and province (2020-21)

| Province | New enrolment in Grade 1 | | | Age group 5 Years' Population | | | Gross Intake Rate in Grade 1 | | |
|------------------|--------------------------|----------------|----------------|-------------------------------|----------------|----------------|------------------------------|--------------|--------------|
| | Girls | Boys | Total | Girls | Boys | Total | Girls | Boys | Total |
| Province 1 | 54,267 | 53,905 | 108,172 | 45,576 | 45,024 | 90,600 | 119.1 | 119.7 | 119.4 |
| Province 2 | 88,466 | 87,326 | 175,792 | 71,969 | 70,049 | 142,018 | 122.9 | 124.7 | 123.8 |
| Bagmati | 55,730 | 60,394 | 116,124 | 46,615 | 50,088 | 96,703 | 119.6 | 120.6 | 120.1 |
| Gandaki | 22,088 | 24,055 | 46,143 | 19,987 | 21,071 | 41,058 | 110.5 | 114.2 | 112.4 |
| Limbini province | 61,945 | 64,584 | 126,529 | 52,596 | 54,125 | 106,721 | 117.8 | 119.3 | 118.6 |
| Karnali | 34,408 | 33,839 | 68,247 | 26,181 | 25,175 | 51,356 | 131.4 | 134.4 | 132.9 |
| Far Western | 38,580 | 36,133 | 74,713 | 33,201 | 31,383 | 64,584 | 116.2 | 115.1 | 115.7 |
| Total | 355,484 | 360,236 | 715,720 | 296,125 | 296,915 | 593,040 | 120.0 | 121.3 | 120.7 |

⁶ The district and local level wise single age group population was estimated for the all indicators of access/enrolment in 2020-21 based on the data received from the CBS of current National Population Census 2011.

The population used in the calculation of enrolment rates in all Flash Reports is based on the National Population Census Reports and the projected population by the CBS. In this regard, up to the Flash I Report 2012/013 the school age population was used based on the Population Projection for Nepal 2001-2021 publication, jointly published by the Central Bureau of Statistics (CBS) and the Ministry of Population and Environment (MOPE) in the year 2003. Compared to the projected population used up to 2012/013, the projected population based on the National Population Census 2011, shows the population of the age group 4-9 is in decreasing trend and the population of the age group 10-16 is in increasing trend. So, the fluctuations in the enrolment rates depend on the increasing and the decreasing trends of the respective age group population and respective age group enrollment.

d) Net Intake Rate (NIR) in Grade One

By definition this indicator is the New entrants in the first grade of lower basic education who are of the official lower basic school-entrance age, expressed as a percentage of the population of the same age. This indicator monitors the access of new entrants in grade one in precisely who are five years of age as a percentage of the population of the same age group. It shows the level of access of 5-year age group population in Grade One, which is the official entrance age of lower basic school education in Nepal.

The table 2.12 below shows the Net Intake Rate (NIR) in Grade One in the school year 2020-21 by province and gender. Based on the total number of new enrolment with 5 year's age group in Grade One and the total number of projected 5 years' age population⁷, the overall NIR in Grade One in the school year 2020-21 is 97.3% (Compared to 96.8% in the last school year), with 97.0% for girls and 97.6% for boys. Among the province, the province 1 and 2 show the highest percentage (97.6%) of NIR in Grade One; however the Far-western province shows the lowest NIR (by 96.5%) followed by the Bagmati province (with the NIR 96.9). Compared to the NIR in the last school year, it has increased by 0.5 percent point and also reduced the gaps between boys to girls and portraits that the girls outperform boys in the current school year. As compared to the national average, among the 753 Local Levels there are 343 Local Levels that have lower NIR (i.e. less than 97% NIR) in the school year 2020-021 (See Annex: V).

Moreover, the trend of NIR in Grade One during the school years 2015-19 show significantly improved. The overall NIR, in 2018 school year has already exceeded the 2018/19 target of 96% set in the SSDP with the achievement at 96.3% with 95.7% for girls and 96.9% for boys. Compared to the NIR in the last school year (2019-20), the slightly increase in NIR reduce the gender disparity in the school year 2020-21, as it was 0.8 percentage points in the last school year narrowed into 0.6 in the current school year. The figures show that there is a significant decrease in GIR that consequent to increase NIR indicating more correct age children were entered in the system.

Table 2.12: Net Intake Rate in grade 1 by gender and province (2020-21)

| Province | New enrolment in Grade 1 with age 5 years age | | | Age group 5 Years' Population | | | Net Intake Rate in Grade 1 | | |
|------------------|---|----------------|----------------|-------------------------------|----------------|----------------|----------------------------|-------------|-------------|
| | G | B | T | G | B | T | G | B | T |
| Province 1 | 44,443 | 44,024 | 88,467 | 45,576 | 45,024 | 90,600 | 97.5 | 97.8 | 97.6 |
| Province 2 | 70,127 | 68,497 | 138,624 | 71,969 | 70,049 | 142,018 | 97.4 | 97.8 | 97.6 |
| Bagmati | 44,990 | 48,673 | 93,663 | 46,615 | 50,088 | 96,703 | 96.5 | 97.2 | 96.9 |
| Gandaki | 19,259 | 20,612 | 39,871 | 19,987 | 21,071 | 41,058 | 96.4 | 97.8 | 97.1 |
| Limbini province | 51,086 | 53,009 | 104,095 | 52,596 | 54,125 | 106,721 | 97.1 | 97.9 | 97.5 |
| Karnali | 25,483 | 24,598 | 50,081 | 26,181 | 25,175 | 51,356 | 97.3 | 97.7 | 97.5 |
| Far Western | 31,933 | 30,381 | 62,314 | 33,201 | 31,383 | 64,584 | 96.2 | 96.8 | 96.5 |
| Total | 287,321 | 289,794 | 577,115 | 296,125 | 296,915 | 593,040 | 97.0 | 97.6 | 97.3 |

⁷ The district wise single age group population was calculated for both the GIR and NIR in 2020-21 based on the data received from the CBS of current National Population Census 2011.

SECTION III

3.1 School education

This section of the report presents the overall current status of the schools running in units, levels and types in the country disaggregating by the province, district and local level based on the policy formation and the development and implementation of the planning in the three tiers of federal governmental system of the Nepal. Since the implementation of the School Sector Reform Programme (SSRP, 2009/10-2016/17) and with the continuation of the current School Sector Development Plan (SSDP, 2016/17-2020/21), broadly the analysis of the school education system has been presented as basic education (consisting of ECED/PPEs and grades 1-8) and secondary education (consisting of grades 9-12). Subsequently, in the school education system while ECED/PPEs and lower basic (grades offers 1-5) and upper basic (grades offers 6-8) levels are included in the basic education; secondary (grades offers 9-10) and higher secondary levels (grades offers 11-12) are included in the secondary education. The early childhood development (ECD)/pre-lower basic classes (PPCs) are offered as building foundation for children and preparing them for grade one.

The majority of schools in the country include lower basic level (grades 1-5), i.e. most of the upper basic, secondary (grades 9-10) and secondary (grades 11-12) schools include lower basic level. Very few of them offer only grades 6-8 (29 upper basic level) or only grades 9-10 (177 secondary level). At the higher secondary level, it is more common that some schools offer only grades 11-12 (245 schools). Broadly, schools are categorized into two types: Community schools and institutional schools.

Further, community schools are of four types: (i) community-aided (schools, that received at least one approved position of teacher by level and are fully supported by the government for teachers' salary and other expenses), (ii) community-managed (schools, which are fully supported by the government for teachers' salary and other funds but their management responsibility lies with the community) (iii) community-teacher aided (schools, that received only the rahat quota but not any approved position by level and supported by the government for teachers' salary and other expenses), and (iv) community-unaided (schools, which are either getting partial support or no support from the government).

Besides, there are 3 types of institutional schools, which are private trust, community trust and registered into company acts which are supported by founders, parents and trustees. In addition to these broad categories, there are some schools running as religious schools such as Madrassa, Gumba/Vihar and Ashram/Gurukul that have received support from the government when they have been mainstreamed into the formal education system following the Education Act and Regulation.

3.2 Number of Schools in Units, Levels and School Student Ratios

As mentioned above, the information in the following sections reflects this new education structure. More particularly, this section presents the status of both basic education secondary education in terms of schools, students, teachers and other indicators. Under both the basic education and secondary levels the analysis has presented disaggregation of lower basic level (grade 1-5) to secondary level (grade 11-12) separately.

Table 3.1: Number of basic level schools by province, level, type of school and eco-belt (2020-21)

| School Types | Province | Number of school running by grade offered (in units) | | | | | | | | | | | | | | | | | | | | | | |
|----------------------|--------------|--|------------|------------|-------------|------------|--------------|------------|------------|-------------|------------|-------------|------------|-------------|----------|-----------|----------|-----------|----------|------------|-----------|----------|----------|------------|
| | | Total Unit | 1 | 1-2 | 1-3 | 1-4 | 1-5 | 1-6 | 1-7 | 1-8 | 1-9 | 1-10 | 1-11 | 1-12 | 6-7 | 6-8 | 6-9 | 6-10 | 6-11 | 6-12 | 9-10 | 9-11 | 9-12 | 11-12 |
| All types of schools | P1 | 6967 | 74 | 99 | 804 | 173 | 2419 | 85 | 124 | 1101 | 84 | 1224 | 37 | 668 | 1 | 1 | 0 | 11 | 0 | 14 | 1 | 0 | 1 | 46 |

The Tables 3.1 above and 3.2 below present the total number of basic and secondary schools by units, levels and types registered throughout the country in the school year 2020-21. The information of the schools running by grade are the most important for the planning and policy point of view (especially, the community schools are use to allocation of the fund supports from the government). Of the total 35,674 (compared to 35,520 in the last school year) schools, the distribution of schools running by grades (units) in the school year 2020-21 shows that a total of 24,443 schools in unit at the basic level (table 3.1&3.2), of this the majority of schools 11,726 (in the last school year 11,993 schools) are running with grades 1-5 (lower basic level). As compared to the previous school year the schools running with grade 1-5 has decreased in the current school year meaning in total 267 schools of last school year have upgraded into upper basic level. At the lower basic level, there are small schools with only grade(s) 1 and 1-2, which will eventually upgrade in the successive year/s with the consent and approval of the Local level governments. At the upper basic level, the majority of schools are running with grades 1-8 are 5,211 (compared to 5,234 schools in the last year); however, there is a significant number of schools with grades 1-6 and 1-7 and less number of schools with the running grades of 6-7 and 6-8only. Similarly, in total, 1,1231 (1,0889 in the last school year) secondary schools are functioning throughout the country, where 6,865 secondary schools running up to grades 9-10 and 4,366 secondary schools running up to grades with 11-12 are included. The distribution of secondary schools running by grades in the school year 2020-21 presents that, there are very few schools running with Grades 6-9, 6-10, 6-11, 6-12, 9-10, 9-11 and 9-12 at the secondary level (See Annex: I). The majority of the schools at secondary level are running grades with 1-10 and running grades with 1-12.

Similarly, the table 3.2 presents the schools in unit running by grades separately for all types of community schools (including religious schools) and all types of institutional schools. Compared to the institutional schools the number of community schools are higher in all province. The distribution of schools in unit by province shows that out of total 35,674 schools there are 6,967 schools; 4,174 schools; 7,059 schools; 4,309 schools; 5,768 schools; 3,184 schools; and 4,213 schools in province 1 to 7 respectively (See Annex: I). Among the 7 provinces (Tables 3.1 and 3.2) the highest number of schools is in the Bagmati and the lowest number is in the Karnali. Overall, there are twice as many lower basic schools as upper basic schools, which implies access constraints for many students promoted to Grade 6 in terms of distance to a school that provides up to Grade 8 education. Also, there are almost 63% of the schools providing secondary level education (grade 11-12) to the students completed grade 10 national examination (See Annex: I).

Table 3.2: Number of schools in aggregate units by types in province (2020-21)

| School Types | Province | Total School | Total schools (in units) | | | | | |
|---------------|--------------|--------------|--------------------------|-------------|--------------|-------------|-------------|--------------|

| | Total | 6733 | 1854 | 1116 | 2970 | 2848 | 915 | 3763 |

Table 3.3 below present the distribution of schools in levels by province functioning throughout the country in the school year 2020-21. As stated above (tables 3.1&3.2) overall, there are 35,408 (35,262 in the last school year) basic levels, of this 35,187 (35,063 in the last school year) lower basic and 17,183 (16,770 in the last school year) is upper basic. Likewise of the total schools, there are 11,231 (1,0889 in the last school year) secondary levels (grade 9-12), of this 10,984 (10,644 in the last school year) secondary level with grade 9-10 and 4,366 (4,187 in the last school year) is secondary levels (grade 11-12). The analysis show that the number of schools in levels are higher than in the previous school year at all levels, meaning altogether there are 154 new schools were established in the current school year and also there are 413 lower basic schools were upgraded into upper basic level, 340 upper basic schools were upgraded into secondary level (grade 9-10) and 179 secondary schools (grade 9-10) upgraded into secondary level with grade 11-12. Here, the levels of secondary schools running with the grades 9-12 are greater than the secondary level

with grade 9-10 meaning there are 247 higher secondary schools with running only grades 11-12 (including 122 campuses that have higher secondary levels only) (See Annex: I).

Table 3.3 : Number of schools running by level and types in province (2020-21)

| School Types | Province | Total School (unit) | Total number of schools in unit and Levels by types of schools | | | | | |
|---------------|--------------|---------------------|--|-------------------|-----------------|----------------------|-----------------------|----------------------|
| | | | L_Basic Level_1-5 | U_Basic Level_6-8 | Basic Level_1-8 | Secondary Level_9-10 | Secondary Level_11-12 | Secondary Level_9-12 |

| | Bagmati | 5,133 | 5,096 | 2,536 | 5,127 | 1,662 | 781 | 1,662 |
| | Gandaki | 3,718 | 3,665 | 1,591 | 3,715 | 1,043 | 510 | 1,044 |
| | LIMBINI | 4,642 | 4,616 | 2,016 | 4,642 | 1,182 | 534 | 1,182 |
| | Karnali | 2,988 | 2,944 | 1,154 | 2,984 | 639 | 280 | 639 |
| | F_west | 3,578 | 3,554 | 1,609 | 3,576 | 897 | 388 | 898 |
| | Total | 28,941 | 28,719 | 12,547 | 28,918 | 7,463 | 3,451 | 7,468 |
| Institutional | P1 | 1,505 | 1,456 | 1,064 | 1,459 | 758 | 174 | 804 |
| | P2 | 754 | 731 | 430 | 733 | 282 | 86 | 303 |
| | Bagmati | 1,926 | 1,796 | 1,510 | 1,807 | 1,357 | 299 | 1,475 |
| | Gandaki | 591 | 569 | 419 | 571 | 338 | 124 | 358 |
| | LIMBINI | 1,126 | 1,099 | 722 | 1,099 | 522 | 150 | 549 |
| | Karnali | 196 | 194 | 105 | 196 | 65 | 20 | 65 |
| | F_west | 635 | 623 | 386 | 625 | 199 | 62 | 209 |
| | Total | 6,733 | 6,468 | 4,636 | 6,490 | 3,521 | 915 | 3,763 |

Similarly, the average ratio of lower basic to upper basic level is 2:1, which suggests that 1 upper basic level serves more than 2 lower basic schools' children for the upper basic education, this ratio is highest in Karnali province followed by province 2 and the lowest is in Bagmati province. Similarly, the average ratios of upper basic level to secondary level (grade 9-10) and grades 9-10 secondary level to grades 11-12 secondary level are 1.6 and 2.5 respectively (See Annex: I). The highest ratio of upper basic level to secondary level is in Karnali province and from secondary level with grades 9-10 to secondary level with grades 11-12 is in Bagmati province.

Table 3.4 and below explain the number of community school, excluding the religious schools by unit and levels in the school year 2020-21. At lower basic level, out of the total 27,811 school in unit there are 27,615 lower basic levels, 12,414 are upper basic levels, 27,684 basic levels, 7,417 secondary level (grade 9-10), 3,444 secondary levels (grade 11-12) and 7,418 levels are secondary (grade 9-12) levels of community schools. Among the province, province 1 has the highest number of community schools followed by the Bagmati province and Limbini province at all levels (See Annex: I).

Table 3.4 Number of community schools by levels (Excluding religious schools)

| Province | Total School (unit) | Total number of schools in unit and Levels by types of schools | | | | | |
|--------------|---------------------|--|-------------------|-----------------|----------------------|-----------------------|----------------------|
| | | L_Basic Level_1-5 | U_Basic Level_6-8 | Basic Level_1-8 | Secondary Level_9-10 | Secondary Level_11-12 | Secondary Level_9-12 |
| P1 | 5,173 | 5,152 | 2,250 | 5,140 | 1,271 | 590 | 1,269 |
| P2 | 3,130 | 3,118 | 1,340 | 3,109 | 754 | 365 | 757 |
| Bagmati | 5,082 | 5,049 | 2,516 | 5,060 | 1,655 | 781 | 1,655 |
| Gandaki | 3,666 | 3,627 | 1,566 | 3,652 | 1,033 | 508 | 1,034 |
| LIMBINI | 4,210 | 4,186 | 1,983 | 4,180 | 1,168 | 532 | 1,166 |
| Karnali | 2,986 | 2,942 | 1,154 | 2,982 | 639 | 280 | 639 |
| F_west | 3,564 | 3,541 | 1,605 | 3,561 | 897 | 388 | 898 |
| Total | 27,811 | 27,615 | 12,414 | 27,684 | 7,417 | 3,444 | 7,418 |

Table 3.5 below shows the number of religious schools by Units and levels running by province, which are included and counted as the community schools as well. These types of schools have been receiving some funds from the government but not as the other community schools. In total there are 911 Madarsa schools, 114 Gumba/Bihar schools and 105 are Ashram/Gurukul schools respectively in the school year 2020-21.

Among the provinces, the Madarsa are the highest in Limbini province followed by province 2 and 1, whereas, there none of the Madarsa school is reported in Karnali province. Similarly, Of the total 114 of Gumba/Bihar the highest number is in province 1 followed by the Bagmati and Gandaki provinces, where the Far-western province do not have any Gumba/Bihar school. Likewise, of the total 105 Ashram/Gurukul there are 52 schools in province 1, 17 in Gandaki province, 16 in Limbini province and 14 is in Bagmati province and 5 schools in this category are in Far-western province, whereas, the province 2 has only 1 school and the Karnali province do not have an any Ashram/Gurukul schools.

Out of the total 1,130 of the all types of the religious schools, there are 1,104 lower basic levels, 133 upper basic levels, 1,234 basic education levels, 46 secondary level (grades 9-10), 7 secondary level (grades 11-12) and 50 are the overall secondary level (grade 9-12). The Madrassa schools are mainly located in Terai, mostly the Gumba schools are located in Hill and Mountain, and also the Ashram/Gurukul schools are located in the Hill and Terai province (See Annex: I).

Table 3.5 : Distribution of religious schools running by level and types in province (2020-21)

| School Types | Province | Total School (unit) | Total number of schools in unit and Levels by types of schools | | | | | |
|--------------|--------------|---------------------|--|-------------------|-----------------|----------------------|-----------------------|----------------------|
| | | | L_Basic Level_1-5 | U_Basic Level_6-8 | Basic Level_1-8 | Secondary Level_9-10 | Secondary Level_11-12 | Secondary Level_9-12 |

Table 3.6 and figure 3.1 below show the School Student Ratio (SSR)⁸ by levels and province at basic and secondary levels in all types of schools. This indicator presents the extent of schools' capacity to accommodate the students. From the planning point of view this indicator helps to know the average capacity of existing schools to accommodate the students for teaching learning activities, it is also equally important to know the actual status of School Student Ratio at the school level. The national average of School Student Ratio at lower basic level is 1:100, which indicates that on average, a lower basic level school is serving 100 children. Similarly, the School Student Ratio at upper basic level is 1:106 and at basic education level it is 1:151. Similarly, at the secondary level, the national average of School Student Ratio at secondary level (grade 9-10) is 1:97, at the secondary level (grade 11-12) is 1:156 and 1:155 at secondary level with grade 9-12 indicates that on average, a secondary level school with grade 9-10 serving 97 students and 156 students at the secondary level with grade 11-12. Among the provinces, except in secondary level (G11-12) the highest SSR is province 2 at all levels, whereas, the lowest SSR at all levels is Gandaki province. This suggests that the class rooms are more crowded in province 2 and less in Gandaki province, for this need of proper planning to maintain the reasonable class size for the equal opportunity learning to all children (See Annex: 1).

Moreover, as compared to the School Students Ratios in Institutional schools, the School Student Ratios in community schools are lower at lower basic level and higher in institutional schools (i.e. 1:87 Vs 1:164 in institutional schools) (See Annex: I). Interestingly, as compared to the lower basic level, at upper basic and secondary level with grade 9-10 the ratios of the school students are higher in community schools and lower in institutional schools, this indicates that after completing the lower basic level some of the students have been transferred from the institutional schools to the community schools. Mostly, this case has been observed at secondary level. Overall, due to the density of the population, easy access of the school education and other facilities the schools in Terai districts are more crowded than the district from the Hilly and Mountain eco-belts. This suggests that in the future the respective government need to have a detailed analysis of the targeted population and geographical characteristics on the needs of schools as such new schools or upgrading the existing schools' levels.

Table 3.6 School Student Ratios by province and levels

| Province | Lower basic | Upper basic | Basic | Secondary (G9-10) | Secondary (G11-12) | Secondary (G9-12) | Total G1-12 |
|--------------|-------------|-------------|------------|-------------------|--------------------|-------------------|-------------|
| Province1 | 81 | 91 | 125 | 91 | 198 | 162 | 172 |
| Province2 | 184 | 173 | 258 | 166 | 164 | 232 | 316 |
| Bagmati | 90 | 89 | 141 | 74 | 125 | 114 | 190 |
| Gandaki | 59 | 76 | 94 | 71 | 112 | 120 | 132 |
| Province5 | 111 | 117 | 167 | 105 | 172 | 172 | 217 |
| Karnali | 95 | 121 | 142 | 122 | 179 | 198 | 185 |
| Far-western | 96 | 108 | 146 | 110 | 170 | 178 | 193 |
| Total | 100 | 106 | 151 | 97 | 156 | 155 | 199 |

8 This indicator is calculated by taking the total number of schools by level and the total number of students in the respective school level in a specific school year.

The highest School Student Ratios are found in the Terai regions' Local Levels, where the School Student Ratios are higher than the national average at all levels. The lowest School Student Ratio is found in Mountain and Hilly regions' Local Levels at both the basic and secondary education levels (See Annex: I). Compared to the normal class size at 1:45 regardless of the number of classes, there are 17 Local Levels that have less than 1:45 School Student Ratios and 20 Local levels that have more than 1:360 School Student Ratios at the lower basic level. Similarly, at the secondary level (grades 9-10) regardless of the number of classes, there are 21 Local Levels that have less than 1:45 School Student Ratios and 442 Local levels that have more than 1:90.

Figure 3.1 School Student Ratios by province and levels

3.3 Enrolment

This section presents the details of enrolments at basic and secondary levels with the disaggregated information of lower basic, upper basic, basic, secondary (grade 9-10), secondary (grade 11-12) and secondary (grade 9-12) levels and by levels and types of schools and other related indicators in the school year 2020-21 by provinces and the details by local levels are presented in annexes.

3.3.1) Total Enrolment at Basic level by types of schools

As stated earlier (Section I) with proper use of electronic-based School Level IEMIS in all schools of the 77 districts and 753 Local Levels, regular follow up and monitoring of the Flash Reporting System at school and local level by the respective person and institution (i.e. Education officers) and also well managed EMIS web-portal for the Flash data with necessary validation rules, the quality of data (with more consistency and accuracy) has improved. In addition, regarding the quality of data, as the CEHRD has upgraded “School Level IEMIS” into Web-based IEMIS from a viewpoint of improving the “School Record Keeping System” at the school level, in the current school year all schools of 753 Local Levels have used this mechanism and submitted their Flash I& II data by using the new mechanism.

Table 3.7 below show the total enrolment at lower basic, upper basic and basic levels in the school year 2020-21. In total 3.52 million (compared to 3.54 million in the last school year) students enrolled in lower basic level schooling and 1.82 million (1.78 million in the last school year) students in upper basic level education (See Annex: II). As compared to the previous school year a reduced number of enrolments are reported for the current year with 0.6 percent points less for lower basic and 0.4% at overall basic level, whereas, it has increased by 2.3 percent points at the upper basic education (Table 3.7). The reasons behind the decreasing trend in student enrolment than in the previous years (especially at the lower basic level) are: decreasing trend in population

growth rates in the school age group population. It also due to decrease in the number of under age children being enrolled and accommodated in early childhood development centres and pre-primary classes (as there is an increasing trend of enrolment in ECED/PPE programme i.e. 2.2% points increase in the current school year than in the last school year), and constant decrease in the over age children completing lower basic education and transiting to upper basic education, demonstrating enhanced efficiency in the overall basic school education system.

Table 3.7: Number of students at basic level enrolled by level and type of school (2020-21)

| School Types | Province | L_Basic Level_1-5 | | | U_Basic Level_6-8 | | | Basic Level_1-8 | | |

| | F_west | 29,580 | 48,438 | 78,018 | 12,443 | 21,806 | 34,249 | 42,023 | 70,244 | 112,267 |
| | Total | 362,621 | 531,348 | 893,969 | 179,131 | 256,333 | 435,464 | 541,752 | 787,681 | 1,329,433 |

Of the 3,522,177 with 49.7% (49.7% in the last school year) girl students (Table 3.7) at lower basic level, 2,628,208 (2,488,386 in the last school year) with the 52.8% (52.9% in the last school year) girls are in community schools while 893,969 (1,055,476 in the last school year) with the 40.6% (42.3% in the last school year) girls are in institutional schools. Of the total students at lower basic level, 74.6% (70.2% in the last school year) are in community schools and 25.4% (29.8% in the last school year) are in the institutional school, indicating the share student in institutional school has decreased by 4.4% points in the current school year. Similarly, of the 1,816,776 (1,775,142 in the last school year) with the 49.9% (50.2% in the last school year) girl students at upper basic level, 1,381,312 (1,318,253 in the last school year) with the 52.6% (53.0% in the last school year) girls are in community schools while 435,464 (456,889 in the last school year) with the 41.1 (42.1% in the last school year) girls are in institutional schools. Of the total students at upper basic level, 76.0% (74.3% in the last school year) are in community schools and 24.0% (25.7% in the last school year) are in the institutional school in the current school year.

Comparing between the types of the schools, it shows more girls than boys enrolled in lower and upper basic education in community schools while institutional schools have significantly more boys than girls students. The higher proportion of boys highlights the continued son preference and the perception that private schools provide better education. Overall, the shares of girls at

basic level have remained almost 50.0% in the current school year as in the previous school years, of this, 52.7% in community school and 40.8% is in institutional school. The data shows that the shares of enrolment by gender at all levels are compatible with their share of population (i.e. 50.1 for age group 5-9 years and 49.4% for age group 10-12 and 49.8% for the age group 5-12 years' population).

Table 3.8: Number of lower basic level students enrolled by grade, type of school and gender (2020-21)

Table 3.8 above shows the grade-wise composition of enrolment at lower basic level (grade 1-5). The grade-wise enrolment at the lower basic level shows that the trend of the highest share of Grade One in total enrolment is continuing. However, the grade-wise composition of enrolment shows a positive sign, indicating that the difference of shares within the lower basic level's grades is narrowing down (i.e. 23.6% in Grade One and 18.2% in Grade Five in the current school year compared to 24.7% in Grade One and 17.6% in Grade Five in 2015-16 (See Annex: II). The continuous progress in grade-wise higher promotion, and lower repetition and drop-out rates seems to contribute to narrow the gaps in the share of enrolment among all grades of lower basic level.

Overall, the above table 3.8 presents:

- Of the total number of the student at the lower basic level, the shares of students by province are: 15.8 in province 1, 21.6 in province 2, 17.6 in Bagmati province, 7.0 in Gandaki province, 18.1 in Limbini province, 8.5 in Karnali province and 11.4 in Far-west province respectively. These shares are almost compatible with the 5-9 years age group population of the respective province (i.e. 15.8 in province 1, 23.9 in province 2, 17.1 in Bagmati province, 8.0 in Gandaki province, 18.0 in Limbini province, 6.6 in Karnali province and 10.6 in Far-west province), however the province 2 has less share than the share of student.

- The grade wise shares of girls student present that the Bagmati province, Gandaki province and the Lumbini province have the lowest shares of the girls (i.e. less than 49.0%) than in the other provinces in all grades at the lower basic level, whereas the share of girls in the respective age group population in these provinces at this level are more than 49% indicating there is a needs of interventions to bring the girls into the formal education in the future.

The table 3.9 below presents the number of student by grade and province at the upper basic level, that unlike the lower basic level where students are likely to dropout as they progress to higher grades, this trend is not evident from the latest data for upper basic education (Table 3.9). The number of students both in total and community schools is almost the same throughout the three grades (i.e. almost 33% in total number of upper basic students in all types of schools and community schools) which suggests that students are unlikely to drop out once they reach Grade 6 (See Annex: II). At the upper basic level the higher share of student is in grade 8 than in other grades. Form the gender perspective at the upper basic level except the province 1, 2, Karnali province and the Far-west province the share of girls is lower than 50% in other provinces.

Overall, at the basic level, however, despite constant efforts it has been a huge challenge to improve the progression rates so that all children intake in Grade One are retained and progress through the grades efficiently and complete the basic education with expected learning outcomes as stated in the basic level curriculum and also achieve universal basic education (UBE) within the specified/stipulated time period.

Table3.9: Number of upper basic level students enrolled by grade, type of school and gender (2020-21)

Figure 3.2 Grade wise composition of enrolments at basic level

As stated in the tables 3.8 and 3.9 above, the figure 3.2 above presents that of the total enrolment at basic level (Grades 1-8) 15.5% of students are in Grade One and 13.3% in Grade Two. Likewise, 12.0% and 11.5% of students are in Grades Five and Eight respectively. The grade-wise composition at the basic level shows that almost 29% of the total numbers of students are in Grades One and Two. From a gender perspective, except the grade 1,2,3,4 and 6 the composition of grade-wise enrolments is fairly balanced and the data shows that gender parity has been achieved in those grades at the basic level (See Annex: II).

Table 3.10: Number of students at basic level enrolled by level in religious school (2020-21)

The table 3.10 above presents the number of students by types of religious schools and province in the school year 2020-21. Of the total 2,628,208 (Table 3.7) students at lower basic level in all types of the community schools enrolled in the school year 2020-21, in total 90,498 (with 55.3% girls) students in Madarsa, 2,175 (21.3% girls) in Gumba/Bihar and 6,803 (32.1% girls) students in Ashram/Gurukul were enrolled at lower basic level. Similarly, Of the total 1,381,312 (Table 3.7) students at upper basic level in all types of the community schools enrolled in the school year 2020-21, in total 5,659 (with 59.6% girls) students in Madarsa, 497 (22.3% girls) in Gumba/Bihar and 2,708 (26.4% girls) students in Ashram/Gurukul were enrolled at upper basic level.

Among the province, Limbini province followed by the province 2 and 1 have the highest number of students in Madarsa school. The Bagmati province followed by Gandaki province and province 1 have the highest number of students in Gumba/Bihar school. Likewise, the province 1 followed by the Gandaki and Limbini province have the highest students in Ashram/Gurukul schools in the school year 2020-21. Here, from the planning point of view the interventions to supports the religious schools will be vary by province to province.

3.3.2 Dalit, Janajati, and Other enrolments at lower basic, upper basic and basic levels

This section presents the access of children in education from the Dalit, Janajati and disadvantaged communities, where the enrolments at basic level presented with the information by castes, ethnicities and disadvantage communities of students and types of schools in the school year 2020-21.

a) Dalit and Janajati enrolments at lower and upper basic levels

Table3.11: Number of Dalit and Janajati students enrolled in basic education by level, type of school and province (2020-21)

Tables 3.11 and 3.12 above show the enrolment of Dalit and Janajati students at lower and upper basic levels by types of schools and their shares in the total enrolment. The overall, shares of the Dalit is 19.6% (19.5% in the last school year) at lower basic level, 15.6% (same as in the last school year) at upper basic level and 18.2% at basic level, whereas, the share of Janajati students at these levels are 33.4% (33.7% in the last school year) at lower basic level, 37.3% (37.6% in the last school year) at upper basic level and 34.8% (35.0% in the last school year) at basic level. At the lower basic level out of the total enrolment the enrolment share of Dalit student is 23.7% in community school and 7.5% in institutional school, whereas their shares at upper basic level are 18.8% in community schools and 5.5% in institutional schools.

When compared to the last year's status of Dalit student shares in total students, as mentioned in the analysis of the total student enrolment there is a slight increase at lower basic level and remained same at upper basic and basic levels in the current school year. Similarly, table 3.12 below depicts the status of Janajati students in total students by levels. Compared to the share of Janajati enrolment in the previous school year, the share of enrolment in the total students enrolment at lower basic level has decreased by 0.3 percent points in the current school year (i.e. from 33.7% from 2019 to 33.4% in the current school year 2020). Of the total at lower basic level, the share of Janajati students in community schools is 32.9% and 35.0% in institutional schools. Correspondingly, there has been a decrease by 0.3 percent points at upper basic level (from 37.6% to 37.3%), of this the share of Janajati students is at 38.1% in community schools and 34.7% in institutional schools. In total, the share of Janajati students at basic level is 34.8% (Compared to 35.0% in the last school year), 34.7% in community schools and 34.9% in institutional school

respectively (See Annex: III). With the gender perspective, girls making up 49.3% of Janajati enrolments in lower and 50.5% in upper basic level while Dalit girls account for 50.3% of lower basic and 50.8% of upper basic enrollees.

b) Percentage of girls and boys and gender parity indexes in enrolment at lower basic, upper basic and basic levels by social groups.

Table 3.13 Percentages of students by sex and Gender Parity Index (GPI) in total and social groups

The Gender Parity Index (GPI) explains the ratio of female to male values (or male to female in certain cases) of a given indicator. A GPI of 1 indicates parity between sexes; a GPI above or below 1 indicates a disparity in favor of one sex over the other. For gender parity to exist, the GPI value should be within the range of 0.97 and 1.03. The table 3.13 above and the figure 3.3 below explain and measure the progress towards gender equity in enrolment in the basic education by Total, Dalit and Janajati categories and level based on the shares of the Girls and Boys students in total number of students in the school year 2020-21. The shares of enrolment in total, Dalit and Janajati girls are 49.7%, 50.3% and 49.3% at lower basic level, whereas the shares total, Dalit and Janajati girls at upper basic level are 49.9%, 50.8% and 50.5% , and at the basic level the share of girls' students are 49.8%, 50.4% and 49.7% in the school year 2020-21. It clearly demonstrates that in the total enrolment the gender parity has been achieved in lower basic, upper basic and basic education (for instance, 0.99 at lower basic level, 1.00 at upper basic level and 0.99 at basic level). It explains the GPI in enrolment at all levels and social categories has been achieved in all provinces. The GPI for Dalit students is slightly higher at upper basic level than at the lower basic in the school year 2020-21. Similarly, though the GPIs in Bagmati province, Gandaki province and Limbini province show the lowest index a positive trend is noted for Janajati students with the GPI 0.97 at lower basic and 1.02 at upper basic level. Likewise, the GPI for basic level in Janajati enrolment has been observed at 0.99 in the school year 2020-21.

The figure 3.3 below presents the status of the GPI in enrolment by province for total, Dalit and Janajati students at basic levels, where at the all levels of basic education the Bagmati, Gandaki and the Limbini province has the lowest GPI in total enrolment. There are lower GPI in Dalit enrolment at lower basic level in the provinces namely: Bagmati, Gandaki and Limbini province, while at the upper basic level and basic level all the province have GPIs almost at 1.00. Similarly, in the enrolment of Janajati students the provinces: Bagmati, Gandaki, Limbini province and the Far-western province have a lower GPI than in the other provinces. The analysis suggests, the provinces with lower GPIs need to pay an ample attention to make ensure that all girls children will have the equal opportunity on basic education in the future.

Figure 3.3 Level wise Gender Parity Index (GPI) in enrolments

c) Enrolment at lower basic, upper basic and basic levels by disadvantaged Janajati

From the beginning of the implementation of EFA the government has given high priority to ensure universal access, participation and retention of all children from various disadvantaged population groups in the school education at local level. For this, there have been different interventions to benefit the targeted groups of disadvantaged students (such as girls students, students from the disadvantaged communities and children from all sorts of disabilities) based on the EMIS data presented in each district's Annual Strategic Implementation Plan (ASIP) associated with Annual Work Plan and Budget (AWPB).

Regarding the students from the disadvantage communities, the tables 3.14 above presents the status of Janajati students from extremely disadvantage and deprived groups at lower and upper basic levels in the school year 2020-21. Based on the category of 59 Janajati population groups into 5 categories by the Nepal Adibasi Janajati Maha Sangha in 2003 (2060), the CEHRD has continued to capture the enrolment data of extremely disadvantage and deprived ethnic groups classified as extremely-deprived groups. In the school year 2020-21 the EMIS records 49,657 students (50,292 last school year) with 23,932 (48.2%) Girls students in lower basic education from the most disadvantaged Janajati groups (Table 3.14). Similarly, at upper basic level the total number of students of this category is 19331 (18,983 in the last school year) with 9,480 (49.0%) in the school year 2020-21. The information of these categories are extracted from the background of an individual details of the students recorded in the all schools electronic based IEMIS. However, there are some issues in some casts/ethnicities to identify the exact name of this category, where some of the casts/ethnicities use to record in school different from the name of categorised by the Nepal Adibasi Janajati Maha Sangha due to stigma and possible discrimination. For example, Hayus are disadvantaged Janajatis; but some members of this group often identify themselves as Gurung, which would mean if they recorded like this, they wouldn't be included in these statistics. This suggests the need to ascertain the actual caste or ethnic identity of students. Note that no students with the last names of 2 of the 22 groups (Mushbadiya and Thunam) meaning either that none enrolled or that students from these communities use different names to enrol (See Annex: VI).

d) Enrolment by major types of disabilities at lower basic, upper basic and basic levels

Table 3.15 below shows the status of children with major types of disabilities (physical: disabilities on the mobility of physical parts, intellectually impaired: includes children with psychological difficulties, intellectual limitations and autism, hearing impaired: children who are profoundly deaf and children with limited hearing and also use sign language for conversation, blind: visually impaired or children who are not able to see and make differences between size and color of any objects, low vision: with limited vision or children who are not able to see and read the E-chart/ Vision chart from 10 yard, deaf and blind: both visually and hearing impaired children, vocal and speech-related disability and multiple disability respectively) at lower basic, and upper basic levels in the school year 2020-21, which is a major part of the targeted intervention in school education. In total 34,264 (34,464 in the last school year) students at lower basic level, 12,652

(12,419 in the last school year) upper basic level students were reported as having a disability. This suggests that due to the lack of proper care of these students, many students with a disability drop out as they progress through the grades, for this a special intervention need to develop and implement to make them retain in the system at least to the basic level education(See Annex: IV).

Table 3.15 Total number of students by major types of disabilities at lower basic, upper basic and basic levels

| Province | Students by types of disabilities at lower basic level | | | | | | | | | Students by types of disabilities at upper basic level | | | | | | | | |
|--------------|--|--------------|--------------|--------------|--------------|------------|--------------|------------|---------------|--|--------------|--------------|------------|------------|-----------|------------|------------|---------------|

| Gandaki | 1,466 | 591 | 442 | 140 | 259 | 6 | 155 | 54 | 3,113 | 546 | 130 | 180 | 37 | 118 | 0 | 59 | 14 | 1,084 |
| LIMBINI | 6,645 | 1,112 | 549 | 160 | 346 | 21 | 221 | 222 | 9,276 | 3,039 | 217 | 155 | 45 | 172 | 4 | 100 | 102 | 3,834 |
| Karnali | 2,979 | 465 | 285 | 161 | 270 | 41 | 133 | 79 | 4,413 | 1,200 | 70 | 80 | 36 | 75 | 1 | 16 | 27 | 1,505 |
| F_West | 2,889 | 633 | 611 | 175 | 444 | 26 | 254 | 49 | 5,081 | 1,116 | 143 | 151 | 56 | 190 | 8 | 86 | 11 | 1,761 |
| Total | 20,039 | 4,986 | 3,893 | 1,178 | 2,048 | 149 | 1,378 | 593 | 34,264 | 8,576 | 1,010 | 1,076 | 335 | 834 | 26 | 571 | 224 | 12,652 |

Note: Types of disabilities: 1) Physical (affecting mobility), 2) Intellectually impaired 3) Hearing impaired 4) Visually impaired 5) Low Vision 6) Hearing and Visually impaired 7) Vocal and speech related disabilities 8) Multiple disabilities

The overall enrolment (Table 3.14 above) percentages of children by types of major disabilities in total enrolment at lower basic, upper basic and basic levels are 1.0%, 0.7% and 0.9% respectively. Of them (34,264 in total) at lower basic level, 58.0%, 14.5%, 11.3%, 3.4%, 5.9%, 2.5% and 6.4 have a physical (disabilities on the mobility of physical parts), intellectually impaired (includes children with psychological difficulties, intellectual limitations and autism), hearing impaired (children who are profoundly deaf and children with limited hearing and also use sign language for conversation), blind (visually impaired or children who are not able to see and make differences between size and color of any objects), low vision (with limited vision or children who are not able to see and read the E-chart/Vision chart from 10 yard), deaf and blind (both visually and hearing impaired children), and vocal and speech-related disability respectively.

In the same way, out of the total 12,652 students with a disability at upper basic level, 68.9%, 8.1%, 8.7, 2.7% 6.7%, 0.2% and 4.7% children have a physical, mental, deaf, blind, low vision, deaf and blind, and vocal and speech-related disability respectively. Among the province the Limbini province has the highest number of children with disabilities followed by the the province 1, Bagmati province and Far-western province at lower basic level and at the upper basic level Lumbini province show the highest number of disabled children followed by the Bagmati province and province 1 respectively. Whereas the province 2 reported the lowest number of the children with different types of disabilities in the school year 2020-21 (See Annex: IV).

3.3.3) Gross and Net Enrolment Rates, and Gender Parity Index (GER, NER and GPI) at lower basic, upper basic and basic levels

The GER is an indicator related to total enrolment at a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population⁹ corresponding to the

⁹ Regarding the population used in the calculation of enrolment rates (GER/NER), the same methods were applied as stated in earlier footnotes in the analysis of GIR and NIR.

same level of education in a given school year. This indicator is widely used to show the general level of participation in a given level of education. Likewise, the NER is an indicator related to total enrolment of the official age-group for a given level of education expressed as a percentage of the corresponding population. The NER gives a more precise measurement of the extent of participation of children belonging to the official school age in a given level of education. In practice, a high NER denotes a high degree of participation by the official school-age population. The highest theoretical value is 100%. Increasing trends can be considered as reflecting improving participation at the specified level of education. When the NER is compared with the GER, the difference between the two ratios highlights the incidence of under-aged and over-aged enrolment. In the school education, the GER is widely used for the planning to implement educational activities and also to project future requirements for the improvement of school education.

The table 3.16, below shows the level wise status of Gross Enrolment Rate (GER) and Net Enrolment Rate (NER) of students at basic level in the school year 2020-21. Based on the data presented in the table 3.16, the overall GER at lower basic level is 118.2% (Compared to 119.3% in the previous year) with 118.9% for girls and 117.6% for boys. The overall NER at lower basic level is 97.4% with 96.9% and 97.9% for girls and boys (97.1% with 96.4% and 97.8% for girls and boys in the last school year) respectively. When compared with the status of the last year (97.1% with 96.4% and 97.8% for girls and boys), the NERs for both girls and boys as well as the total have slightly increased in the school year 2020-21. The present status of NER suggests that approximately 2.6% of 5-9 years' age group children (almost 77,237 children) are out of formal lower basic schooling, of them the majority are girls (59.1%). The table 3.16 further shows that the total GER at basic level is 113.2% (Compare to 110.4% in the last school year) with GER of 114.1% for girls and GER of 112.4% for boys. At the basic level compared with the status of the previous year the GER in total as well as for both genders has slightly increased in the current school year (almost by 2.8% points in total) (See Annex: V).

The total NER at basic level is 94.9% with 94.3% for girls and 95.5% for boys in the school year 2020-21. When compared to the status of the previous year (93.8% with 93.0% for girls and 94.6% for boys), the scenario of this year shows a slight increment in total and by gender too. Of the total 4,715,954 population of 5-12 years' age group population in the school year 2020-21, there are 94.9% students enrolled at basic level. This suggests that almost 5.1% (Compared to 6.2% in the last school year) children of 5-12 years' age group population (in total 208,536 children with 115,919 girls) are not attending at basic level. The age group compositions of both lower basic and upper basic enrolments shows that there are almost 21% student at lower basic level are overage, which is more in grade 1 with 23.4% of the over age children enrolled as late enrollee (intake) in the school year 2020-21. The higher share of over age children in the early grade of the basic education indicate low performance of the students and slow improve in the internal efficiency of in the basic education, so that, the children enrolled in over age at lower basic level need to be improved by focusing on to provide an appropriate access of children at both levels in the future. Similarly, the Gender Parity Index in Net Enrolment Rate at basic education presents that almost all levels of the basic education have achieved the parity (with 0.99 at all levels of basic education), whereas, there is disparity within the province, especially the province 2 has less participation of the girls (with the GPI 0.97) at upper basic level as compared to the GPIs in other provinces.

Table 3.16: Gross and Net Enrolment Rates at lower and upper basic level by gender and province (2020-21)

| Indicators | Province | L_Basic Level_1-5 | | | | U_Basic Level_6-8 | | | | Basic Level_1-8 | | | |

However, considering the high level of GER (table 16 above) in lower basic education it suggests that some of them are the age group of the upper basic level, which needs further analysis for improvement in the overall/universal enrolment and participation of children of 5-12 years in basic education in correct time.

The district and Local Level analysis show that compared to the set target (i.e. 115.0% GER) of SSDP for 2020-21, there are 49 districts and 531 Local Levels that have achieved the set target of SSDP for 2020-21 at the basic level (as compared to the set target 115.0% GER of SSDP for 2020-21), whereas due to the low achievement at the upper basic level, of the 8 districts in province 2, there are 6 districts that have lower than 100% of GER at basic level. Likewise, compared to the set target (95.0% of NER) of SSDP for 2020-21 altogether 65 districts and 437 Local Levels have achieved the target, however, there are 13 (15 districts in the last school year) districts and 176 (181 local level in the last school year) Local Levels have lower NER (less than 95%) at basic level, for this the Local government need to have extra efforts to meet the target within the stipulated timeline (See Annex: V).

Finally, the analyses of the GER at both lower basic and basic levels (table 3.16 above) show that more over age children are enrolled at lower basic level, whereas by the age definition they should be in the upper basic level's grades. This contributes to higher GER at the lower basic level and lower GER at the upper basic level. In addition, compared to the set targets of GER and NER for 2020-21 in SSDP at basic level (115% GER and 95.0% NER), the achievements at this level are inspiring and already achieved.

a) Age Specific Enrolment Rate (ASER) and Out of School Children (OOSC) in basic level, 2020-21

The indicator ASER is based the enrolment of a specific single age enrolled, irrespective of the grade and level of school education, as a percentage of the population of the same age groups. The purpose of this indicator is to show the extent of the educational participation of a specific

age cohort and present the exact number of the Out of School Children. Generally, the output of this indicator derived by dividing the number of pupils (or students) of a specific age enrolled in educational institutions at all levels of education by the population of the same age group and multiply the result by 100.

If a output of the ASER high it denotes a high degree of educational participation of the population of the particular age. The theoretical maximum value is 100%. Increasing trends can be considered as reflecting improving participation of the particular age. If the ASER is below 100%, then the complement, i.e. the difference with 100% provides a measure of the proportion of the population of the particular age who are not enrolled.

The following table shows the Age Specific Enrolment Rate (ASER) against the number of same age group and the number of Out of School Children (OOSC) for the basic level education in the school year 2020-21. Based on the IEMIS that captured the individual student's age enrolled by grade and the projected population (based on the Household Population Census Report 2011 by CBS) for 2020-21 of the same age group (by applying the formula of the Sprague Multipliers) shows that irrespective the grade and level at basic education (including ECED/PPE), 96.3% (95.0% in the last school year) of all age groups of the children have enrolled in the basic education. Compared to the other age group children the highest ASER (98.5%) is for age 5 and the lowest ASER (92.1%) for age 11.

The enrolment pattern of the population in basic education shows that of the total enrolments, there are 30.1% (249,808 children) in grade 1 and 18.1% (637,158 children) at the overall lower basic level are enrolled as the over age (more than 9 years of age) students in the school year 2020-21. By analyzing this pattern of the age specific enrolment irrespective the grade and level of the school education, of the total 4,715,954 children of the age group 5-12 population in total 176,574 (3.7% total and 4.1% of Girls) children with age group 5-12 are still not in school education system. Here, it is important to note that, due to the difference in the calculation of the level wise enrolment of the age groups population (i.e. calculation of the level wise NER) and the age specific enrolment irrespective of the specific grades and level of school education (ASER) the number and percentage of the Out of School Children is slightly different (by 1.6 percent points).

It is worth mentioning here, regarding the out-of-school children the Nepal Living Standards Survey (NLSS III), 2010/11 published by the Central Bureau of Statistics Nepal (Tables 5.8 and 5.18) revealed the reasons for not attending school for population aged 6-24 years (those who never attended any school) and the Reason for Dropouts (those who ever attended any school at least once). The report presented that of the total population of the age group 6-24 years 8.7 percent of the population never attended school. Among these never attendees, 30.0 percent reported parents did not want to send school, followed by other reasons had to work at home 25.5 percent, not willing to attend 17.2 percent and the other reasons included too young 7.2 percent, too expensive 7.3 percent, disability 3.4 percent and school far way 3.1percent respectively. Similarly, regarding the reasons for dropouts from the schools and campus, the report cited that the 6-24 years population left the schools because of: poor academic progress (24.6%), help needed at home (22%), because of married (17 percent), parent did not want (7 percent), too expensive education (7 percent) etc.

Table 3.17: Age Specific Enrolment Rate (ASER) and Out of School Children (OOSC) in basic level (2020-21)

| Age | Gender | Enrollment | Population | ASER | OOSC (age 5-12) | Age | Gender | Enrollment | Population | ASER | OOSC (age 5-12) |

b) Implementation of the Consolidated Equity Strategy

The government of Nepal, MoEST has developed "The Consolidated Equity Strategy for the School Education Sector in Nepal (Equity Strategy), that was launched in December 2014. The objectives of this strategy are to reduce the current disparities in (i) access & participation and (ii) learning outcomes for children in basic and secondary public education in Nepal. The strategy envisions to achieve this by (i) developing an Equity Index in education, at national and district level, using both school sector data and population data, and (ii), through a consolidation and further targeting of available resources and current strategies based on identified dominant drivers of disparities in access and participation that are deployed by the Government and Development Partners (including I/NGOs and CSOs) to strengthen an equity/need based approach. The purpose of the Equity Index is to account for children's opportunity for school education as well as the equality of opportunity across children facing different circumstances/contexts". In line with this strategy

paper, the FCEHRF has prepared the "Equity Index" for school education and ranked to the all 75 districts. The Equity Index was developed based on the model of the Human Opportunity Index (HOI). The HOI is thus an economic indicator that combines coverage rates and equality in a single measure.

Nepal has made remarkable progress in enhancing access to lower basic and basic education in recent decades. It has also made some good progress ensuring equitable access to education-gender parity has been achieved at all levels of school education, and most historically deprived caste/ethnic groups are now proportionally represented at the lower basic and basic levels. While the Net Enrollment Rate (NER) at the basic level increased significantly during the School Sector Reform Program (SSRP, 2009-16) period, there continues to be a significant number of out of school children mostly in the disadvantage areas of the population, geographically remoteness and in other characteristic of the population throughout the country. Moreover, the survival rate at Grade 8 increased significantly. Furthermore, disparities remain in learning outcomes across geographical locations, based upon socio economic status, gender, ethnicity and ability, and between public and private schools as shown by the Government’s National Assessments of Student Achievement (NASA). Children from the poor households, children with disabilities, and children from deprived communities are assumed to comprise the bulk of out of school children. Acknowledging the need to take a holistic approach to address the problem of equity in school education, the government has developed a Consolidated Equity Strategy that seeks to ensure equity in access, meaningful participation in the schooling process, and learning outcomes, which is the one of the most important requirement of the SSDP implementation.

For the implementation of the Equity Index it is envisioned to be embedded within the EMIS to support the Government in targeting equity-based allocations within the Annual Strategic Implementation Plan/ Annual Work Plan and Budget (ASIP/AWPB) from Financial Year (FY) 2015/16 onwards. The equity index and the Equity Strategy Implementation Plan (ESIP) are considered core planning and monitoring tools for the full-fledged implementation of the Consolidated Equity Strategy, with the prior used to target the most disadvantaged districts for specific interventions and the latter to undertake the unpacking, analysis and planning to strengthen need based interventions and programs to achieve reduction of disparity in access, participation and learning outcomes through targeted interventions. The Equity Index uses the Human Opportunity Index (HOI) model (see Box 1), which is widely used by the World Bank and governments to measure how individual circumstances (i.e., characteristics that should not determine access to basic goods and services) affect a child’s access to basic opportunities such as water, education, electricity and sanitation. It is a measure of how far a society is from universal access to an essential good or service, and how equitably access is distributed. The HOI is an economic indicator that combines coverage rates and equality in a single measure. It’s use in Nepal has a high level of credibility as it allows for triangulating school-based census data on participation and learning with the Central Bureau of Statistics household-based census data on access to schooling.

The Equity Index is a composite index of access to education, internal efficiency and

Box 1: How to calculate the Human Opportunity Index

The Human Opportunity Index is defined as $HOI=C(1-D)$ where:

- C := average survival rate in a district ¶
- $D = \frac{1}{2C} \sum_{i=1}^h w_i |C_i - C|$, $w_i = \frac{n_i}{n}$, $h=2$ ¶
- C_i := average outcome (enrolment ratio, survival rate or SLC pass rate) in a group ¶
- h := number of demographic groups (for SLC there are only two groups: male and female) ¶
- k := number of dimensions of inequity (e.g. gender, disability, location) ¶
- n := total number of students enrolled ¶
- n_i := total number of students in a group i ¶

learning. The main sources of information are as follows:

- Access to education is measured using census data, which is updated only every 10 years, but gives more opportunities to explore different types of disparities between population groups.
- Internal efficiency and learning are measured using Education Management Information System(EMIS) data.

The Equity Index uses the following three indicators:

- the enrolment ratio in for 5–12-year-olds in the appropriate grade is the access indicator,
- the survival rate from Grade 1 to 8 as the participation indicator; and
- Grade 8 exam passes as the learning outcomes indicator.¹⁰

The index is calculated based on school and population-based census data and been updated annually to reflect progress. In addition, the full Equity Index has been computed and used to direct the updating of LG-ESIPs from year three (2018/19) onward.

Table 3.18 Outcomes, circumstances and sources of data for the Equity Index

| Areas | Access | Participation | Learning |
|-------------------------------|--|---|------------------------------|
| Outcomes (Coverage) | Enrolment ratio (ages 6–16 years) | Survival rate (Grade 1- 8) | Grade 8 exam pass percentage |
| Circumstances (Dimensions) | Gender, location, Ethnicity: Dalit/non-Dalit, disability, Wealth, parent’s education | Gender, location, Dalit/non-Dalit, disability | Gender |
| Source of data: | Household census/EMIS | EMIS | EMIS |

c) Baseline Study of Out-Of-School Children in Targeted Districts

Based on the composite score of the Equity Index of the 75 districts in the year of 2014, 15 targeted districts with the highest level of disparity as per the scores of Indexes in access and participation ranking for academic years 2016/17, 2017/18 and 2018/19 (Table 3.19).Further, to implement the Equity Strategy at the local level the overall national level baseline was set (i.e. 500,000 Out of school children) based on the output of the Flash Report I 2015.The phase wise baseline and targets (5 districts per year) of the 15 targeted districts were set by having the household survey on Out of School Children (captured the both types of OOSC children:- Never school and Ever school) and the Equity Indexes for 186Local levels of those 15 districts was developed for further targeting the Local Levels with the highest disparities in access and participation. Of the 186 Local levels, based on their composite scores of Equity Index in total 80 Local levels were selected for the intensive implementation of the Equity Strategy. At the targeted 80 Local Levels, a systemic approach has been adopted that it is mandatory to develop and approve a 5 years Local level Equity Strategy Implementation Plan (ESIP) by the respective Local government based on the extensive analysis of their situations on access and participation (that includes specific targeted interventions to be implemented). Based on the achievements made by the Local governments, the results were used to assess the achievement of the DLIs in each fiscal year.

The house-hold survey in the 15 targeted districts:

- 107,594 children were out-of-school in 2016/17 in the first phase of five districts that amounting to 9.6% of the 1,116,824 aged 3–18 year-olds in these districts;
- 28,725 children were out-of-school in 2017/18in the second phase of five districts that amounting to 6.6% of the 435,260 aged 3–18 year-olds in these districts;

¹⁰ Currently, the equity index is being computed based on the access and participation data as the learning outcome (grade 8) data is not yet available for all 753 local governments.

- 52,311 children were out-of-school in 2018/19 in the third phase of five districts that amounting to 6.5% of the 801,456 aged 3–18 year-olds in these districts (Table 3.19_A);
- With an almost equal proportion of boys and girls among the out-of-school children.
- Based on the house-hold survey and Flash Report I 2018-19, in total 66,063 Out of School Children with age group 5-12 were recorded in 2018-19 (Table 3.19_B).

Table 3.19_A_Baseline of the out of schoolchildren by gender in 2016/17, 2017/18 & 2018/19

| Districts | Age 3-18 yrs population (2011 census projections) | | | No. of 3-18 years OOSC(2016/17,2017/18 &2018/19 HH surveys) | | | % OOSC in against 3-18 yrs population | | | % girls and boys in total OOSC | |
|------------------------------|--|------------------|------------------|---|---------------|----------------|--|------------|------------|--------------------------------------|-------------|

3.3.4) Internal efficiency at lower basic level

The term “efficiency” refers to the relationship between outputs and inputs. A process is described as technically efficient if it produces maximum outputs from a given combination of inputs. Internal efficiency deals with the use of resources and refers to the internal dynamics of the education system in transforming inputs and processes into outputs. Moreover, it can be defined as the system’s ability to educate the maximum number of children who have entered the system in a specific year in the optimum time with the minimum possible use of human and financial resources. Operationally, internal efficiency can be described as the number of students graduating from an educational institution (at a particular grade and level of education) expressed as a percentage of the number of students who entered the institution in the beginning of the particular programme.

In line with the SDGs, equitable access is a key result area in Nepal’s school education sector and as such, the Nepal government continues to prioritise access, participation and retention of disadvantaged children to reduce disparities in learning outcomes. To accelerate the reduction in disparities, the government introduced the Consolidated Equity Strategy for the School Education Sector in Nepal (the Equity Strategy) in 2014, which includes the development of a consolidated index that shows disparities in access, participation and learning outcomes in basic education (the Equity Index). Local governments with the lowest Equity Index scores have been selected to receive additional resources to undertake targeted interventions to reduce disparities, based on identified prevalence and severity of these disparities and their dominant drivers (gender, caste/ethnicity, location, ability, and socio-economic status) such as girls students, students from the disadvantaged communities and children from all sorts of disabilities).

Table 3.20 below shows the grade wise flow rate of students from school year 2019-20 to 2020-21 for lower basic grades. These flow rates show the evaluation of internal efficiencies of the students as well as the overall effectiveness of the inputs provided. The table illustrates, out of the total students enrolled in the school year 2019-20 in Grade One, 85.2% (83.6% in the previous school year) promoted to Grade Two, 11.3% (12.3% in the previous school year) repeated the same Grade in the current school year, and 3.6% (4.2% in the previous school year) dropped out from the school education system (See Annexes VI).

In other words, altogether 14.8% of the total enrolled students in Grade One of the last school year could not continue in Grade Two in this school year. Though the promotion rate has slightly increased as compared to the previous school year, it demonstrates a high wastage (14.8% in grade one only) of the inputs provided. However, the promotion rates in upper grades (Grades 2 to 5) are better than in Grade One. The table also suggests that the promotion rates for girls, as compared to that of boys, are slightly better in all grades (See Annexes VI). This trend has continued since the school year 2007.

Table 3.20 Internal efficiency at lower basic level

| Students | PRD | Grade 1 | Grade 2 | Grade 3 | Grade 4 | Grade 5 | Total of Grades 1-5 |
|----------|------------------------------------|---------|---------|---------|---------|---------|---------------------|
| Total | Promotion rate | 85.2 | 90.6 | 92.0 | 92.5 | 93.2 | 93.2 |
| | Repetition rate | 11.3 | 5.7 | 5.0 | 4.4 | 3.9 | 3.3 |
| | Dropout rate | 3.6 | 3.8 | 3.0 | 3.1 | 3.0 | 3.5 |
| | Survival Rate to grades | - | - | - | - | 93.4 | - |
| | Coefficient of internal efficiency | - | - | - | - | - | 87.1 |
| | Cohort Graduation Rates | | | | | | 87.5 |
| Boys | Promotion rate | 85.1 | 89.7 | 91.6 | 92.1 | 92.7 | 92.8 |
| | Repetition rate | 11.3 | 6.0 | 5.2 | 4.7 | 4.0 | 3.4 |
| | Dropout rate | 3.6 | 4.3 | 3.2 | 3.2 | 3.3 | 3.8 |
| | Survival Rate to grades | - | - | - | - | 93.0 | - |
| | Coefficient of internal efficiency | - | - | - | - | - | 86.6 |
| | Cohort Graduation Rates | | | | | | 87.1 |

| Students | PRD | Grade 1 | Grade 2 | Grade 3 | Grade 4 | Grade 5 | Total of Grades 1-5 |
|----------|------------------------------------|---------|---------|---------|---------|---------|---------------------|
| Girls | Promotion rate | 85.3 | 91.5 | 92.5 | 92.9 | 93.6 | 93.6 |
| | Repetition rate | 11.2 | 5.3 | 4.7 | 4.1 | 3.8 | 3.2 |
| | Dropout rate | 3.6 | 3.2 | 2.8 | 3.0 | 2.7 | 3.2 |
| | Survival Rate to grades | - | - | - | - | 93.8 | - |
| | Coefficient of internal efficiency | - | - | - | - | - | 87.7 |
| | Cohort Graduation Rates | | | | | | 87.9 |

The average survival rate (Table 3.20) to Grade 5 is 93.4% (93.0 in the last school year) with 93.8% for girls and 93.0% for boys. This shows a slight increase compared to the previous school year (93.0), while the coefficient of internal efficiency is 87.1% (Compared to 86.7% in the previous school year); of this 87.7 for girls and 86.6 for boys. Similarly, the cohort graduation rate at lower basic level is 87.5% (compared to 85.8% in the previous school year), with 87.9% for girls and 87.1% for boys, which suggests that out of 100 new students enrolled in Grade One in the school year 2016-17, altogether 87.5% of the students successfully completed the lower basic level in the school year 2019-20. All the indicators of the Internal Efficiency at lower basic level suggest that, the governments of all levels need to have efficient mechanism and additional interventions to make all children retain once he/she enrolled in the early grade of the basic education.

3.3.5) Internal efficiency at upper basic level

The table 3.21 below presents the grade wise flow rates at upper basic level from the school year 2019-20 to 2020-21. The pattern of the grade wise student flow rates at upper basic level is similar as in the lower basic level. Out of the total number of students enrolled in the school year 2019-20 in Grade Six, 93.8% (Compared to 93.5% in the last school year) promoted to Grade Seven, 3.2% repeated the same grade in the current school year, and 3.0% dropped out from the school education system completely. Likewise, the promotion rates in Grade Seven and Grade Eight are 93.7% and 92.1% (93.1% and 90.1% in the last school year) respectively. When the data given in the table are analyzed from the gender perspective, slight differences are noted in grade 8 for both gender (See Annexes VI).

Table 3.21 Internal efficiency at upper basic level

| Students | PRD | Grade 6 | Grade 7 | Grade 8 | Basic level |
|----------|------------------------------------|---------|---------|---------|-------------|
| Total | Promotion rate | 93.8 | 93.7 | 92.1 | 93.2 |
| | Repetition rate | 3.2 | 3.1 | 3.6 | 3.3 |
| | Dropout rate | 3.0 | 3.2 | 4.3 | 3.5 |
| | Survival rate to grade 8 | | | | 82.2 |
| | Coefficient of internal efficiency | | | | 74.6 |
| | Cohort Graduation Rates | | | | 75.3 |
| Boys | Promotion rate | 93.1 | 93.3 | 91.9 | 92.8 |
| | Repetition rate | 3.5 | 3.2 | 3.5 | 3.4 |
| | Dropout rate | 3.4 | 3.5 | 4.5 | 3.8 |
| | Survival rate to grade 8 | | | | 81.5 |
| | Coefficient of internal efficiency | | | | 73.9 |
| | Cohort Graduation Rates | | | | 74.5 |
| Girls | Promotion rate | 94.6 | 94.1 | 92.3 | 93.6 |
| | Repetition rate | 2.8 | 3.0 | 3.7 | 3.2 |
| | Dropout rate | 2.6 | 2.9 | 4.0 | 3.2 |
| | Survival rate to grade 8 | | | | 82.9 |
| | Coefficient of internal efficiency | | | | 75.3 |
| | Cohort Graduation Rates | | | | 76.1 |

The average survival rate (Table 3.21) to Grade 8 is 82.2% (Compared to 79.3% in the last school year) with 82.9% for girls and 81.5% for boys. The coefficient of internal efficiency is 74.6%, of this 75.3% for girls and 73.9% for boys. Similarly, the cohort graduation rate of basic level (grades 1-8) is 75.3% (Compared to 72.7% in the last school year) with 76.1% for girls and 74.5% for boys, which suggests that out of 100 new students enrolled in Grade One in the school year 2013-14, almost 75.0% students successfully completed the basic level in the school year 2019-20. Moreover, the analysis of Internal Efficiencies at districts and Local Level show that in total there 37 districts and 419 Local Levels have higher promotion rates of grade 1-5 than the national average, whereas, there are 3 districts (Gorkha, Humla and Dolpa) and 51 Local Levels with lower promotion rates in total of grade 1-5. Similarly, at lower basic level (in total of grade 1-5) there are 33 districts and 351 Local levels with high repetition rates (more than national average) and also 27 districts and 330 Local levels with the high dropout rate than the national average at lower basic level. This suggests the underperformed local level need to have more efforts to make all children retain them up to the basic education for ensuring the quality education as per the set learning outcomes of basic level curriculum.

3.3.6) Quality of Basic Education based on the National Assessment of Student Achievement (NASA) in Different Grades and Rounds

So far as concerned to the quality of Basic education, this report presents the results of the National Assessment of Student Achievement (NASA) for grade 8, 5 and 3 against the learning out-comes that are set in the curriculum.. Regarding the NASA initiation, Government of Nepal (GON) established Education Review Office (ERO) in 2010 as an integral part of reform in education quality under the School Sector Reform Program (SSRP) 2009-2015. The main aim of establishing ERO is to inform regularly to the educational stakeholders including the government, teachers, parents, schools, students and civil society about the effectiveness, efficiency, equity in education and the quality of education. In the first year (2011), ERO conducted National Assessment of Student Achievement (NASA) in 28 sample districts for grade eight students in three subjects: Mathematics, Nepali language and Social Studies. Then after, including the ongoing Assessment of Student Achievement for grade 10 there have been 10 rounds of assessments completed in the large number of sample size by making the representation of sex, cast/ethnicities, socio-economic characteristics and geographical strata, where 3 rounds for grade 8 (in 2011, 2013 and 2017), 3 rounds for grade 5 (in 2012, 2015 and 2018), 3 rounds for grade 3 (in 2012, 2015 and 2018) and 1 round for grade 10(2020-21) which is currently ongoing. Regarding the calculation/computing the achievement scores of the students, schools and other disaggregation there is a departure from the NASA report of 2017, where till the NASA report of 2015 the achievement results are reported in the main as percentages of maximum marks where 100(%) represents the students able to solve/performed the all questionnaires correctly and 0(%) represents the students did not solve/performed none of questionnaire at all. Whereas, in order to have internationally comparable in students achievement results, since 2017 (i.e. 2017 in Grade 8 and 2018 in Grade 5), the reporting of student achievement at province level and national level is done in a transformed scale with mean 500 and standard deviation 50 by using the formula: Average scale score = 500 + plausible value * 50 or Average scale score = 500 + logit * 50.

The overall objective of these assessments were to find out whether the students of aforesaid grades have achieved the goals set by the national curricula in selected subjects of the studies. In order to achieve the overall objectives of the assessments, the studies not only assessed the overall achievement levels in the selected subjects, but also analyzed the variations in students achievements among different strata of population with considerations for and associations of various school related diversity factors on achievement. Furthermore, the studies examined the

extent to which the home background and other pupil related factors have influenced the learning achievement of the students in respective grade.

The main objectives of NASA are as following:

- To determine the current national level of achievement standards of students in specific subject (i.e. in 2011, Mathematics, Nepali, and Social Study in grade 8);
- To find out variations in student achievements between and among different diversity units and groups;
- To examine different factors that are related to learning achievements;
- To compare the improvement of student learning achievements between the base line study and the subsequent studies;
- To portray school resources;
- To compare the student learning achievements with some of the international studies like PISA and TIMSS;
- To create reliable baseline data for the future study;
- To explore the situation of inputs (teachers’ qualifications and training, classrooms’ and schools’ situation);
- To generate recommendations for policy making to improve educational quality as well as for other stakeholders of education community to improve their respective working areas including schools.

Overall, With the aforesaid objectives the NASA for students 'achievement was started in 2011, based on the reports, there are huge differences between the achievement levels of the students. The differences in achievement level are more pronounced in community schools than in institutional schools. The reports clearly indicate that such a big difference in students’ achievement level is due to the weak capacity of the current education system. It also indicates that schools’ and students’ individual efforts are responsible for their achievement rather than the system. The differences were found in terms of districts, provinces, eco-belts, respective subject matters prescribed in curriculum and textbooks, school environment, house-hold activities, languages, socio-economic status of households, teachers’ characteristics, timely availability of textbooks and other materials, caste and ethnicities, and other factors.

Table 3.22 Subject wise learning achievements of students in Grade 8, NASA 2011, 2013 and 2017

| Subjects | 2011 | | | | 2013 | | | 2017 (mean achievement is reported in transformed scale of student ability) | | |
|--------------|-----------------|-------------------|------------|-----------------|-------------------|------------|----------|---|------------|----|
| | Number Students | Mean_ Achievement | SD in Mean | Number Students | Mean_ Achievement | SD in Mean | Students | Mean_ Achievement | SD in Mean | |
| Mathematics | Boys | 7,963 | 45 | 21.4 | 6837 | 38 | 24.2 | 7406 | 505 | 50 |
| | Girls | 8,043 | 41 | 21 | 7547 | 33 | 24.0 | 7983 | 495 | 50 |
| | Total | 16,006 | 43 | 21.3 | 14,384 | 35 | 24.2 | 15389 | 500? | 50 |
| Nepali | Boys | 7,898 | 48 | 19 | | 48 | | 7082 | 500 | 50 |
| | Girls | 8,421 | 49 | 19 | | 48 | | 8061 | 501 | 50 |

Source: NASA 2012, 2015 and 2018, Note: symbol ? indicates increased achievement and ? indicates decreased achievement in comparison to previous cycle.

The table 3.22 above presents the comparative results of the student achievements based on the report of NASA for grade 8 in selected subjects: Mathematics, Nepali, Social studies and Science published in 2011, 2013 and 2017. As compared to the 2011 the achievement level of the students has been decreased in 2013 in both Mathematics and Science subjects. Mathematics achievement in NASA 2013 is found 8 percent lower than the previous assessment (2011) and also it has decreased in 2017, whereas the achievement for the Nepali subject it has slightly decreased from 2011 to 2013 but slightly increased in 2017.

Another finding with regard to achievements by rural and urban based schools shows the achievement level of schools from urban areas is 52% and that of rural areas 45%, which indicates the performance of rural schools is poorer in all subjects. Similarly, same types of variation have been observed between the types of schools' (institutional and community schools) achievement level in all rounds of study and subjects as well. The reports highlighted that, one of the contexts in the better performance of institutional school is due to the better socio-economic status of the students' family.

The average means shows the boys are less performer in Nepali subject than girls in all years' of study, whereas in Mathematics boys are better performer but in Science and Social study there are mixed results. Differences are not substantial, but they are significant and there should be an initiation to reduce the gap. Similarly, the second round of the NASA 2013 study report reveals that compared with the assessment of the students' achievement in the same subjects in 2011, the achievement has not improved over these years. For instance, in 2011 it was 49% for Nepali, whereas it is only 48% in 2013 - going further down by around 1% in 2013. In Mathematics, it is more worsening as the achievement score has gone down further by almost 8% from 2011 to 2013. Though there are adequate contexts were analyzed, the report could not tell the reasons behind such downfall in the learning achievement and stated that it demands further enquiry to get the root of the fact. Mathematics achievement in NASA 2013 and 2017 are found lower than the previous assessment 2011 (i.e from 43% in 2011 to 35% in 2013), which indicates compared to the 2011 assessment; the mathematics result is comparatively lower in all the content areas assessed in the study.

Furthermore, the report depicts that except in Nepali subject there are gender differences in the achievement of various ethnic/caste groups in the subsequent NASA 2013 and 2017 in Mathematics. Overall, the second and third rounds of the NASA reports for grade 8 presented some very important findings that need to be taking into account in the further policy, planning, programme and implementation of school education. The reports present some important variances in the student achievement are the rural/urban and the status of timely availability of the textbooks. It reveals that there is a strong association regarding the timeliness in textbook availability and student achievement.

Likewise, the NASA unit in ERO has completed three rounds of studies on NASA in 2012, 2015 and 2018 for grade 5 (Table 3.23 below). The methodologies and procedures of the study for all rounds were applied same as in the NASA study for grade 8. The key findings of the study reports of the NASA for grades 5 in all rounds are almost similar in nature. In general, the findings are based on differences between the districts, provinces, types of schools (institutional-and community), ecological belts and rural/urban backgrounds, where the differences in the students achievements are found remarkable as in the previous study report for grade 8.

Similarly, there is an educational inequality between the languages groups; students with very low socioeconomic status obtain remarkably lower-than-average learning achievement and also the status of timely availability of textbooks and other materials demonstrated the significant differences in the all reports' findings. Among the wide ranges of the findings of various dimensions, following tables 3.23 and presents the status of average achievement scores in Mathematics,

Nepali and English subjects for grade 5 students. In grade 5 compared to the student achievement in 2012 there are significant decrease in Mathematics and English subjects in 2015 and 2018. The difference between boys and girls is not remarkable changed in Mathematics, where the proficiency in Nepali and English subjects the gaps have been widen than in the 2012 between boys and girls. The findings show that the student Learning achievements low in Mathematics, English and Nepali for both girls and boys, also the learning achievement has decreased from 2012 to 2018 in all subjects for both sexes. However, there is a significant achievement gap between boys and girls in all subjects for grade 5 students, with boys performing significantly better than girls in Mathematics and English, and girls performing significantly better than boys in the Nepali subject in all rounds of the study (Table: 3.23).

Table 3.23 subject wise learning achievements of Students in Grade 5, NASA, 2012, 2015 and 2018

| Subjects | 2012 | | | 2015 | | | 2018 (mean achievement is reported in transformed scale of student ability) | | | |
|----------|-----------------|-------------------|------------|----------|-------------------|------------|---|-------------------|------------|----|
| | Number Students | Mean_ Achievement | SD in Mean | Students | Mean_ Achievement | SD in Mean | Students | Mean_ Achievement | SD in Mean | |
| Math | Boys | 6570 | 54.4 | 22.5 | 6501 | 49.5 | 20.9 | 6855 | 501 | 50 |
| | Girls | 6302 | 52.7 | 23.1 | 6612 | 47.9 | 21.11 | 6978 | 499 | 50 |
| | Total | 12872 | 53.3 | 22.9 | 13113 | 48.7 | 21.02 | 13833 | 500 ? | 50 |
| Nepali | Boys | 6449 | 59 | 23 | | 45.6 | | 6635 | 499 | 50 |
| | Girls | 6977 | 60.7 | 23.1 | | 48.1 | | 7363 | 501 | 50 |
| | Total | 13426 | 59.7 | 23.1 | 16789 | 46.3 | 20.84 | 13998 | 500? | 50 |
| English | Boys | 6604 | 54.8 | 24.2 | | 47.5 | | | | |
| | Girls | 6519 | 53 | 24.4 | | 47.1 | | | | |
| | Total | 13123 | 53.6 | 24.2 | 13146 | 46.8 | 24.46 | | | |

Source: NASA 2012, 2015 and 2018, Note: symbol ? indicates increased achievement and? indicates decreased achievement in comparison to previous cycle.

Similarly, the table 3.24 below depicts the status of average achievement scores in Mathematics and Nepali subjects for grade 3 by gender. Overall, in both subjects the achievement scores have been significantly decreased in 2015 than in 2013 assessment of 2012. Regarding the differences between gender, the differences between boys and girls in Mathematics proficiency are not seen in both assessments, whereas in Nepali subject there are gaps between boys and girls in the both assessments, where the gaps have been widen in 2015 than in the assessment 2013, that is in favor of girls. In Mountain zone, in the institutional schools, the boys seem to perform better than the girls with 13 percent points. Also, in the “Other” caste, the girls seem to outperform the boys by 7 percent points. In the both assessments the tendency seems to be that the girls' proficiency is slightly better than the boys in the Nepal subject..

Table 3.24 Subject wise learning achievements of Students in Grade 3, NASA, 2012 and 2015

| Subjects | 2012 | | | 2015 | | | |
|-------------|-----------------|-------------------|------------|----------|-------------------|------------|-------|
| | Number Students | Mean_ Achievement | SD in Mean | Students | Mean_ Achievement | SD in Mean | |
| Mathematics | Boys | 8304 | 59.5 | 25.4 | 8280 | 45.3 | 22.25 |
| | Girls | 8670 | 59.5 | 25.1 | 8047 | 45.3 | 22.62 |
| | Total | 16974 | 59.4 | 25.6 | 16327 | 45.3 | 22.44 |
| Nepali | Boys | 8586 | 62.7 | 24 | | 51.3 | |
| | Girls | 8861 | 64.2 | 23.5 | | 53.7 | |
| | Total | 17447 | 62.6 | 24 | 16789 | 51.5 | 26.61 |

Source: NASA Reports 2012 and 2015

As a whole, the all studies suggest that the socioeconomic status plays a strong role in the educational processes. In this regard, the studies revealed that the educational level of the parents, parent's occupations, involvement of children in house hold chores (more than 4 hours) and also the delay on availability of textbooks have negative effects on student achievement. Moreover, from the equity perspectives the students' assessment reports portrait that except in Nepali subject boys are out-performing girls in all content areas of Mathematics, Science and English subjects. The results are far better in urban areas than in the rural area, and the difference is remarkable. Of the provinces and geographical eco-belts, the difference between the lowest performing and the highest performing province and eco-belt (urban and Kathmandu Valley) is remarkable. The students in the institutional schools have performed better in comparison to community schools. There are wide differences in achievement among the language background and ethnic groups, for example, students from Newari speaking performed better in Mathematics. On the other hand, students with the mother tongues from Rai, Sherpa, Tharu, Limbu and Magar speaking scored lower in Mathematics.

The analysis of the NASA reports shows that, having these achievements within the MOEST system, there are many opportunities to improve in the policy planning and implementation of the quality education in Nepal by taking into account of NASA recommendations. Where, more efforts and resources should be put to the lowest-performing students in the very early grades of schooling. The efforts in the lowest level students at the early grades would most probably raise later their standards in the higher grades too. For this the MOEST should prepare a strategic plan how this would happen and it needs to put a strong positive emphasis, specially focusing to the remarkable supports to the districts of absolutely low achievement level such as Achham, Bardiya, Jumla, Khotang, Mahottari, Rolpa, Saptari, and Udayapur and also to the schools in provinces and eco-belts settings.

Furthermore, the Global Monitoring Report, 2013-14 overviewed the current situation and suggests that it needs to "Monitoring global education targets after 2015" for the "goal on children learning" which is an indispensable part of a future Global Education Monitoring Report (GEMR) framework. Further it presented that focusing only on learning assessments can be misleading if large numbers of children never make it to the grade where skills are tested. With an example of the United Republic of Tanzania, the GMR report reveals that the proportion of children in grade 6 who achieved a minimum standard in reading in 2007 ranged from 80% of the poorest rural girls to 97% of the richest urban boys. However, while 92% of the richest urban boys of grade 6 ages had reached that grade, only 40% of the poorest rural girls had done so. In this regard, the report suggested that "To make sure inequality is overcome by 2030, country plans need to include specific targets so that education participation and learning can be monitored for individual population of different groups and dimensions (Only 8 of 53 countries plan to monitor inequality in learning)" (GMR 2013-14, page 7-8).

3.4 Teachers information at lower basic, upper basic and basic levels

This section presents information on teachers at lower basic, upper basic and basic levels by school type, level, sex and the specific indicators related to the teachers. Teachers are defined as persons whose professional activity involves transmitting knowledge, skills and attitudes, which are required as per the approved curriculum for students enrolled in a formal educational institution.

3.4.1) Total reported number of teachers by sex at lower basic, upper basic and basic levels in all types of schools

The tables 3.25 and 3.26 below present the total number of teachers reported in the Flash I school census 2020-21 at lower basic, upper basic and basic levels in the beginning of the school year 2020-21 in all types of schools (both in all types of community and institutional schools), Community schools and Institutional schools. As a whole, there are 201,296 teachers at lower basic level; 55,881 teachers at upper basic level and 257,177 teachers are at basic level. Of them, the numbers of female teachers are 95,450; 18,104 and 113,554 respectively at lower basic, upper basic and basic levels, which shows both the number of female and male teachers has increased compared to the previous school year. The shares of female teachers are 47.4%, 32.4% and 44.2% (compared to 47.2%, 30.8% and 43.7% in the last school year) at lower basic, upper basic and basic levels respectively. The GIP at lower basic level is 0.90, at upper basic level it is 0.48 and 0.79 at the overall basic level respectively (See Annex: X).

Likewise, out of total number of teachers (table 3.25 and 3.26), the table 3.25 below shows the reported number of teachers in all types of community schools in the beginning of the school year at lower basic, upper basic and basic level. The number of teachers given in the table includes all types of teachers (i.e. teachers working in approved positions, Rahat teachers and teachers hired by the community from their own sources). A total of 188,811 teachers with 76,176 female and 112,635 male teachers were reported for the basic level, of this 150,193 with 66,547 female at lower basic level and 38,818 with 9,629 female at upper basic level (See Annex: X). Out of the total numbers of teachers in community schools, the shares of female teachers are 44.3%, 24.9% and 40.3% (Compared to 44.2%, 23.4% and 40.0% in the last school year) at lower basic, upper basic and basic levels respectively. Here the positive aspect is that the shares of female teachers at all levels of basic education have improved as compared to the shares of female teachers in the last school year 2019-20.

Likewise, a total of reported number of teachers in all types of institutional schools at lower basic, upper basic and basic levels are 51,103; 17,263 and 68,366 respectively. The shares of female teachers in total number of institutional schools teachers at lower basic, upper basic and basic levels are 56.6%, 49.1% and 54.7% (slightly increased in 56.2%, 47.3% and 54.0% in the last school year) respectively. However, this is higher than the share of female teachers in all types of schools and community schools (Table 26).

| | Total | 56.6 | 43.4 | 1.30 | 49.1 | 50.9 | 0.96 | 54.7 | 45.3 | 1.21 |

The table 3.27 below also explains that, the contributions of the respective communities and schools own sources in the management of teachers in community schools are vital. Based on the reporting from the schools, currently 48,158 teachers are hired by the communities besides working at the lower basic level. At upper basic level 12,757 teachers are hired by the communities besides and currently working at the upper basic level. Thus, there is significant community contribution in the teacher provisions, which are 32.1% at lower basic level and 33.0% at upper basic level in the total reported number of the teachers in community schools.

Table 3.27 Total number of teachers in all types of community schools by levels (hired by the community/schools including PCFs) based on reporting)

Tables 3.28 and 3.29 below show the numbers of teachers and their shares in all types of community schools based on the numbers of teachers working in approved positions and Rahat positions by levels. Overall, 102,035 teachers with 39,146 female teachers at lower basic level, 25,861 teachers with 6,558 female teachers at upper basic level and 127,896 teachers with 45,704 female teachers at basic level are working in the current school year 2020-21. Out of the total numbers of teachers by levels 38.4% at lower basic, 25.4% at upper basic and 35.7% at basic level are female teachers with 0.62, 0.34 and 0.56 GIPs at lower basic, upper basic and in overall basic level in the current school year (See Annex: X).

3.4.2) Proportion of teachers by Dalit and Janajati at basic level

The table 3.30 below present that the Dalits are very under-represented in the teacher workforce as they make up 13% of the population but account at 6.5% of the total teacher workforce including 6.8% of teachers in community schools and 6.2% of teachers in institutional schools at basic level. Among the 7 province, Gandaki, Limbini province, Karnali and Far-western provinces have the highest share of Dalit teachers than in the other provinces. To make more and equitable

participation of teachers from Dalit communities, all tiers of government need to pay ample attention to formulate the policy and programme in this regards(See Annex: X).

Moreover, the following table 3.30 present that the Janajati teacher at basic level with the disaggregation by level and types of schools, where in total 33.6% at basic level with 34.8% at lower basic and 32.5% at upper basic level. Of the total teacher workforce the shares of Janajati teacher in community schools are 32.2% at basic level with 36.2% at lower basic and 28.2% at upper basic level. Similarly, the shares of Janajati teacher in institutional schools are 36.5% at basic level, 31.0% at lower basic level and 42.0% is at upper basic level, indicate that the shares of Janajati teacher is higher in institutional school than in the community schools. Among the 7 province, province 1 possess the highest share of Janajati teachers at all level of basic education than in the other provinces. In terms of the percentage of female teachers are lower than the male and total percentage of Dalit and Janajati teachers in total number of teachers at basic level. In general, both the shares of the Dalit and Janajati teachers at both lower basic and upper basic levels have increased in the school year 2020-21 than in the the previous school year 2019-20.

Table 3.30: percentage of lower and upper basic level Janajati teachers in total number of teachers by type of school, appointment, province and gender (2020-21)

Note: F = female, T = total, L = lower basic, U = upper basic

3.4.3) Student Teacher Ratios at basic level

This section deals with the Student Teacher Ratios (STRs) at basic level by types and levels of schools. This indicator is used to measure the level of human resource inputs in terms of number of teachers in relation to the size of the student/pupil population. It is normally used to compare with established national norms on the number of pupils per teacher for each level or type of school education. It is one of the most common indicators used in the educational planning for the projection of teachers required and also human resource management in the school education especially at the school level.

a) Student Teacher Ratio in all types of schools in basic education

Table 3.31 below presents the STR¹¹ for all types of schools by province and levels in the school year 2020-21 at basic level. On average the STR at lower basic level is 17:1, at upper basic level 33:1 and at basic level 21:1 (Compared to 18:1 at lower basic level, 33:1, at upper basic level 21:1 and at basic level in the previous school year). The highest STR at lower basic level is found in the province number 2 with the STR 35:1; while the lowest is in the province number 4 and 3 with the STRs 9:1 and 14:1. Similarly, at the upper basic level the highest STR is in the province number 2 at 65:1 and the lowest is in the province number 4 at 22:1. Likewise, at the basic level, the highest STR is in the province number 2 (41:1) and the lowest is in the province number 4 (12:1). Hence, although the Student Teacher Ratio at all levels has decreased by almost 1%, as in previous years, the analysis shows that more crowded classes are observed in the province 2 at all levels than in other province. It is worth mentioning that the STRs, at the lower basic and basic levels have decreased in the current school year 2020-21 (See Annex X).

Similarly, the table 3.31 below shows the STRs by province for all types of community schools based on the reported number of all types of teachers (i.e. teachers working in the approved positions, Rahat Teachers and teachers hired by the community). On average, the STR in community schools is 17:1 at lower basic, 36:1 at upper basic, and 21:1 at basic level (Compared to 17:1 at lower basic, 35:1 at upper basic, and 20:1 at basic level in the previous school year). The data reveals that in the context of community schools the STR needs to be considered seriously taking into account to make all children retain in the system and provide quality basic education to all, especially children from disadvantaged communities. At the lower basic level the highest STR (38:1) is in the province 2 and the lowest (8:1) is in the Gandaki province. Similarly, at both upper basic and basic levels, the highest STR is observed in the province 2 and the lowest one is in the Gandaki province. The data reveals that the STR is highest at all levels of education in community schools compared to the STR in all types of schools (Table 3.31) and that the highest STR is in the province number 2 and the lowest STR is in the Gandaki province (Table 3.31) at all levels of schools in both scenarios (See Annex X). Here, due to the significant contribution of the local level/community to hire the teachers locally has played a vital role to lesion the STRs in community schools at basic education and there will be the different scenarios of the STRs with Government approved/rahat teacher only (see the paragraph below).

Table 3.31 and figure 3.4 below show the STR for all types of community schools based on the approved positions and Rahat teachers by levels in the school year 2020-21. On average, the STRs at lower basic, upper basic and basic levels are 26:1, 53:1 and 31:1 (Compared to 24:1, 51:1 and 30:1 in the previous school year) respectively. It shows there has been a slight increase at all levels of basic education than in the previous school years. Again, the province 2 shows the highest STR 50:1; 98:1; and 58:1 at lower basic, upper basic and basic levels, whereas the lowest STR 12:1, 30:1 and 16:1 is found in the Gandaki province at all levels. At the basic level it further illustrates that there are 31 districts (most of these districts are in the Terai belt) with a higher STR than the national average (See Annex X).

As stated above, community contribution to the provision and management of teachers in community schools has been crucial. All the same, in line with the policy to provide quality basic and secondary education to all children, especially the disadvantaged, the government of Nepal has provided support to the community schools based on criteria and availability of funds each year. Basically, funds for both salary and non-salary recurrent and capital activities have

11 *The Student Teacher Ratio (STR) is calculated on the basis of reported number of students and the teachers in all types of schools by level in the school year 2014-015.*

been provided to community schools based on the existing physical and academic status of the schools, students and teachers. For the previous 7 years, the government has provided per child funds (PCFs) to the schools where the required number of teachers are not available. Though this support mechanism is temporary in nature, in this context, if we calculate the teacher number based on the current PCF salary funds and add into the existing approved and Rahat number of teachers, the scenario of the STRs (table 3.31 Column: 5-7) will change.

Table 3.31 Student Teacher Ratio by types of schools by level

| Province | Total | | | Community School with all types of teacher | | | Institutional School | | | Community School with Approved/Rahat teacher | | |

Figure 3.4 Student Teacher Ratios in community schools (based on the approved positions of teachers)

3.5 Secondary Education

This section deals with information regarding secondary education (grade 9-12), with disaggregated information with regard to secondary level with grade 9-10, secondary level with grade 11-12 and secondary level combine with grade 9-12 in the school year 2020-21. As in the previous school year 2013-14 and before this report refers to Secondary with grades 9-10 and the higher secondary level with grades 11-12. In view of the school restructuring as envisaged in the SSRP 2009-2015 and SSDP 2016/17-2022/23, comprehensive secondary education level refers to Grades 9 to 12.

3.5.1 Enrolment

This section provides information on enrolment by types of schools, gender, castes/ethnicities, disabilities and other enrolment-related indicators at secondary education by level (Grades 9-12). As stated earlier (in basic education) with proper use of electronic-based School Level IEMIS in

all schools of the 77 districts and 753 Local Levels, regular follow up and monitoring of the Flash Reporting System at school and local level by the respective person and institution (i.e. Education officers) and also well managed Flash data entry Software with necessary validation rules, the quality of data (with more consistency and accuracy) has improved. In addition, regarding the quality of data, as the CEHRD has upgraded “School Level IEMIS” into Web-based IEMIS from a viewpoint of improving the “School Record Keeping System” at the school level, in the current school year all schools of 753 Local Levels have used this mechanism and submitted their Flash I&II data by using the new mechanism.

3.5.2) Total Enrolment at Secondary level by types of schools

Table 3.32 below show the total enrolment at secondary level with grade 9-10 with 11-12 and secondary level with grade 9-12 in the school year 2020-21. In total 1.74 million (compared to 1.7 million in the last school year) students enrolled in secondary level schooling (grade 9-12) and 0.68 million (0.66 million in the last school year) students in secondary level (grade 11-12) education (See Annex: II). A increased number of enrolments are reported for the current year with 2.3 percent points higher for secondary education (grade 9-10) and 2.8 percent points higher for secondary education (grade 11-12). The reasons behind the increasing trend in student enrolment than in the previous years (especially at the secondary level with grade 11-12) are: increasing trend in population growth rates in the secondary level school age group population. The second one is increasing trends of transition rates from basic level to the secondary level, the third one is expansion on the access of secondary education (establishing the new secondary schools and upgrading the existing basic schools into secondary levels) in remote and disadvantage areas of the country and the fourth one is the because of the policy that have change in curriculum and examination modality (especially for grade 10 examination) that demonstrating enhanced internal efficiency in overall secondary school education system.

Of the 1,064,815 with the 50.0% girl students at secondary level with grade 9-10, 680,221 with the 53.4% girls at secondary level with grade 11-12 in the school year 2020-21. Similarly, at secondary level (grade 9-10) of the total enrolment 78.8% (76.3% in the last school year) are in community schools while 225,607 with the 39.7% girls (42.3% in the last school year) are in institutional schools. Similarly, of the of the total 680,281 students at secondary level with grade 11-12, 487,115 students with the 55.0% girl students are in secondary level (grade 11-12). Overall, at the secondary level (grade 9-12) there were 1,326,323 with the 53.6% girls are in community schools (76.0% compared to 70.0% in the last school year) while 418,713 (44.1% girls) students were in secondary level with grade 9-10 in institutional schools.

As compared to the students at both secondary levels in the previous school year the number of students in the current school year has significantly increased, where, mostly an increment has observed in the community schools. As stated in the introduction section the effect of COVID-19 converted to the heavy out migration of the population with whole family from the urban areas (especially in Kathmandu Valley) to their origin and the students continued their secondary education in their local areas, for this the MOST also facilitated by making the policy provisions to transfer form one school to another school even in the grade 10. The data shows more girls than boys enrolled in all levels of the secondary education in community schools, while in institutional schools significantly more boys than girls students. The higher proportion of boys highlights the higher transfer of boys students as the preference of private schools. Overall, the shares of girls at secondary level have remained more than 50.0% in the current school year as in the previous school years.

Table 3.32: Number of students at secondary level enrolled by level and type of school (2020-21)

| School Types | Province | Secondary Level 9-10 | | | Secondary Level 11-12 | | | Secondary Level 9-010 | | |

| | Gandaki | 8,168 | 12,179 | 20,347 | 9,697 | 9,764 | 19,461 | 17,865 | 21,943 | 39,808 |
| | LIMBINI | 14,315 | 22,689 | 37,004 | 16,845 | 19,173 | 36,018 | 31,160 | 41,862 | 73,022 |
| | Karnali | 1,475 | 2,361 | 3,836 | 1,660 | 1,844 | 3,504 | 3,135 | 4,205 | 7,340 |
| | F_west | 4,985 | 9,522 | 14,507 | 8,329 | 7,291 | 15,620 | 13,314 | 16,813 | 30,127 |
| | Total | 89,649 | 135,958 | 225,607 | 95,131 | 97,975 | 193,106 | 184,780 | 233,933 | 418,713 |

Table 3.33 below shows the grade-wise composition of enrolment at secondary level (grade 9-12). The grade-wise enrolment at the secondary level shows that the trend of the highest share of Grade Nine in total enrolment of the grade 9-12 is continuing. However, of the total 1,745,036 students in the secondary education (grade 9-12), the grade-wise composition of enrolment shows a positive sign, indicating that the difference of shares within the overall secondary (grade 9-12) level's grades is narrowing down (i.e. compared to 32.4% in Grade Nine and 18.8% in Grade Twelve in the last school year 32.3% in Grade Nine and 19.4% in Grade Twelve in the current school year (See Annex: II). The continuous progress in grade-wise higher promotion, and lower repetition and drop-out rates seems to contribute to narrow the gaps in the share of enrolment among all grades of the secondary education level. The grade wise composition of the student at secondary level shows there is higher share in grade 9 and the lower share in grade 12 in the community schools, whereas, it is almost identical in all grade in the institutional schools.

Table 3.33: Number of secondary level students enrolled by grade, type of school and gender (2020-21)

The following table 3.34 presents the number of students by types of religious schools and province in the school year 2020-21. Of the total 839,208 (Table 3.34) students at secondary level (grade 9-10) in all types of the community schools enrolled in the school year 2020-21, in total 904 (with 62.8% girls) students in Madarsa, 101 with non of the girls student in Gumba/Bihar and 588 (11.6% girls) students in Ashram/Gurukul were enrolled at secondary level with grade 9-10. Similarly, Of the total 487,115 (Table 3.34) students at secondary level with grade 11-12 in all types of the community schools enrolled in the school year 2020-21, in total 134 (with 100% girls) students in Madarsa, 13 student (with 7.7% girls) in Gumba/Bihar and 178 students (with none of the girl student) in Ashram/Gurukul were enrolled at secondary level with grade 11-12, where there is very low number of student reported in the Gumba/Bihar school for this level.

Among the province, only the Limbini province, 1 and 2 have reported number of students in Madarsa school. For Gumba/Bihar only the Bagmati and Gandaki provinces reported the number of students and for the Ashram/Gurukul schools except province 2 and Karnali province all other province reported the number of students in the school year 2020-21. Due to the under and uneven reporting of this types of the schools the reported number of the students in the current school year observed very low than in the previous school year and the reporting patterns in the secondary level are different from the basic level. Here, from the planning point of view the interventions to supports the religious schools will be vary by province to province.

3.5.3 Dalit, Janajati, and Other enrolments at secondary education by level

This section presents the details of enrolments at secondary level with the disaggregated information by castes, ethnicities and disadvantage communities of students and types of schools in the school year 2020-21.

a) Dalit and Janajati enrolments at secondary education levels

Tables 3.35 and 3.36 below show the enrolment of Dalit and Janajati students at secondary level with grade 9-10 and secondary level with grade 11-12 by types of schools and their shares in the total enrolment. The overall, shares of the Dalit is 12.6% at secondary level with grade 9-10, 9.8% at secondary level with grade 11-12 and 11.6% at secondary level with grade 9-12, whereas, the share of Janajati students at these levels are 38.0% at secondary (grade 9-10) level, 38.5% at secondary level (grade 11-12) and 38.2% at secondary level with grade 9-12. At the secondary level (grade 9-10) out of the total enrolment the enrolment share of Dalit student is 15.5% in community school and 4.0% in institutional school, whereas their shares at secondary level (grade 11-12) are 13.0% in community schools and 3.8% in institutional schools. When compared to the last year's status of Dalit student shares in total students, as mentioned in the analysis of the total student enrolment there is an increase at all secondary levels in the current school year 2020-21.

Table 3.35: Number of Dalit and Janajati students enrolled in secondary education by level, type of school and province

Similarly, table 3.35 above and 3.36 below depict the status of Janajati students in total students by levels in the secondary education. Compared to the share of Janajati enrolment in the previous school year, the share of enrolment in the total students enrolment at secondary level (grade 9-10) has increased by 2.3 percent points in the current school year (i.e. from 37.6% from 2019 to 38.0% in the current school year 2020), similarly at the secondary level with grade 11-12 it has remained same at 38.5 in the school year 2020-21. Of the total at secondary level (grade 9-10), the share of Janajati students in community schools is 40.8% and 31.7% in institutional schools. Correspondingly, there has been a increase at secondary level with grade 9-12 from 38.1% to 38.2% in total and from 39.2% to 42.8% in community schools, whereas, it has decrease in the institutional school as the enrolment shares of the institutional school have decreased at both levels of the secondary education in the school year 2020-21 (See Annex: III). In total, there is gender parity with girls making up 11.5% of Dalit and 39.4% of Janajati enrolments in secondary level (grade 9-12).

b) Percentage of girls and boys and gender parity indexes in enrolment at secondary levels by social groups.

The Gender Parity Index (GPI) explains the ratio of female to male values (or male to female in certain cases) of a given indicator. A GPI of 1 indicates parity between sexes; a GPI above or below 1 indicates a disparity in favor of one sex over the other. For gender parity to exist, the GPI value should be within the range of 0.97 and 1.03. The following table 3.37 explains and measure the progress towards gender equity in enrolment in the secondary education by total, Dalit and Janajati categories and level based on the shares of the Girls and Boys students in total number of students in the school year 2020-21. The shares of enrolment in total, Dalit and Janajati girls are 50.0%, 50.3% and 51.6% at secondary level (grade 9-10), whereas the shares total, Dalit and Janajati girls at secondary level (grade 11-12) are 53.4%, 52.4% and 55.3%, and at the secondary level with grade 9-12 the share of girls' students are 51.3%, 51.0% and 53.0% in the school year 2020-21. It clearly demonstrates that in the total enrolment the gender parity has been achieved at all level of the secondary education in all types of enrolment in the school year 2020-21 (for instance, 1.05 for total, 1.04 for Dalit and 1.13 for Janajati students at over all secondary level with grade 9-12). It explains the GPI in enrolment at all levels and social categories has been achieved in all provinces except in province 2. The GPI for Janajati students is slightly higher at all levels of the secondary education in the school year 2020-21, whereas at basic level, it was higher in Dalit students than the GPIs in total and Janajati students.

Table 3.37 Percentages of students by sex and Gender Parity Index (GPI) in total and social groups

| School Types | Province | Secondary level_9-10 | | | Secondary level_11-12 | | | Secondary level_9-12 | | |

c) Enrolment at secondary levels by disadvantaged Janajati

From the beginning of the implementation of EFA the government has given high priority to ensure universal access, participation and retention of all children from various disadvantaged population groups in the school education at local level. For this, there have been different interventions to benefit the targeted groups of disadvantaged students (such as girls students, students from the disadvantaged communities and children from all sorts of disabilities) based on the EMIS data presented in each district's Annual Strategic Implementation Plan (ASIP) associated with Annual Work Plan and Budget (AWPB).

Regarding the students from the disadvantage communities, the tables 3.38 below presents the status of Janajati students from extremely disadvantage and deprived groups at lower and upper basic levels in the school year 2020-21. Based on the category of 59 Janajati population groups into 5 categories by the Nepal Adibasi Janajati Maha Sangha in 2003 (2060), the CEHRD has continued to capture the enrolment data of extremely disadvantage and deprived ethnic groups classified as extremely-deprived groups. In the school year 2020-21 the EMIS records 9,311 students with 5,725 (61.5%) Girls students in secondary level (grade 9-10) from the most disadvantaged Janajati groups (Table 3.38). Similarly, at secondary level (grade 11-12) the total number of students of this category is 4,313 with 1,118 (25.9%) girls in the school year 2020-21. However, this data is according to the last names supplied and recorded in the EMIS. As stated in

the basic education the issue here also is that some members of these communities give different names to avoid being identified as belonging to a marginalized group due to stigma and possible discrimination. For example, Hayus are disadvantaged Janajatis; but members of this group often identify themselves as Gurung, which would mean they wouldn't be included in these statistics. This suggests the need to ascertain the actual caste or ethnic identity of students.

Table 3.38: Number of disadvantaged Janajati students enrolled in secondary education by casts/ethnicity group, level and gender (2020-21)

| Cast/ Ethnicities | Province wise disadvantage cast/ethnicities student at secondary level (G9-10) | | | | | | | | Province wise disadvantage cast/ethnicities student at secondary level (G11-12) | | | | | | | |

d) Enrolment by major types of disabilities at secondary education by levels

Table 3.39 below shows the status of students with major types of disabilities (physical: disabilities on the mobility of physical parts, intellectually impaired: includes students with psychological difficulties, intellectual limitations and autism, hearing impaired: students who are profoundly deaf and students with limited hearing and also use sign language for conversation, blind: visually impaired or students who are not able to see and make differences between size and color of any objects, low vision: with limited vision or students who are not able to see and read the E-chart/ Vision chart from 10 yard, deaf and blind: both visually and hearing impaired students, and vocal and speech-related disability respectively) at secondary education by levels in the school year 2020-21, which is a major part of the targeted intervention in school education. In total 14,082 students at secondary level (grade 9-10) and 1,438 students at secondary level with grade 11-12 were reported as having a disability. This suggests that due to the lack of proper care of these students, many students with a disability drop out as they progress through the grades (See Annex: IV).

The overall enrolment percentages of students by types of major disabilities in total enrolment at secondary level with grade 9-10, secondary level with grade 11-12 and secondary level with grade 9-12 are 1.3%, 0.2% and 0.9% respectively. Of them (14,082 in total) at secondary level (G 9-10), 58.2%, 4.5%, 8.1%, 3.5%, 18.0%, 0.2% and 7.5 have a physical (disabilities on the mobility of physical parts), intellectually impaired (includes students with psychological difficulties, intellectual limitations and autism), hearing impaired (students who are profoundly deaf and students with limited hearing and also use sign language for conversation), blind (visually impaired or students who are not able to see and make differences between size and color of any objects), low vision (with limited vision or students who are not able to see and read the E-chart/ Vision chart from 10 yard), deaf and blind (both visually and hearing impaired students), and vocal and speech-related disability respectively.

In the same way, out of the total 1,438 students with a disability at secondary level (G 11-12), 33.6%, 2.9%, 5.8, 3.0% 3.0%, 0.0% and 51.7% students have a physical, mental, deaf, blind, low vision, deaf and blind, and vocal and speech-related disability respectively. Among the province the Limbini province has the highest number of students with disabilities followed by the Bagmati province and Far-western province at secondary level with grade 9-10 whereas, at the secondary level with grade 11-12 the highest number of students with disability is in Karnali province followed by Bagmati province, province 1 and 5 respectively in the school year 2020-21 (See Annex: IV).

Table 3.39 Total number of students by major types of disabilities at lower basic, upper basic and basic levels

| Province | Students by types of disabilities at secondary level (G9-10) | | | | | | | | Students by types of disabilities at secondary level (G11-12) | | | | | | | |

Note: Types of disabilities: 1) Physical (affecting mobility), 2) Intellectually impaired 3) Hearing impaired 4) Visually impaired 5) Low Vision 6) Hearing and Visually impaired 7) Vocal and speech related disabilities

3.5.4) Gross and Net Enrolment Rates, and Gender Parity Index (GER, NER and GPI) in secondary education by levels

The GER is an indicator related to total enrolment at a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population¹² corresponding to the same level of education in a given school year. This indicator is widely used to show the general level of participation in a given level of education. Likewise, the NER is an indicator related to total enrolment of the official age-group for a given level of education expressed as a percentage of the corresponding population. The NER gives a more precise measurement of the extent of participation of children belonging to the official school age in a given level of education. In

¹² Regarding the population used in the calculation of enrolment rates (GER/NER), the same methods were applied as stated in earlier footnotes in the analysis of GIR and NIR.

practice, a high NER denotes a high degree of participation by the official school-age population. The highest theoretical value is 100%. Increasing trends can be considered as reflecting improving participation at the specified level of education. When the NER is compared with the GER, the difference between the two ratios highlights the incidence of under-aged and over-aged enrolment. In the school education, the GER is widely used for the planning to implement educational activities and also to project future requirements for the improvement of school education.

The table 3.40 below shows the level wise status of Gross Enrolment Rate (GER) and Net enrolment Rate (NER) of students at secondary education by level in the school year 2020-21. This report is does not covered the students enrolled in the TEVT system and there is an initiation to link the database of TEVT with EMIS, once it happened then the calculation will make accordingly. Based on the data presented in the table 3.40, the overall GER at secondary level with grade 9-10 is 96.9% (Compared to 94.6% in the previous year) with 97.6% for girls and 96.2% for boys. The overall NER at secondary level with grade 9-10 is 70.8% (69.0% in the last school year) with 71.2% and 70.4% for girls and boys respectively. When compared with the status of the last year school year, the NERs for both girls and boys as well as the total have slightly increased in the school year 2020-21. The present status of NER suggests that approximately 28.0% of 13-14 years' age group population is not enrolled in this level, some of the may be in upper basic level as an over age students and some of this population are out of formal secondary level with grade 9-10 schooling. The table 3.40 further shows that the total GER at secondary level with grade 11-12 is 56.3% (Compare to 51.5% in the last school year) with GER of 58.6% for girls and GER of 54.0% for boys, indicates there is an increment by 4.8% points in the current school year. At the secondary level with grade 9-12, compared with the status of the previous school year the GER in total 75.7% as well as for both genders (76.9% for Girls and 74.4% of Boys) has increased by more than 4.3% points in the current school year (See Annex: V).

The total NER at secondary level with grade 9-12 is 51.2% (47.6% in last school year) with 51.4% for girls and 50.9% for boys in the school year 2020-21. When compared to the status of the previous year (47.6% with 46.9% for girls and 47.3% for boys), the scenario of this year shows a slight increment in total and by gender too. It is worth-mentioning here that the trend of the gender gap continuously narrowing dawn between girls and boys at secondary level with respect to the GER and NER. Moreover, the GPIs in GER by level are 1.02 at secondary level with grade 9-10, 1.09 at secondary level with grade 11-12 and 1.03 at secondary level (grade 9-12). Likewise, the GPIs in NER by level are 1.01 at secondary level with grade 9-10, 1.00 at secondary level with grade 11-12 and 1.01 at secondary level (grade 9-12), which show the participations of girls and boys at all levels are almost equal in both Gross and Net enrolment Rate and the Gender Parity Index at all levels is achieved. Similarly, the Gender Parity Index in Net Enrolment Rate at secondary education presents that there is disparity within the province, especially the province 2 has less participation of the girls at secondary level as compared to the GPIs in other provinces.

The district and Local Level analysis show that at the secondary level (grade 9-12) compared to the set target (i.e. 85.0% GER) of SSDP for 2020-21, there are 60 districts and 645 Local Levels that have lower GER than the set target of SSDP for 2020-21. Similarly, compared to the set target (53.0%) of NER at secondary level (grade 9-12) in SSDP for 2020-21 there are 29 districts and 294 Local Levels that achieved the target, whereas, 40 districts and 423 local Levels which show a low NER at the secondary level.

Table 3.40: Gross and Net Enrolment Rates at lower and upper basic level by gender and province (2020-21)

| Indicators | Province | Secondary Level_9-10 | | | | Secondary Level_11-12 | | | | Secondary Level_9-12 | | | |

3.5.5 Secondary level Internal Efficiency

The introduction of the letter grading system in Grade 10 in 2015/16 has seen the repetition rate in Grade 10 drop significantly (Table 3.41). However, the repetition rate in Grade 9 is still 2.9% but less than in the previous schools year. At the secondary level with grade 11-12, students are promoted to the next grade even if they could not pass in all subjects Grade 11. Table 41 below shows the flow rates of students from the school year 2019-20 to the school year 2020-21 in grade 9 and the percentage of students appeared in the final exam from grade 10 at the secondary level. The table illustrates, out of the total students enrolled in the school year 2019-20 in Grade IX, 94.2% (Compared to 93.2% in the last school year) promoted to Grade Ten, 2.9% repeated the same grade in the current school year, and 2.9% dropped out from the school education system. The table also indicates that the girls' dropout rate in Grade 9 is lower than the dropout rate of boys. Similarly, in total 97.5% of grade 10 students appeared in the final exam in the school year 2020-21, 0.6 repeat the same grade and the 1.9% student dropped within the academic year 2020-21 (See Annex: VI).

In addition, the internal efficiency related indicators (table 3.41 below): Survival rate to grade 10 indicates that of the total students enrolled in grade one almost ten years ago (i.e. in the school year 2011-12) only 64.6% (60.3% in the last school year) percent students reached to grade X. This illustrates that nearly 35.4 percent students either repeated or dropped out without completing secondary education. In other words, almost one child out of every 2 children enrolled in Grade One only reached up to grade 10. This suggests that adequate and equitable resources and particular attention are required with regard to students' retention and their progression from the beginning of school education (See Annex: IX). Similarly the Survival rate to grade 12 indicates that of the total students enrolled in grade one almost 12 years ago (i.e. in the school year 2009-10) only 30.7% (24.0% in the last school year) percent students reached to grade XII. This illustrates that although the progress is in increasing trend nearly 69.0 percent students either repeated or dropped out without completing secondary education up grade 12. This suggests that adequate and equitable resources and particular attention are required with regard to students' retention and transition up to grade 12 with regular progression from the beginning of school education (See Annex: IX).

Table 3.41: Promotion, repetition, dropout rates and Internal efficiency at secondary level (2020-21)

| Students | PRD | Grade Grade9 | Grade 10 | Grade 9-10 |
|----------|----------------------------------|--------------|----------|------------|
| Total | Promotion rate | 94.2 | 97.5 | 95.5 |
| | Repetition rate | 2.9 | 0.6 | 1.8 |
| | Dropout rate | 2.9 | 1.9 | 2.7 |
| | Survival rate to grade 10 | | | 64.6 |
| | Survival rate to grade 12 | | | 30.7 |
| Boys | Promotion rate | 93.5 | 97.4 | 95.3 |
| | Repetition rate | 2.9 | 0.5 | 1.8 |
| | Dropout rate | 3.6 | 2.1 | 2.9 |
| | Survival rate to grade 10 | | | 63.9 |
| | Survival rate to grade 12 | | | 30.0 |
| Girls | Promotion rate | 94.2 | 97.5 | 95.7 |
| | Repetition rate | 2.9 | 0.6 | 1.8 |
| | Dropout rate | 2.9 | 1.9 | 2.4 |
| | Survival rate to grade 10 | | | 65.3 |
| | Survival rate to grade 12 | | | 31.5 |

3.6 Teachers' information at secondary (grade 9-10), secondary (grade 11-12) and secondary levels

This section presents information on teachers at secondary levels by school type, level, sex and the specific indicators related to the teachers. Teachers are defined as persons whose professional activity involves transmitting knowledge, skills and attitudes, which are required as per the approved curriculum for students enrolled in a formal educational institution.

3.6.1) Total reported number of teachers by sex in secondary education by levels in all types of schools

Table 3.42 Total number of teachers by levels (based on reporting) types of schools in secondary education 2020-21

| School Types | Province | Secondary level_9-10 | | | Secondary level_11-12 | | | Secondary level_9-12 | | |

| | LIMBINI | 558 | 1,705 | 2,263 | 96 | 735 | 831 | 654 | 2,440 | 3,094 |
| | Karnali | 41 | 202 | 243 | 5 | 36 | 41 | 46 | 238 | 284 |
| | F_west | 202 | 816 | 1,018 | 48 | 214 | 262 | 250 | 1,030 | 1,280 |
| | Total | 4,497 | 12,627 | 17,124 | 849 | 4,127 | 4,976 | 5,346 | 16,754 | 22,100 |

The tables 3.42 above and 3.43 below present the total number of teachers reported in the Flash I school census 2020-21 at secondary with grade 9-10, secondary with grade 11-12 and secondary with grade 9-12 in the beginning of the school year 2020-21 in all types of schools (both in all types of community and institutional schools). As a whole, there are 44,446 teachers at secondary (G9-10) level; 18,953 teachers at secondary level (G11-12) and all together 63,399 teachers are

at secondary level with grade 9-12. Of them, the numbers of female teachers are 9,662; 3,549 and 13,211 respectively at secondary level (G9-10), secondary level (G11-12) and secondary level with grade 9-12, which shows both the number of female and male teachers has increased compared to the previous school year. The shares of female teachers are 21.7%, 18.7% and 20.8% (compared to 21.5%, 18.5% and 20.6% in the last school year) at secondary level (G9-10), secondary level (G11-12) and secondary level (G9-12) respectively. The GPI at secondary level (G9-10), secondary level (G11-12) and secondary level (G9-12) are 0.28, 0.23 and 0.26 respectively (See Annex: X).

Likewise, out of total number of teachers (table 3.42 and 3.43), the table 3.42 above shows the reported number of teachers in all types of community schools in the beginning of the school year at secondary level (G9-10), secondary level (G11-12) and secondary level (G9-12). The number of teachers given in the table includes all types of teachers (i.e. teachers working in approved positions, Rahat teachers and teachers hired by the community from their own sources). A total of 41,299 teachers with 7,865 female teachers were reported for the secondary level (G9-12), of this 27,322 with 5,165 female at secondary level (G9-10) and 13,977 with 2,700 female at secondary level (G11-12) (See Annex: X). Out of the total numbers of teachers in community schools, the shares of female teachers are 18.9%, 19.3% and 19.0% (Compared to 18.7%, 19.3% and 18.9% in the last school year) at secondary level (G9-10), secondary level (G11-12) and secondary level (G9-12) respectively. Hence, the positive aspect is that the shares of female teachers at all levels of secondary education have slightly improved as compared to the shares of female teachers in the last school year 2019-20.

Likewise, a total of reported number of teachers (Table 3.42 above) in all types of institutional schools at secondary level (G9-10), secondary level (G11-12) and secondary level (G9-12) are 17,124; 4,976 and 22,100 respectively. The shares of female teachers in total number of institutional schools teachers at secondary level (G9-10), secondary level (G11-12) and secondary level (G9-12) are 26.3%, 17.1% and 24.2% (slightly increased in 26.1%, 16.3% and 23.9% in the last school year) respectively. However, this is higher than the share of female teachers in all types of schools and community schools (Table 43 below).

Table 3.43 Shares of teachers by sex and GPI by types of schools and levels at secondary level 2020-21

| School Types | Province | Secondary level_9-10 | | | Secondary level_11-12 | | | Secondary level_9-12 | | |

| Institutional Schools | P1 | 20.5 | 79.5 | 0.26 | 13.9 | 86.1 | 0.16 | 19.0 | 81.0 | 0.23 |
| | P2 | 18.3 | 81.7 | 0.22 | 13.1 | 86.9 | 0.15 | 17.4 | 82.6 | 0.21 |
| | Bagmati | 31.6 | 68.4 | 0.46 | 24.3 | 75.7 | 0.32 | 30.3 | 69.7 | 0.43 |
| | Gandaki | 24.5 | 75.5 | 0.32 | 13.3 | 86.7 | 0.15 | 20.5 | 79.5 | 0.26 |
| | LIMBINI | 24.7 | 75.3 | 0.33 | 11.6 | 88.4 | 0.13 | 21.1 | 78.9 | 0.27 |
| | Karnali | 16.9 | 83.1 | 0.20 | 12.2 | 87.8 | 0.14 | 16.2 | 83.8 | 0.19 |
| | F_west | 19.8 | 80.2 | 0.25 | 18.3 | 81.7 | 0.22 | 19.5 | 80.5 | 0.24 |
| | Total | 26.3 | 73.7 | 0.36 | 17.1 | 82.9 | 0.21 | 24.2 | 75.8 | 0.32 |

The table 3.44 below also explains that, the contributions of the respective communities and schools own sources in the management of teachers in community schools are vital. Based on the reporting from the schools, currently 7,802 teachers are hired by the communities besides 19,520 teachers working in the approved and Rahat positions at secondary level (G9-10). At secondary level (G11-12) 8,118 teachers are hired by the communities besides 5,859 teachers working in the approved and Rahat positions. Thus, out of the total teachers working in the community secondary levels there is significant community contribution in the teacher provisions, which are 28.6% at secondary level (G9-10) and 58.1% at secondary level (G11-12).

Table 3.44 Total number of teachers in all types of community schools by levels (hired by the community/schools including PCFs) based on reporting)

Tables 3.45 and 3.46 below show the numbers of teachers and their shares in all types of community schools based on the numbers of teachers working in approved positions and Rahat positions by levels. Overall, 19,520 teachers with 3,800 female teachers at secondary level (G9-10), 5,859 teachers with 680 female teachers at secondary level (G11-12) and 25,379 teachers with 4,480 female teachers at secondary level (G9-12) are working in the current school year 2020-21. Out of the total numbers of teachers by levels 19.5% at secondary level (G9-10), 11.6% at secondary level (G11-12) and 17.7% at secondary level (G9-12) are female teachers with 0.24, 0.13 and 0.21 GIPs at secondary level (G9-10), secondary level (G11-12) and in overall secondary level (G9-12) in the current school year (See Annex: X).

Table 3.45 Total number of teachers in all types of community schools by levels (based on approved positions)

| | Female | Male | GPI | Female | Male | GPI | Female | Male | GPI |
| Province1 | 17.9 | 82.1 | 0.22 | 9.9 | 90.1 | 0.11 | 16.2 | 83.8 | 0.19 |
| Province2 | 14.3 | 85.7 | 0.17 | 4.4 | 95.6 | 0.05 | 12.6 | 87.4 | 0.14 |
| Bagmati | 24.2 | 75.8 | 0.32 | 14.4 | 85.6 | 0.17 | 22.3 | 77.7 | 0.29 |
| Gandaki | 23.1 | 76.9 | 0.30 | 14.0 | 86.0 | 0.16 | 21.0 | 79.0 | 0.27 |
| Province5 | 18.1 | 81.9 | 0.22 | 9.6 | 90.4 | 0.11 | 16.1 | 83.9 | 0.19 |
| Karnali | 14.7 | 85.3 | 0.17 | 7.1 | 92.9 | 0.08 | 12.3 | 87.7 | 0.14 |
| Far-western | 17.3 | 82.7 | 0.21 | 15.7 | 84.3 | 0.19 | 16.8 | 83.2 | 0.20 |
| Total | 19.5 | 80.5 | 0.24 | 11.6 | 88.4 | 0.13 | 17.7 | 82.3 | 0.21 |

3.6.2) Proportion of teachers by Dalit and Janajati at basic level

The table 3.47 present that the Dalits are very under-represented in the teacher workforce as they make up between 13% of the population but account for only 6.5% of the total teacher workforce including 7.8% of teachers in community schools and 5.1% of teachers in institutional schools at secondary education level (Grades 9-12). Among the 7 province, Karnali, Gandaki, and Far-western provinces have the highest share of Dalit teachers than in the other provinces. To make more and equitable participation of teachers from Dalit communities, all tires of government need to pay ample attention to formulate the policy and programme in this regards (See Annex: X).

Moreover, the following table 3.47 present that the Janajati teacher at secondary level with the disaggregation by level and types of schools, where in total 23.3% at secondary level (Grades 9-12) with 21.8% at secondary level (G9-10) and 24.8% at secondary level (G11-12) are the Janajati teachers in total teachers at secondary levels. Of the total teacher in the community schools the shares of Janajati teacher are 21.5% at secondary level (G9-12) with 22.1% at secondary level (G9-10) and 21.0% at secondary level (G11-12). Similarly, the shares of Janajati teacher in institutional schools are 25.0% at secondary level (G9-12), 21.4% at secondary level (G9-10) and 28.6% is secondary level (G11-12), indicate that the shares of Janajati teacher is higher in institutional school than in the community schools. Among the 7 province, province 1 possess the highest share of Janajati teachers at all levels of the secondary education, whereas, at the Far-western province has the lowest share of Janajati teacher than in other provinces. In terms of the percentage of female teachers are lower than the male and total percentage of Dalit and Janajati teachers in total number of teachers at secondary level, indicates that the female participation is lower in the teaching force at the secondary education and need to have an effective mechanism policy provision in this regards.

Table 3.47: percentage of lower and upper basic level Janajati teachers in total number of teachers by type of school, appointment, province and gender (2020-21)

| Province | | Dalit teachers | | | | | | Janajati teachers | | | | | |

3.6.3) Student Teacher Ratios (STR) at secondary level

This section deals with the Student Teacher Ratios (STRs) at secondary level by types and levels of schools. This indicator is used to measure the level of human resource inputs in terms of number of teachers in relation to the size of the student/pupil population. It is normally used to compare with established national norms on the number of pupils per teacher for each level or type of school education. It is one of the most common indicators used in the educational planning for the projection of teachers required and also human resource management at the school level.

a) Student Teacher Ratio in all types of schools in secondary education

Table 3.48 below presents the STR¹³ for all types of schools by province and levels in the school year 2020-21 at secondary level (G9-12). On average the STR at secondary level (G9-10) level is 24:1, at secondary level (G11-12) 36:1 and at secondary level (G9-12) is 28:1. The highest STR at secondary level with grade 9-10 is found in the province number 2 with the STR 47:1; while the lowest is in the Bagmati province with the STRs 17:1. Similarly, at the secondary level (G11-12) the highest STR is in the province number 2 at 66:1 and the lowest is in the Gandaki province at 20:1. Likewise, at the secondary level (G9-12), the highest STR is in the province number 2 (52:1) and the lowest is in the Gandaki province (18:1). Hence, the analysis shows that more crowded classes are observed in the province 2 at all levels than in other province. It is worth mentioning that the STRs, at the both secondary levels it is necessitating to consider data based reform in policy/legal provision with regard to STR at all levels of school education in the future.

The table 3.48 below shows the STRs by province for all types of community schools based on the reported number of all types of teachers (i.e. teachers working in the approved positions, Rahat Teachers and teachers hired by the community). On average, the STR in community schools is 31:1 at secondary level (G9-10), 35:1 at secondary level (G11-12), and 32:1 at secondary level (G9-12). The data reveals that in the context of community schools the STR needs to be considered seriously taking into account to make all children retain in the system and provide quality education to all, especially children from disadvantaged communities. At the secondary level (G9-10) the highest STR (58:1) is in the province 2 and the lowest (19:1) is in the Bagmati and Gandaki provinces. Similarly, at both secondary level (G11-12) and secondary level (G9-12), the highest STR is observed in the province 2 and the lowest one is in the Gandaki province.

The data reveals that the STR is highest at all levels of education in community schools compared to the STR in all types of schools (Table 3.48) and that the highest STR is in the province number 2 and the lowest STR is in the Bagmati and Gandaki provinces at all levels of secondary schools in both scenarios (See Annex X). Here, due to the significant contribution of the local level/community to hire the teachers locally has played a vital role to lesion the STRs in community schools at all levels of secondary education and there will be the different scenarios of the STRs with Government approved/rahat teacher only (see the paragraph below).

Table 3.48 below further elaborates the STR for all types of community schools based on the approved positions and Rahat teachers by levels in the school year 2020-21. On average, the STRs at secondary level (G9-10), secondary level (G11-12) and secondary level (G9-12) are 43:1, 83:1 and 52:1 (Compared to 40:1, 73:1 and 48:1 in the previous school year) respectively. It shows there has been a slight increase in STR at all levels of secondary education than in the previous school years. Again, the province 2 shows the highest STR 69:1; 135:1; and 81:1 at secondary level (G9-10), secondary level (G11-12) and secondary level (G9-12), whereas the lowest STRs are found in the Gandaki province at all levels of secondary education in the school year 2020-21 (See Annex X).

As stated above, community contribution to the provision and management of teachers in community schools has been crucial. All the same, in line with the policy to provide quality basic and secondary education to all children, especially the disadvantaged, the government of Nepal has provided support to the community schools based on criteria and availability of funds each year. Basically, funds for both salary and non-salary recurrent and capital activities have been provided to community schools based on the existing physical and academic status of the schools, students and teachers. For the previous 7 years, the government has provided per child funds (PCFs) to the schools where the required number of teachers are not available. Though this

13 *The Student Teacher Ratio (STR) is calculated on the basis of reported number of students and the teachers in all types of schools by level in the school year 2014-015.*

support mechanism is temporary in nature, in this context, if we calculate the teacher number based on the current PCF salary funds and add into the existing number of teachers, the scenario of the STRs (table 3.48 Column: 5-7) will change.

Table 3.48 Student Teacher Ratio by types of schools by level

| Province | Total | | | Community School with all types of teacher | | | Institutional School | | | Community School with Approved/Rahat teacher | | |
|-------------|-----------|-------------|------------|--|-------------|------------|----------------------|-------------|------------|--|-------------|------------|
| | Sec(9-10) | Sec (11-12) | Sec (9-12) | Sec (9-10) | Sec (11-12) | Sec (9-12) | Sec (9-10) | Sec (11-12) | Sec (9-12) | Sec (9-10) | Sec (11-12) | Sec (9-12) |
| Province1 | 24 | 50 | 31 | 29 | 46 | 34 | 15 | 60 | 25 | 37 | 102 | 50 |
| Province2 | 47 | 66 | 52 | 58 | 71 | 61 | 22 | 48 | 26 | 69 | 137 | 81 |
| Bagmati | 15 | 28 | 18 | 19 | 25 | 21 | 11 | 33 | 15 | 33 | 77 | 42 |
| Gandaki | 17 | 20 | 18 | 19 | 21 | 20 | 11 | 18 | 13 | 25 | 55 | 32 |
| Province5 | 28 | 38 | 31 | 35 | 36 | 35 | 16 | 43 | 24 | 49 | 90 | 58 |
| Karnali | 46 | 50 | 48 | 51 | 49 | 50 | 16 | 85 | 26 | 66 | 91 | 74 |
| Far-western | 31 | 35 | 32 | 36 | 31 | 34 | 14 | 60 | 24 | 53 | 61 | 56 |
| Total | 24 | 36 | 28 | 31 | 35 | 32 | 13 | 39 | 19 | 43 | 83 | 52 |

3.6.4) Teacher training

The analysis of this section presents the status of the teachers working in the community schools by Teacher Professional Development (TPD) training by level in the basic education and secondary education. The information related to teacher training is the quality aspect of school education, which contributes to improve the classroom teaching learning activities and the learning efficiency of the students as well. With the implementation of the SSDP the government needs and priority on teacher training have changed to the Modular basis such as Teacher Professional Development (TPD). In this respect, the CEHRD has been continuously collecting and analyzing the status of teacher training based on the definitions of teacher training programme.

Based on the reporting by electronic-based School Level IEMIS in the current school year 2020-021, regardless of the module of the TPD training (TPD I, TPD II and TPD III), of the total 127,896 (Approved and Rahat positions) teachers working in the community schools at the basic level in total 97,221 (76.0%) teachers with 78,326 (76.8%) of lower basic level and 18,895 (73.1%) teachers of upper basic level are trained in this modality. Though the achievement of the training seems very impressive, there is a need of further analysis of its impacts in the student learning achievement and also need to prepare the plan to bring all teachers in this modality of the teacher training.

As mentioned in the basic level the table 3.49 below also presents the status of the teachers with regard to Teacher Professional Development (TPD) training by gender at secondary level (Grades 9-10). In this level, based on the reporting by School Level IEMIS in the Flash I School Census 2020-021, of the total 19,520 (Approved and Rahat positions) teachers working in the community schools at the secondary level in total 14,995 (76.8%) teachers with 66.3% female and 79.4% of male teachers are trained with this modality. Again, though this achievement of the training seems very impressive, there is almost 23.2% of the teachers in this level are to be trained, for this there is a need of further plan to provide full 1 month training by adopting an appropriate modality of teacher training even in the given context of the COVID-19 situation.

Table 3.49

Status of teacher training based on TPD programme in all types of community schools at secondary level, 2020-21

| Training status | Lower basic | | | Upper basic | | | Basic | | | Secondary level | | |
|-----------------------|-------------|--------|---------|-------------|--------|--------|--------|--------|---------|-----------------|--------|--------|
| | Female | Male | Total | Female | Male | Total | Female | Male | Total | Female | Male | Total |
| Total teachers | 39,146 | 62,889 | 102,035 | 6,558 | 19,303 | 25,861 | 45,704 | 82,192 | 127,896 | 3,800 | 15,720 | 19,520 |
| Trained with TPD | 30,787 | 47,539 | 78,326 | 4,602 | 14,293 | 18,895 | 35,389 | 61,832 | 97,221 | 2,520 | 12,475 | 14,995 |
| % of trained with TPD | 78.6 | 75.6 | 76.8 | 70.2 | 74.0 | 73.1 | 77.4 | 75.2 | 76.0 | 66.3 | 79.4 | 76.8 |

SECTION IV

4.1 Availability of textbooks at lower basic, upper basic and secondary levels in community schools

The school level statistics at the beginning of the school year 2020-21 based on data received up to the date of 7th. November 2020 (as due to the effects of the COVID-19 pandemic the original prescribed date of Flash I School Census:- May 20th 2019 was significantly delayed) is the base to presenting various dimensions of education statistics to monitor the activities of the School Sector Development Plan (SSDP) 2016-017 to 2020-021. As per the commitment of the government on SDG4 to “Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.” The SSDP has been the main mechanism to fulfil the commitments towards the SDG4. Among the various interventions under the SSDP to make the availability of full set of free textbooks within the 1st. month of each academic year (i.e. by 14th. May) for every student of basic level is one of the most and first intervention of the government in school education. The textbooks are the main instructional materials for continuing the classroom teaching/learning activities in schools and improve the learning achievements of students as prescribed in the respective curriculum. The Ministry of Education is committed, especially for lower basic school children, to deliver all new textbooks by the end of the 1st. month of each new school year.

This section presents the status of the availability of free full set of new textbooks within the prescribed time line on each student's hand. For this, the indicator "percentage of students with full set of textbooks within the 1st. month of the new school year" monitor the progress and has been presenting the Flash I report continuously. Especially this indicator is the process and performance indicator that provide the information of how and what?. The Flash Report 2020-021 provides valuable insight to schools, all levels of the governments and policy makers to monitor this indicator and accelerate progress to make continuation of the students learning towards success of the SSDP with overall equity and inclusion measures.

In this regards, since the school year 2077/78 has severely affected from the pandemic of COVID-19 all the academic functions including the new admission and re-admission of the students delayed almost for the 9 months. Due to the long time closer of the schools, the information for the Flash I&II were also distrusted to manage within the prescribed timeline of the Flash I&II school census (i.e. by April 5th. and May 20th. 2020). Even the school were closed and no formal activities of the teaching learning for the students the MOEST distributed the textbooks and utilized various alternative means to ensure continuity of learning of all children as per its commitment and the right of all children in Nepal. During school closer period the Flash I school census was also continue to capture the information where it was possible with an additional contingency feature added in IEMIS Web-based portal to monitor the different types of alternative learning modalities that Local Governments introduced and the extent to which students accessed these, which also has been presented in table 4.3 below.

a) Basic level

Table 4.1: Proportion of lower and upper basic level students by grade and province receiving textbooks on time (2020-21)

| Grade | Text books received | Province 1 | Province 2 | Bagmati | Gandaki | Limbini province | Karnali | Far Western | Total |
|---------|---------------------|------------|------------|---------|---------|------------------|---------|-------------|-------|

Notes: On-time = receiving by the end of the 1st. month of academic year. Full = received full set of textbooks.

Table 4.1 above presents the status of availability of the new textbooks by students of each grade in the categories of Full sets of textbooks, Partial sets of textbooks, Old sets of textbooks and not receiving the textbooks in percentage within the 1st month of the school year 2020-21 in the community basic school levels. As discussed above due to the COVID-19 pandemic situation it was very delayed reporting on the status of availability of full sets of new textbooks to the students. In this regards, it shows that out of the total number of enrolled students at the basic level in the country: Overall, only 58.8% (as compared to more than 90% in the last school year) of students across all basic grades have received textbooks within end of the 1st month of the academic year 2020-21 (Table 4.1). A further 8.0% of students in Grades 1 to 8 received partial sets of textbooks within this period while 7.3% of students in these grades re-used old textbooks and almost 26.0% of students did not receive any textbooks on time.

As the enrolment of the students was continued and there was no fixed timeline, after the prescribed timeline, it was continued to distribute the textbooks as well. In the school year (2020-21) the average proportion of students that received full sets of textbooks, within the end of the 1st month of the academic year was 61.6% at lower basic level and 56.1% at upper basic level.

b) Secondary level

Similarly, the table 4.2 below present that on average of 68.3% of grade 9 and 71.5% of 10 students received the textbooks on time while 27.4% of Grade 9 students and 24.2% of Grade 10 students did not receive any textbooks on time (Table 4.2). The remaining 2.0% and 2.3% of Grade 9 students received some of their textbooks or reused old textbooks. 2.2% of the Grade 10 students receiving their partial sets of the textbooks and the remaining 2.0% of the students reusing old textbooks in the school year 2020-21. As for secondary level, the average percentage of students that received the full sets of textbooks, within the end of the 1st month of academic year 2020-21 was 69.9%, with the other 4.3% of either receiving a partial set or reusing old textbooks and the 25.8% of students did not received any textbook with the prescribed timeline of the school year 2020-21.

Table 4.2: Proportion of students in secondary level (Grade 9-10) receiving textbooks on time, by grade and province (2020-21)

| Province | Grade 9 | | | | Grade 10 | | | | Grades 9–10 (average) | | | |
|------------------|-------------|------------|------------|-------------|-------------|------------|------------|-------------|-----------------------|------------|------------|-------------|
| | Full | Partial | Re-use | None | Full | Partial | Re-use | None | Full | Partial | Re-use | None |
| Province 1 | 71.0 | 1.8 | 1.8 | 25.5 | 73.9 | 2.0 | 2.0 | 22.0 | 72.4 | 1.9 | 1.9 | 23.8 |
| Province 2 | 66.3 | 1.4 | 2.1 | 30.1 | 69.4 | 1.4 | 2.5 | 26.6 | 67.9 | 1.4 | 2.3 | 28.4 |
| Bagmati | 70.1 | 2.3 | 2.6 | 24.9 | 74.2 | 1.7 | 1.5 | 22.6 | 72.2 | 2.0 | 2.0 | 23.8 |
| Gandaki | 69.9 | 1.5 | 1.2 | 27.4 | 73.6 | 1.7 | 1.4 | 23.3 | 71.8 | 1.6 | 1.3 | 25.4 |
| Limbini province | 65.1 | 2.1 | 2.0 | 30.8 | 67.1 | 2.5 | 1.7 | 28.7 | 66.1 | 2.3 | 1.8 | 29.7 |

| Far Western | 59.4 | 3.5 | 4.5 | 32.6 | 64.5 | 3.4 | 3.3 | 28.9 | 61.9 | 3.4 | 3.9 | 30.8 |
| Total | 68.3 | 2.0 | 2.3 | 27.4 | 71.5 | 2.2 | 2.0 | 24.2 | 69.9 | 2.1 | 2.2 | 25.8 |

Notes: On-time = receiving by the end of the 1st. month of academic year. Full = received full set of textbooks.

Despite the efforts made (Table 4.1 and 2) in the pandemic situation, a majority of the students in basic and secondary education will have suffered a significant loss of learning due to the school closures. In addition, the following table presents the proportion of students at all levels of the school education that used the alternative modes of learning during the pandemic situation of COVID-19 to make continue their learning. From table below, the relevance of low-tech modalities is clearly visible, with teachers continuing to teach students in adjusted small groups and students continuing to learn through printed materials being the preferred modalities over media-based and online resources by the majority of Local Governments.

Table 4.3: Proportion of students at all levels of the school education that used the alternative modes of learning, 2020-21

| Province | Total Number of Schools | Print materials provided by LG/ School | | Broadcast by Radio | | Broadcast by NTV | | Computer without Internet Connection | | Learning Portal | | Teacher in Small Group in Community/ School | |
